EVOC Stage 18 Backpack Instruction Manual

Model: 100214100

INTRODUCTION

Thank you for choosing the EVOC Stage 18 Backpack. This manual provides essential information for the proper setup, operation, and maintenance of your backpack. Please read these instructions carefully to ensure optimal performance and longevity of your product.

SETUP

1. Adjusting the BRACE LINK System

The BRACE LINK system allows for optimal adjustment of the shoulder straps to your individual shoulder width. This enhances comfort and freedom of movement. To adjust, loosen the straps, position the backpack comfortably on your back, and then tighten the BRACE LINK straps until the fit is secure but not restrictive.

2. Utilizing the AIR FLOW CONTACT SYSTEM

The backpack features an AIR FLOW CONTACT SYSTEM with wide ventilation channels and mesh material on the back panel. This design promotes air circulation to prevent overheating and ensures optimal load distribution. Ensure the backpack sits flush against your back for effective ventilation.

3. BODY HUGGING Design and AIRO FLEX Hip Belt

The BODY HUGGING design ensures the backpack fits closely to your body, preventing slippage during activity. The ventilated AIRO FLEX hip belt provides additional stability and comfort. Adjust the hip belt snugly around your hips to transfer weight effectively and reduce strain on your shoulders.

4. Hydration Bladder Installation

The backpack includes a dedicated compartment for a hydration bladder of up to 3 liters. Open the main compartment and locate the internal sleeve. Insert your hydration bladder into this sleeve and route the drinking tube through the designated port on the shoulder strap.

OPERATING

1. Using the Tool Compartment

The quick-access tool pocket is located on the front of the backpack. Unzip this compartment to reveal multiple mesh pockets and elastic loops designed to organize your tools, spare parts, and other small essentials.

2. Helmet Holder Functionality

The backpack includes an integrated helmet holder. Locate the straps and clips on the exterior of the backpack. Secure your helmet by attaching it to these points, ensuring it is stable and does not obstruct your movement or vision.

3. Goggle Compartment

A dedicated goggle compartment is provided to protect your eyewear. This compartment is typically lined with soft material to prevent scratches. Store your goggles here when not in use.

4. Rain Cover

The backpack includes an integrated rain cover. In wet conditions, pull the rain cover from its storage pocket (usually located at the bottom of the backpack) and stretch it over the entire backpack to protect its contents from moisture.

5. Taillight Clip

For increased visibility during low-light conditions, attach a taillight to the designated clip located on the lower part of the backpack.

MAINTENANCE

Cleaning Instructions

- **Spot Cleaning:** For minor dirt or stains, use a damp cloth with mild soap and water. Gently rub the affected area.
- **Deep Cleaning:** For more thorough cleaning, hand wash the backpack in lukewarm water with a mild detergent. Avoid using harsh chemicals or bleach, as these can damage the fabric and coatings.
- **Drying:** Air dry the backpack completely in a well-ventilated area, away from direct sunlight or heat sources. Do not tumble dry.
- **PFC-Free Equipment:** This backpack is made with PFC-free materials. To maintain its water repellency, avoid excessive washing and consider using a PFC-free re-proofing spray if water repellency diminishes over time.

Storage

Store the backpack in a cool, dry place when not in use. Ensure it is clean and completely dry before storage to prevent mold or mildew growth.

TROUBLESHOOTING

If you encounter any issues with your EVOC Stage 18 Backpack that are not covered in this manual, please refer to the official EVOC website or contact their customer support for assistance. Do not attempt to modify or repair the backpack yourself, as this may void any applicable warranty.

SPECIFICATIONS

Feature	Detail
Model Number	100214100
Capacity Total	18 Liters
Product Dimensions	21 x 12.5 x 4 inches (53.34 x 31.75 x 10.16 cm)
