Faber Hood Mojito IN HC SC FL BK 60 Vertical Wall Mounted Chimney User Manual

Model: 325.0710.409

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation, installation, and maintenance of your Faber Hood Mojito IN HC SC FL BK 60 Vertical Wall Mounted Chimney. Please read these instructions carefully before using the appliance and retain them for future reference.

2. SAFETY INFORMATION

- Ensure the power supply matches the specifications on the rating label.
- Installation must be performed by a qualified technician.
- Do not operate the chimney without filters in place.
- Regular cleaning is crucial to prevent fire hazards from grease accumulation.
- Keep children away from the appliance during operation.
- Do not flambé under the chimney.
- Disconnect power before any cleaning or maintenance.

3. PRODUCT OVERVIEW

The Faber Hood Mojito IN HC SC FL BK 60 is a vertical wall-mounted kitchen chimney designed for efficient smoke and odor extraction. It features advanced controls and a filterless design for ease of use and maintenance.

Key Features:

- **Type:** Vertical/Slant Shape, Wall Mounted
- **Suction Power:** 1200 m³/hr
- **Filter Type:** Filterless, corrosion-resistant single layer filter
- **Control Type:** Touch Control, Gesture Control, Motion Sensor (On, Off, Speed Switching)
- **Speeds:** 3
- **Special Features:** AutoClean, 1 LED Lamp, Dual Suction Vents

4. SPECIFICATIONS

Specification	Value
Model Number	325.0710.409
Dimensions (LxWxH)	60 x 41.5 x 48.5 Centimeters
Size	60 cm (Suitable for 2-4 burner stove)
Air Flow Capacity	1200 m ³ /hr
Noise Level	58 dB
Material	Metal
Voltage	230 Volts

Wattage	180 Watts
Item Weight	14.7 Kilograms
Light Source Type	LED
Country of Origin	China

5. INSTALLATION

Proper installation is critical for the performance and safety of your chimney. It is highly recommended to have the chimney installed by a certified professional. Refer to the included installation guide for detailed steps.

Pre-Installation Checks:

- **Cabinet Size:** Ensure adequate space between kitchen cabinets for the chimney.
- **Width:** Measure the clear width between cabinets. Common chimney widths are 60 cm, 75 cm, or 90 cm.
- **Height:** Measure the height from the gas stove to the desired chimney base position. For slant models like this one, the recommended minimum clearance is typically 18-22 inches (45-55 cm) from the cooking surface. Always confirm specific clearance requirements in the detailed installation manual.
- **Ducting:** Decide between ducted installation (expelling smoke outside) or ductless (using a charcoal filter, purchased separately).

Video: A guide on how to measure your kitchen space for chimney installation, covering width and height considerations for different chimney types.

Image: Illustrates the two primary installation options: ducted, which vents air outside, and ductless, which recirculates filtered air.

6. OPERATION

Your Faber chimney offers intuitive controls for a seamless cooking experience.

Control Panel:

The chimney features a touch control panel, gesture control, and motion sensors for easy operation. The control panel typically includes buttons for power, fan speed adjustment, light, and auto-clean function.

Fan Speed Adjustment:

- Use the touch controls or gesture sensors to select one of the three available fan speeds.

- Higher speeds are recommended for heavy cooking or strong odors.

Lighting:

Press the light button on the touch panel to turn the LED lamp on or off, providing illumination for your cooking area.

Boost Suction:

To enhance airflow instantly, lift the flap on the chimney to maximize suction efficiency during intense cooking.

Image: Highlights the Auto Clean function, dual suction vents, and powerful 1200 m³/hr suction.

7. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your chimney.

AutoClean Function:

The AutoClean feature helps to remove oil and grease particles from the internal components. Activate this function regularly as per the instructions in the detailed manual to maintain efficiency.

Filter Cleaning:

Although filterless, the corrosion-resistant single layer filter should be wiped clean periodically to prevent grease buildup. Refer to the full manual for specific cleaning instructions.

Exterior Cleaning:

Clean the exterior surfaces with a soft cloth and mild detergent. Avoid abrasive cleaners or harsh chemicals that could damage the finish.

8. TROUBLESHOOTING

If you encounter any issues, refer to the following common troubleshooting tips before contacting customer support.

Common Issues and Solutions:

- **Chimney not turning on:** Check power supply, ensure the plug is securely inserted, and check the circuit breaker.
- **Low suction power:** Ensure the flap is fully open for boost suction. Check for any obstructions in the ducting (if ducted). Clean the filter surface.
- **Unusual noise:** Ensure the chimney is securely mounted. Check for loose parts or obstructions in the fan.
- **Lights not working:** Check if the LED lamp needs replacement (contact service for this).

For persistent issues, please contact Faber customer support.

9. WARRANTY AND SUPPORT

Your Faber Hood Mojito IN HC SC FL BK 60 Chimney comes with comprehensive warranty coverage:

- **Product Warranty:** 2 Years Comprehensive Warranty
- **Motor Warranty:** 8 Years Warranty on Motor

For installation services, warranty claims, or technical support, please contact Faber customer care at **1800-209-3484**.
