# Dpofirs Video Doorbell Camera with Monitor

Model: Dpofirs2etcu6wgns

## 1. INTRODUCTION

---

This manual provides detailed instructions for the installation, operation, and maintenance of your Dpofirs Video Doorbell Camera with Monitor. Please read this manual thoroughly before using the product to ensure proper functionality and safety. This device is designed to enhance home security by providing visual and audio communication with visitors at your doorstep.

## 2. PRODUCT OVERVIEW

---

### Key Features:

- **Remote Video Calls:** View the outdoor camera's video on the indoor monitor, allowing communication with visitors even if family members do not have a mobile phone.
- **High Fidelity Microphone:** Two-way talk design with powerful speakers and a sensitive microphone for clear and stable visual communication. Adjustable volume.
- **Wide Angle Lens:** A 170-degree wide-angle fisheye lens provides a comprehensive view of your doorstep.
- **HD Camera:** 8MP high-resolution camera records 1080P HD video, capturing clear details of visitors.
- **Day and Night Functionality:** Built-in high-power infrared night vision light and ICR infrared filter automatically switch between day and night modes for clear visibility in dark environments.

### Components:

The Dpofirs Video Doorbell Camera system includes the outdoor doorbell unit, the indoor monitor, and various accessories for installation and charging.

Image: Package contents showing the doorbell unit, indoor monitor, mounting accessories, and charging cable.

## Outstanding abilities

170 degree ultra large wide angle camera, LED backlighting for dark scenes, no escape from danger

Image: Labeled diagram of the outdoor doorbell unit, indicating the wide-angle camera, environmental sensors, LED fill light, and doorbell button.

## Memory expansion

### Automatic recording to maintain visitor information

Image: Side view of the indoor monitor, detailing the power button, Type-C charging port, and memory card slot for storage expansion.

## 3. SETUP

---

### Initial Pairing and Installation:

1. **Charge the Devices:** Ensure both the outdoor doorbell unit and the indoor monitor are fully charged using the provided USB Type-C cable.
2. **Mount the Doorbell:** Select a suitable location near your door. Use the provided mounting hardware to securely attach the outdoor doorbell unit. Ensure the camera has a clear view of your entrance.
3. **Power On:** Long press the power button on the indoor monitor to turn it on.
4. **Pairing:** Press the doorbell button on the outdoor unit. The indicator light will flash. The indoor monitor will automatically connect and display the camera feed after a short period.
5. **Insert Memory Card (Optional):** For automatic photo/video recording, insert a small memory card into the designated slot on the indoor monitor.

## 4. OPERATING INSTRUCTIONS

---

### Visitor Interaction:

- When a visitor presses the doorbell button, the indoor monitor will display the live video feed from the outdoor camera.
- Use the two-way talk feature to communicate with your visitor. The monitor is equipped with a microphone and speaker for clear audio.
- If a memory card is installed, the system will automatically record photos or videos of visitors.

### Night Vision:

- The doorbell camera automatically switches to night vision mode in low-light conditions.
- The built-in infrared lights provide clear visibility even in complete darkness.

## Video Demonstration:

Video: This video demonstrates the features of the Dpofirs Video Doorbell Camera with Monitor, including its 1080P HD wide-angle view and two-way talk functionality. Creator: Chenndus.

## 5. MAINTENANCE

---

- **Cleaning:** Use a soft, dry cloth to clean the camera lens and monitor screen. Avoid abrasive cleaners or solvents.
- **Battery Life:** The device features a 1000mAh high-capacity battery. Recharge as needed.
- **Firmware Updates:** Check the manufacturer's website periodically for any available firmware updates to ensure optimal performance and security.
- **Environmental Protection:** The outdoor unit has an IP65 waterproof rating, protecting it from dust and water splashes. However, avoid submerging the device in water.

Strong endurance  
Upgrade to a 1000Ah high capacity battery for stronger battery life

1000 Ah

## 6. TROUBLESHOOTING

---

- **No Power:** Ensure both the doorbell unit and monitor are fully charged. Check the charging cable and adapter.
- **No Video/Audio:** Verify that both units are powered on and within range of each other. Re-pair the devices if necessary.
- **Poor Video Quality:** Clean the camera lens. Ensure there are no obstructions. Check for sufficient lighting (night vision should activate automatically in low light).
- **Recording Issues:** Ensure a compatible memory card is properly inserted into the indoor monitor. Check if the memory card is full or corrupted.
- **Doorbell Not Ringing:** Check the volume settings on the indoor monitor. Ensure the doorbell button is functioning correctly.
