iGear iG-1072

iGear Desklite Pro LED Table Lamp iG-1072 User Manual

Model: iG-1072

INTRODUCTION

Thank you for choosing the iGear Desklite Pro LED Table Lamp. This rechargeable lamp is designed for study and office use, featuring a time and date display, three light modes (Warm, Neutral, and Cool), and intuitive touch controls. Its foldable design and wooden texture finish offer both functionality and aesthetic appeal.

Please read this manual thoroughly before operating the device to ensure proper use and to maximize its lifespan.

PACKAGE CONTENTS

- iGear Desklite Pro LED Table Lamp (iG-1072)
- Power Cable (USB Type-C)

PRODUCT OVERVIEW

DeskLight Pro

Wooden Desk Lamp

Image: The iGear Desklite Pro LED Table Lamp, showcasing its sleek design and wooden texture in a typical desk environment.

The Desklite Pro features a foldable arm for adjustable lighting angles, an integrated digital display for time and date, and intuitive touch controls. The base is designed for stability on any flat surface.

SETUP INSTRUCTIONS

1. Charging the Lamp

The lamp is equipped with a built-in 2000 mAh rechargeable battery. Before first use, fully charge the lamp.

1. Locate the Type-C charging port on the back of the lamp's base.
2. Connect the provided USB Type-C power cable to the lamp and plug the other end into a compatible USB power adapter (not included) or a computer's USB port.
3. The charging indicator light will illuminate. Once fully charged, the indicator may change color or turn off, depending on the model.

Beauty of Wood

Enhances your décor effortlessly

Image: A close-up view of the Type-C charging port located on the side of the lamp's wooden base, with a charging cable connected.

2. Setting Time and Date

The lamp features a digital display for time and date. To set these:

1. Locate the setting buttons above the digital display. These typically include a "Mode" button and "Up/Down" or "Set" buttons.
2. Press and hold the "Mode" or "Set" button until the time display starts blinking.
3. Use the "Up/Down" buttons to adjust the hour, then press "Mode" or "Set" to confirm and move to minutes.
4. Repeat the process for minutes, year, month, and day.
5. Once all settings are confirmed, the display will stop blinking.

Stay On Time

A Lamp That Illuminates and Displays the Date & Time

Image: A detailed view of the lamp's control panel, highlighting the digital display for time and date, and the setting buttons above it, along with the main touch control button.

OPERATING INSTRUCTIONS

1. Power On/Off and Brightness Adjustment

- To turn the lamp ON or OFF, lightly touch the main power button located below the digital display.
- To adjust brightness, press and hold the power button. The brightness will cycle through its levels. Release the button when the desired brightness is reached.

2. Changing Light Modes (Color Temperature)

The lamp offers three distinct light modes: Warm, Neutral, and Cool. To switch between these modes, briefly tap the main power button repeatedly after turning the lamp on. Each tap will cycle to the next mode.

Color Your Mood

Three Shades, One Lamp, Infinite Ambiance!

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe the lamp. Avoid abrasive cleaners or solvents that may damage the finish or electronic components.
- **Battery Care:** To prolong battery life, avoid fully discharging the lamp frequently. Recharge the lamp when the light dims or the low battery indicator appears. If storing for an extended period, charge the battery to approximately 50% every three months.
- **Storage:** Store the lamp in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Lamp does not turn on or dims quickly.	Low battery.	Connect the lamp to a power source using the provided Type-C cable and allow it to charge fully.
Digital display shows incorrect time/date.	Time/date not set correctly or internal clock drift.	Refer to the "Setting Time and Date" section in Setup Instructions to reset the time and date. Note that minor clock drift may occur over time.
Lamp does not respond to touch controls.	Temporary software glitch or low power.	Ensure the lamp is charged. Try turning the lamp off and on again. If the issue persists, allow the battery to fully discharge and then recharge it.
Light output is inconsistent or flickers.	Low battery or unstable power source during charging.	Ensure the lamp is fully charged. If operating while plugged in, try a different USB power adapter or port.
