GiiKER JKJZQ001

GiiKER Tic Tac Toe Bolt Game User Manual

Model: JKJZQ001
Brand: GiiKER

INTRODUCTION

The GiiKER Tic Tac Toe Bolt Game is an innovative 3-in-1 handheld puzzle game designed for engaging fun and cognitive development. It offers a unique twist on the classic Tic-Tac-Toe, alongside a memory challenge and a strategic cover-up game. This manual provides comprehensive instructions for setup, operation, maintenance, and troubleshooting to ensure an optimal user experience.

Image: The GiiKER Tic Tac Toe Bolt Game main unit, featuring the digital display and various game pieces (X and O shapes in orange and blue) arranged around it.

KEY FEATURES

- **Infinite Tic-Tac-Toe with Adaptive AI:** Experience the classic game with a dynamic twist. Play head-to-head or challenge an adaptive AI that adjusts its difficulty based on your skill level, ensuring a fresh and engaging challenge. This mode prevents endless draws by making the oldest mark disappear when a new one is placed after the third mark.

- **Memory Flash Challenge:** Test and boost your memory by identifying and recalling light sequences. This mode helps sharpen focus and offers 9 progressive difficulties to master.

- **Cover-Up Tic-Tac-Toe:** A strategic board game where each piece comes in three sizes. Players can place new pieces or move existing ones, with larger pieces able to cover smaller ones. The goal is to connect three of your color to win, exercising critical thinking and reasoning skills.

- **Portable and Durable Design:** Made from high-quality, non-toxic ABS plastic, this game is built for durability and safety. Its compact size makes it ideal for travel and on-the-go fun.

- **Screen-Free Entertainment:** Provides a healthy alternative to screen time, promoting interactive play and cognitive development for all ages.

Image: The GiiKER Tic Tac Toe Bolt Game displayed alongside several award badges, highlighting its recognition for educational and family-friendly design.

What's in the Box

- Game console
- Game pieces (X and O shapes in various sizes)
- Tic-Tac-Toe grid pieces
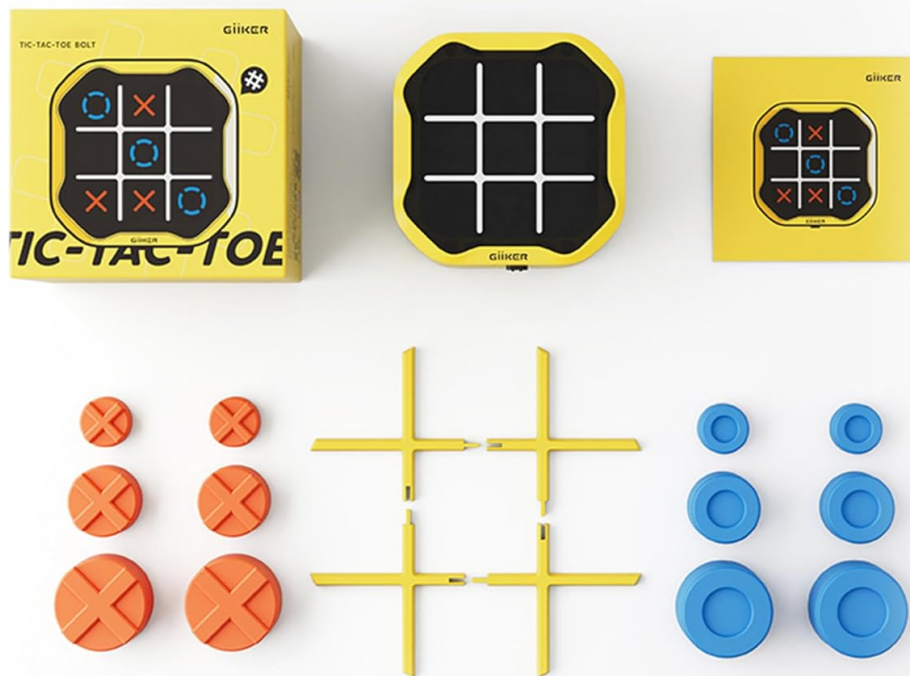

Image: A flat lay showing all components included in the GiiKER Tic Tac Toe Bolt Game package, including the main console, game pieces, and grid.

SETUP

1. **Battery Installation:** The GiiKER Tic Tac Toe Bolt Game requires 2 AA batteries. Locate the battery compartment on the underside of the game console. Open the compartment cover, insert the batteries according to the polarity indicators (+/-), and close the cover securely.

2. **Power On:** Press the power button located on the side of the console to turn on the device.

3. **Prepare Game Pieces:** For physical game modes like Cover-Up Tic-Tac-Toe, assemble the grid pieces and have the X and O game pieces ready.

OPERATING MODES

1. Infinite Tic-Tac-Toe

This mode offers a dynamic version of the classic game. The game board is digital, and marks appear as lights.

- **Player Options:** Choose between head-to-head play with another person or challenge the adaptive

AI.

- **Gameplay:** Players take turns placing their marks (X or O) on the 3x3 grid.
- **Dynamic Board:** After a player places their third mark, the oldest mark on the board will disappear when a new mark is placed. This keeps the game moving and prevents ties.
- **Winning Condition:** The first player to connect three of their marks in a row (horizontally, vertically, or diagonally) wins.

Image: Two children engaged in playing the GiiKER Tic Tac Toe Bolt Game outdoors, demonstrating its portability and screen-free nature.

2. Memory Flash Challenge

This mode is designed to enhance memory and focus.

- **Objective:** Recall and replicate sequences of flashing lights on the game grid.
- **Difficulty:** Progress through 9 increasing levels of difficulty.
- **How to Play:** The game will display a sequence of lights. Observe carefully, then tap the corresponding squares in the correct order.

Image: A child holding the GiiKER Tic Tac Toe Bolt Game, with text overlays indicating "Memory Trainer" and "Deep Focus," illustrating the cognitive benefits of the game.

3. Cover-Up Tic-Tac-Toe

This mode uses the physical game pieces and grid for a strategic variant.

- **Pieces:** Each player has X or O pieces in three different sizes (small, medium, large).
- **Turns:** On your turn, you can either place a new piece on an empty square or move one of your existing pieces to another square.
- **Covering:** A larger piece can be placed over a smaller piece, effectively "covering" it.
- **Winning Condition:** Connect three of your color in a row (horizontally, vertically, or diagonally) to win. Covered pieces do not count towards a win unless they are uncovered.

SPECIFICATIONS

Feature	Detail
Model Number	JKJZQ001
Dimensions	3.46 x 3.46 x 2.01 inches
Item Weight	6.3 ounces (0.18 Kilograms)
Material	ABS Plastic
Power Source	Battery Powered (2 AA batteries required)
Display Type	LCD
Controller Type	Button Control
Recommended Age	3 years and up

UPC	739608124541

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the game console. Do not use abrasive cleaners or immerse the device in water.

- **Storage:** Store the game in a cool, dry place away from direct sunlight and extreme temperatures. Ensure all pieces are stored together to prevent loss.

- **Battery Care:** Remove batteries if the device will not be used for an extended period to prevent leakage and damage.

TROUBLESHOOTING

- **Device Not Turning On:**

  - Check if batteries are inserted correctly with proper polarity.
  - Replace old or depleted batteries with new ones.

- **Lights Not Responding:**

  - Ensure the game is powered on.
  - Check battery level and replace if necessary.
  - If the issue persists, try turning the device off and on again to reset.

- **Game Malfunctions:**

  - Turn the device off, wait a few seconds, and then turn it back on.
  - Ensure you are following the game mode instructions correctly.

SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.

- Always supervise young children during play.
- Do not attempt to disassemble or modify the device.
- Keep away from water and excessive moisture.
- Dispose of batteries responsibly according to local regulations.

Limited Warranty

GiiKER warrants that your GiiKER hardware product ("the Product") will be free from defects in materials and workmanship for a period of 90 days from the date of purchase ("the Warranty Period"). If a defect in the Product arises under normal and intended use within the Warranty Period, please contact the authorized GiiKER dealer in your country. The authorized GiiKER dealer in your country will, at its option and subject to applicable laws, replace or repair the Product with new or reconditioned parts. This warranty is only valid to the original retail purchaser, accompanied by a receipt or proof of purchase. GiiKER does not warrant that the operation of the Product will be uninterrupted or error free. This Warranty does not apply to: a)Products you purchase from unauthorized GiiKER dealer; b)defects in consumables, such as stickers or protective coatings designed to diminish over time; c)Defects caused by misuse or failure to follow the product directions, improper installation; product alteration or modification; improper maintenance; d)Defect caused by accidents, neglect, fire, water, lightning, or other acts of nature; incorrect electrical line voltage; fluctuations or surges; e)Normal wear and tear or otherwise due to the normal aging; other causes beyond GiiKER's reasonable control.

Declaration of Conformity

GiiKER Technology Co.,Ltd. declares that this product is in compliance with the relevant requirements of Directive 2009/48/EC, Directive 2011/65/EU. This declaration of conformity is published on our website www.giiker.com/pages/compliance.

EUROPEAN UNION-DISPOSAL INFORMATION

The symbol above means that according to local laws and regulations your product should be disposed of separately from household waste. When this product reaches its end of life, take it to a collection point designated by local authorities. Some collection points accept products for free. The separate collection and recycling of your product at the time of disposal will help conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment. Keep these instructions for future reference as they contain important information.

FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
