Step 4.4: Place Steel Slats

Lay the Steel Slats (D) across the frame, fitting them into the designated slots or attaching them as per the design. Ensure they are evenly spaced and securely in place to provide proper mattress support.

Step 4.5: Final Tightening

6. MAINTENANCE

- **Cleaning:** Wipe the metal frame with a damp cloth and mild detergent. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Regular Checks:** Periodically (e.g., every 3-6 months) inspect all bolts and connections to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent squeaking.
- **Movement:** If moving the bed frame, lift it rather than dragging it to prevent damage to the frame or your flooring.
