Shine LUEST 6H-FANG-WH

Shine LUEST Modern LED Ceiling Light (6 Rings, White)

Model: 6H-FANG-WH

INTRODUCTION

This manual provides detailed instructions for the safe installation, operation, and maintenance of your Shine LUEST Modern LED Ceiling Light. Please read this manual thoroughly before installation and retain it for future reference. Proper installation and use are essential for optimal performance and safety.

SAFETY INFORMATION

- **Electrical Safety:** Always turn off the power at the circuit breaker or fuse box before beginning installation, maintenance, or cleaning. Failure to do so may result in electric shock, injury, or death.
- **Qualified Electrician:** If you are unsure about the installation process, consult a qualified electrician.
- **Wiring:** Ensure all electrical connections are made in accordance with local codes, ordinances, and the National Electric Code (NEC).
- **Mounting:** The mounting surface must be capable of supporting the weight of the fixture.
- **Handling:** Handle the light fixture with care to avoid damage to the LED components or acrylic parts.
- **No Dimmer Switches:** This fixture is not compatible with external dimmer switches. Dimming functionality is controlled via the included remote or app. Using an external dimmer switch may damage the fixture.

PACKAGE CONTENTS

Verify that all components are present and undamaged before proceeding with installation.

- LED Ceiling Light Fixture (6 Rings, White)
- Remote Control
- Mounting Hardware (screws, wire nuts, mounting bracket)
- Instruction Manual

SPECIFICATIONS

Brand	Shine LUEST
Model Name	6H-FANG-WH
Color	6 Rings, White
Material	Acrylic, Aluminum
Product Dimensions	31.49"L x 23.62"W x 9.84"H (80cm L x 60cm W x 25cm H)
Item Weight	5 Pounds
Power Source	Corded Electric
Voltage	110 Volts
Wattage	90 Watts
Brightness	6540 Lumens
Color Temperature	3000K (Warm White) - 6000K (Cool White)
Dimmability	10% - 100% (via remote/app only)
Control Method	Remote Control, Mobile App, Wall Switch (On/Off only)
Special Features	Adjustable Color Temperature, Dimmable, Memory Function, No Flicker, High CRI (90+)
Indoor/Outdoor Usage	Indoor

Note: The fixture is not water resistant and should only be used indoors.

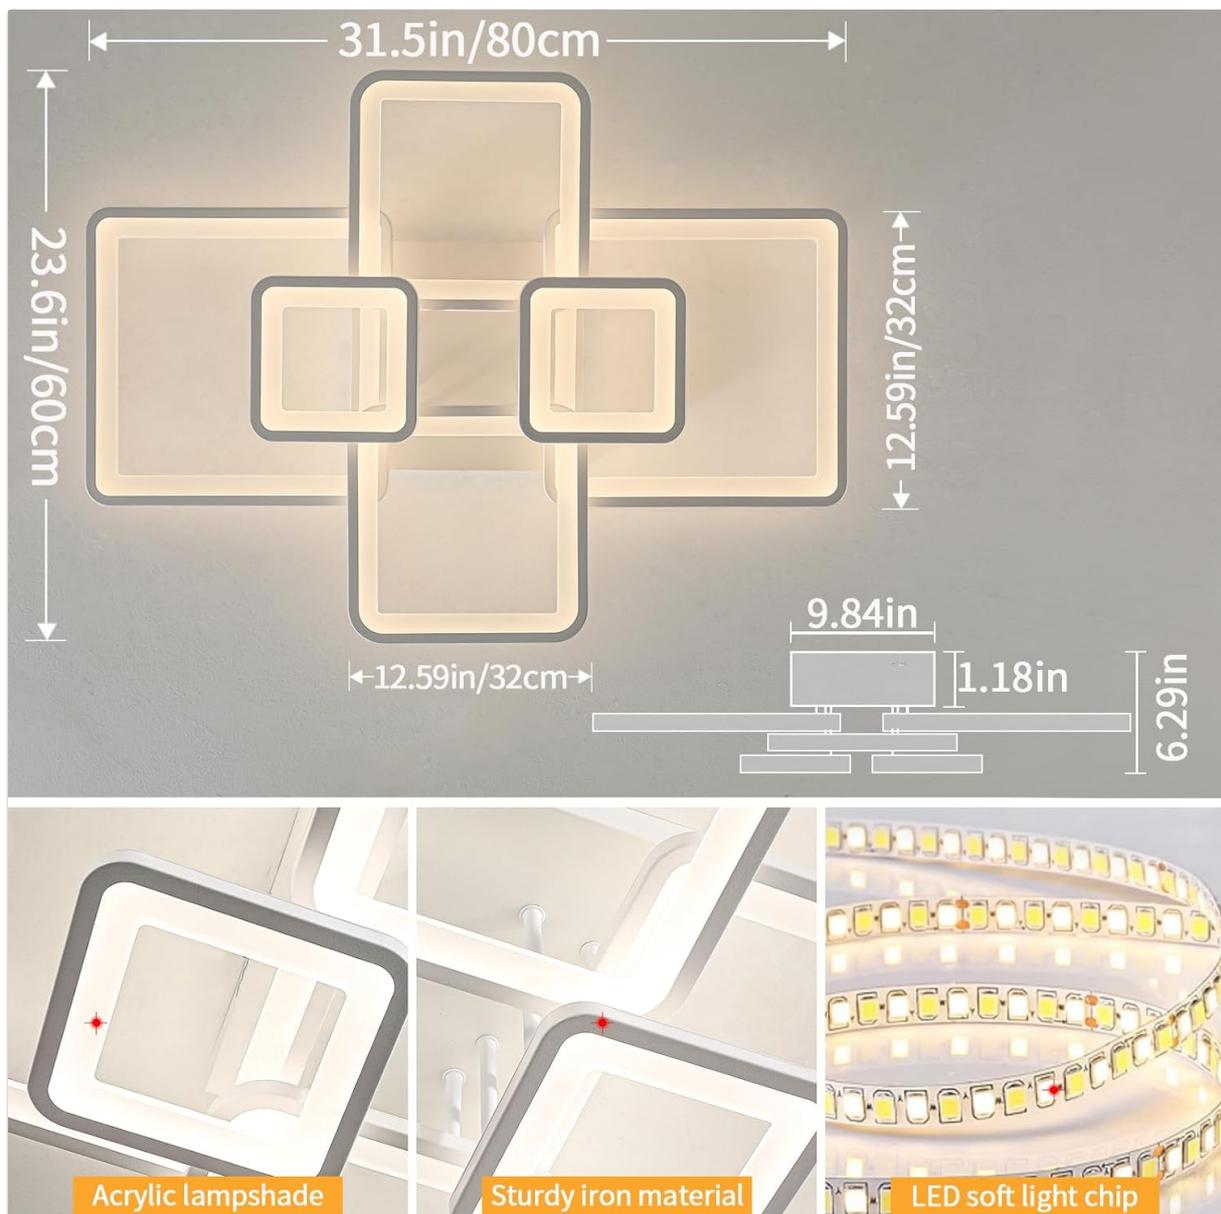

Figure 1: Product Dimensions and Key Components. The diagram illustrates the overall dimensions (31.5in L x 23.6in W x 9.84in H) and highlights the acrylic lampshade, sturdy iron frame, and integrated LED soft light chips.

SETUP AND INSTALLATION

Important: Before starting, ensure the power supply is turned off at the circuit breaker to prevent electric shock.

1. **Prepare the Mounting Surface:** Ensure the ceiling junction box is securely installed and capable of supporting the fixture's weight.
2. **Attach Mounting Bracket:** Secure the provided mounting bracket to the ceiling junction box. *Note: Some users have reported that the mounting bracket holes may not align with standard American junction boxes. If this occurs, new holes may need to be drilled into the bracket for proper alignment.*
3. **Assemble Light Rings (if necessary):** The fixture may require minor assembly of the light rings to the main base. Follow the visual guides provided in the packaging to connect the rings securely. Ensure all connections are firm.
4. **Electrical Connections:** Connect the household electrical wires to the fixture's wires using the provided wire nuts. Typically, connect the black wire from the fixture to the black wire from the ceiling, the white wire from the fixture to the white wire from the ceiling, and the ground wire from the fixture to the ground wire from the ceiling. Ensure all connections are tight and secure.

5. **Mount the Fixture:** Carefully lift the fixture and align it with the mounting bracket. Secure the fixture to the bracket using the screws provided.
6. **Restore Power:** Once the fixture is securely mounted and all connections are made, restore power at the circuit breaker.

OPERATING INSTRUCTIONS

Your Shine LUEST LED Ceiling Light offers versatile control options for brightness and color temperature.

Using the Remote Control

The included remote control allows for full adjustment of the light's features.

- **Power On/Off:** Press the **ON/OFF** button to turn the light on or off.
- **Brightness Adjustment (Dimming):** Use the **Brightness Up (+)** and **Brightness Down (-)** buttons to adjust the light intensity from 10% to 100%.
- **Color Temperature Adjustment:** Use the **Warm (3000K)** and **Cool (6000K)** buttons to cycle through or directly select color temperatures, including a neutral white (4000K) option.

- **Memory Function:** The light will remember your last brightness and color temperature settings when turned off and on again.

Using a Mobile App

Refer to the specific instructions provided with the fixture for downloading and pairing the compatible mobile application. The app typically offers similar control over brightness, color temperature, and potentially additional features like scheduling.

Using a Standard Wall Switch

A standard wall switch can be used to turn the light fixture ON and OFF. However, it will not control dimming or color temperature. These functions are exclusively available via the remote control or mobile app. **Do not connect this fixture to an external dimmer switch.**

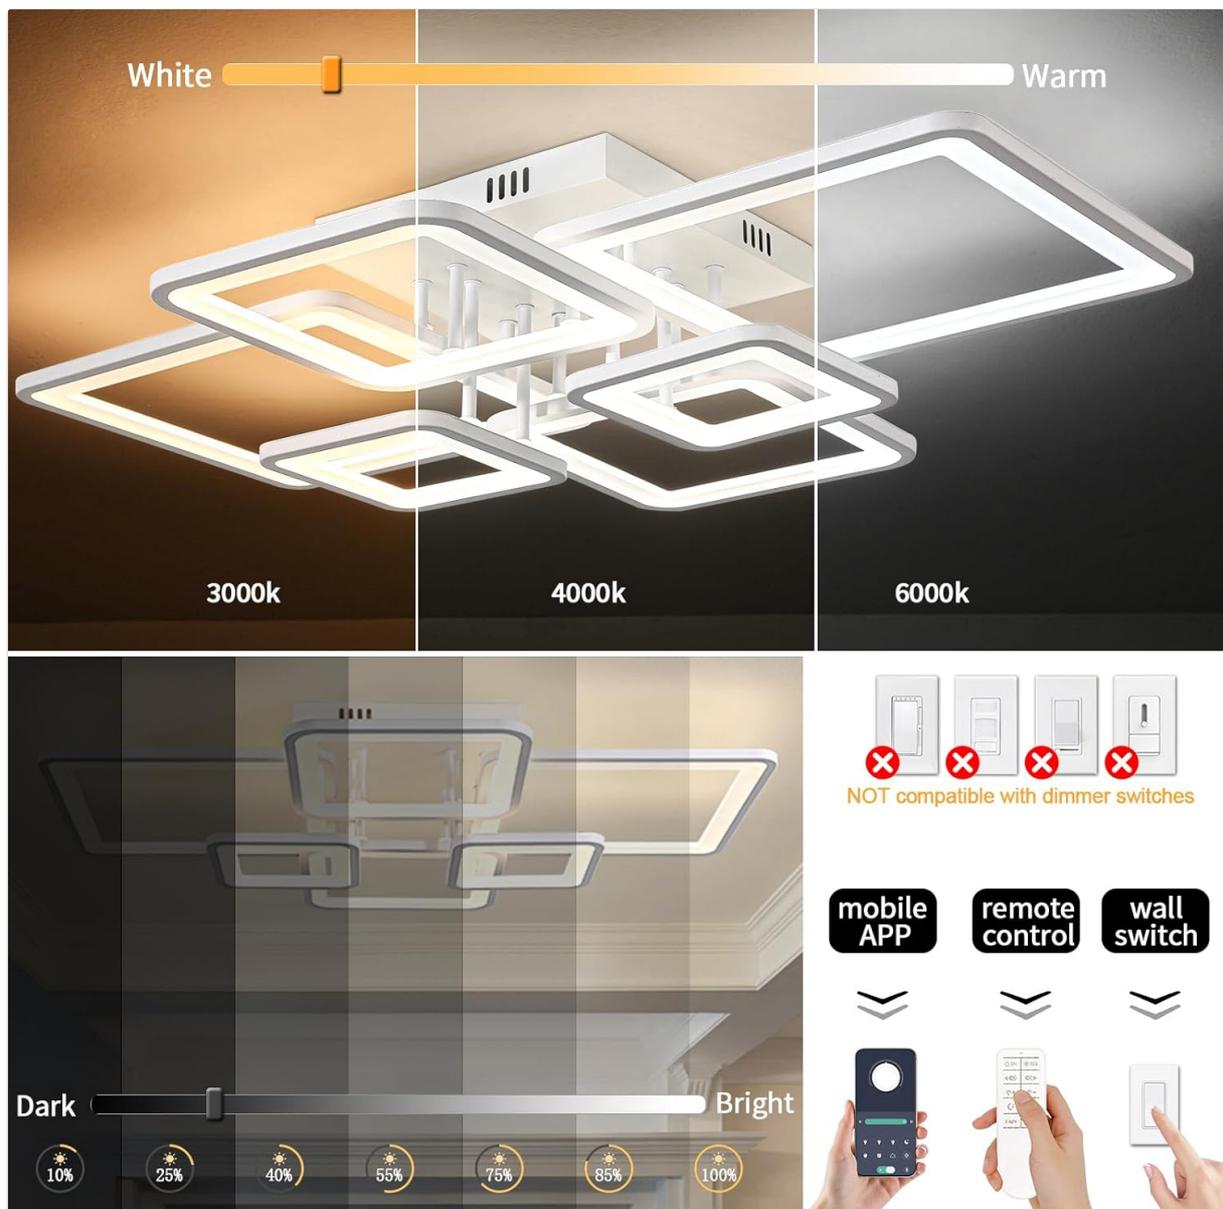

Figure 3: Dimmable and Color Temperature Control. This graphic illustrates the range of color temperatures (3000K warm to 6000K cool) and brightness levels (10% to 100%) achievable with the light, emphasizing control methods and incompatibility with external dimmer switches.

MAINTENANCE

- **Cleaning:** Ensure the power is off before cleaning. Use a soft, dry, or slightly damp cloth to wipe the

fixture. Do not use abrasive cleaners, solvents, or polishes as they may damage the finish or acrylic components.

- **Bulb Replacement:** This fixture uses integrated LED chips and does not require traditional bulb replacement. The LED chips have a long lifespan (over 50,000 hours). If the LEDs fail, the entire fixture may need to be replaced.
- **Inspection:** Periodically inspect the fixture for any signs of damage or loose connections. If any issues are found, turn off the power and consult a qualified electrician.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	No power, loose wiring, faulty remote.	Check circuit breaker. Ensure all wiring connections are secure. Replace remote batteries.
Remote control not working.	Dead batteries, remote not paired, obstruction.	Replace remote batteries. Ensure remote is pointed at the fixture. Refer to remote pairing instructions (if applicable, usually in separate remote manual).
Light does not dim or change color temperature.	Using an external dimmer switch, remote/app issue.	Ensure no external dimmer switch is installed. Use only the provided remote or mobile app for dimming and color adjustment. Check remote batteries.
Light flickers or buzzes.	Loose wiring, incompatible dimmer (if mistakenly installed), faulty fixture.	Turn off power and check wiring connections. Ensure no external dimmer switch is used. If problem persists, contact support.
App control not working.	App not paired, Bluetooth/Wi-Fi issue, app malfunction.	Ensure Bluetooth/Wi-Fi is enabled on your device. Follow app pairing instructions. Restart app or device.

WARRANTY

This Shine LUEST LED Ceiling Light comes with a limited warranty. Please refer to the warranty card included in your package or contact Shine LUEST customer support for specific details regarding coverage and duration.

SUPPORT

For technical assistance, troubleshooting not covered in this manual, or warranty inquiries, please contact Shine LUEST customer support through the retailer where the product was purchased or visit the official Shine LUEST website.
