## 2. SAFETY INFORMATION

- Read all instructions carefully before installation and use.
- Ensure the vehicle's power is disconnected before installation to prevent electrical shock or damage.
- Professional installation is recommended for complex wiring.
- Do not operate the device in a manner that distracts you from driving. Always prioritize road safety.
- Keep the device away from water, moisture, and extreme temperatures.
- Use only approved accessories and cables.

## 3. PACKAGE CONTENTS

The package includes the following items:

- SIXWIN Android Car Radio Unit
- AHD Rear Camera

- RCA Cable
- Power Cable
- Original USB Cable
- Accessories (Mounting Frame/Trim)
- Microphone
- USB Cable (additional)
- GPS Antenna
- Rear Camera Input Cable
- User Manual (this document)
- Installation Tool

#### 4. COMPATIBILITY AND INSTALLATION

## 4.1 Vehicle Compatibility

This car radio is designed for Nissan Qashqai J10 models manufactured between 2006 and 2016. It supports specific original car center console configurations. Please verify your vehicle's console type before installation.

### CAR MODELS Attention

Please confirm your original car center console before purchasing. Our products only support Type A and C products and do not support Type B and D products. If you are interested in purchasing Type B products, please contact customer service for consultation.

## 4.2 Installation Guide

The unit features a plug-and-play design for simplified installation. However, due to the complexity of vehicle electronics, professional installation is recommended. Ensure all cables are securely connected according to the wiring diagram provided with the product. The included installation tool can assist with panel removal.

1. **Disconnect Battery:** Before starting, disconnect the negative terminal of your car battery.
2. **Remove Original Radio:** Carefully remove the existing car radio and trim using the provided installation tool.
3. **Connect Wiring Harness:** Connect the new power cable, RCA cables, USB cables, GPS antenna, and rear camera input cable to the corresponding ports on the SIXWIN unit and your vehicle's wiring harness.
4. **Test Connections:** Briefly reconnect the battery to test basic functions (power on, sound, steering wheel controls, camera input) before fully securing the unit.
5. **Mount the Unit:** Secure the SIXWIN car radio into the dashboard opening.

6. **Reassemble:** Reattach any removed trim pieces and reconnect the car battery.

## 5. OPERATING INSTRUCTIONS

### 5.1 CarPlay & Android Auto

The unit supports both wireless and wired CarPlay and Android Auto. Connect your smartphone via Bluetooth or USB to access navigation, music, calls, and messages directly on the car radio screen. Voice assistants like Siri and Google Assistant are supported for hands-free operation.

- **Wireless Connection:** Enable Bluetooth and Wi-Fi on your phone and connect to the car radio. Follow on-screen prompts to activate CarPlay or Android Auto.
- **Wired Connection:** Connect your phone to the car radio using a USB cable.
- **Voice Control:** Activate Siri or Google Assistant by voice command to control functions without touching the screen.
- **Mirror Link:** The device also supports Mirror Link for displaying your phone's screen. *Note: Not compatible with Samsung devices for Mirror Link.*

# CarPlay/Android Auto Voice Control

Connected the car radio with your mobile phone via Bluetooth/USB cable and use phone calls, GPS Navigation, music, video etc.

## 5.2 Navigation & WiFi

The car radio features integrated GPS with support for both online and offline maps. The pre-installed 'Here We Go' app allows you to download offline maps for navigation without an internet connection. With built-in WiFi, you can connect to a hotspot and download various applications like YouTube, TikTok, or Spotify.

## WiFi Connection

Enjoy online function: download Apps, watch video, enjoy music.

## GPS Navigation

Support online & Offline map, easy to navigate.

## 5.5 Advanced Customization

The SIXWIN car radio offers various customization options:

- **USB Ports:** Two USB ports are available for media playback and device charging.
- **Subwoofer Output:** RCA connector for external subwoofer audio output.
- **Split Screen Function:** Use two applications simultaneously on the screen.
- **Optional Accessories:** Supports external OBD, DVR, and DAB+ adapters (not included).
- **User Interface:** Choose from 12 optional themes to personalize the interface.

## 6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check for software updates to ensure optimal performance and access to new features. Follow the instructions provided with the update package.
- **Temperature:** Avoid exposing the device to extreme temperatures, which can affect its lifespan.

## 7. TROUBLESHOOTING

If you encounter any issues, please refer to the following common troubleshooting steps:

Problem	Possible Cause / Solution
No power / Unit does not turn on	Check power cable connections. Ensure the vehicle's fuse is intact. Verify battery connection.
No sound output	Check speaker wiring. Ensure volume is not muted or set to zero. Verify audio output settings.
Rear camera not working	Check the rear camera input cable connection. Ensure the camera is powered correctly. Verify camera settings in the unit's menu. Some original vehicle cameras may require specific adapters (not included).
Steering wheel controls not functioning	Ensure the steering wheel control cables are correctly connected. Access the steering wheel control learning function in the unit's settings to program the buttons.
Touchscreen unresponsive or inaccurate	Restart the unit. Ensure the screen is clean and free of debris. If the issue persists, a factory reset might be necessary (refer to settings).
Unit freezes or restarts unexpectedly	Ensure sufficient ventilation around the unit. Avoid using faulty USB devices. Perform a factory reset if frequent.
Cables do not fit or are missing	Double-check vehicle compatibility (Type A/C vs. B/D consoles). Contact customer support for assistance with specific cable requirements or replacements.

If these steps do not resolve the issue, please contact SIXWIN customer support for further assistance.
