

Superfire G12

Superfire Workshop Flashlight G12 User Manual

Model: G12

1. PRODUCT OVERVIEW

The Superfire G12 Workshop Flashlight is a versatile and durable lighting tool designed for various tasks. It integrates two powerful light sources, a high-capacity rechargeable battery, and practical features like a digital display and power bank functionality. Its robust construction and adaptable mounting options make it an essential tool for workshops, outdoor activities, and emergency situations.

Image 1.1: The Superfire G12 Workshop Flashlight shown with its included USB charging cable. The flashlight features a main rectangular COB LED light panel and a smaller top LED spotlight. It has a black body with a white panel displaying the 'SUPERFIRE' logo and a foldable stand/handle.

2. KEY FEATURES

- **Dual Light Sources:** Equipped with a main COB LED panel for wide area illumination and a top LED spotlight for focused, long-range lighting.
- **Adjustable Brightness:** Easily control light intensity using dedicated '+' and '-' buttons.

- **High-Capacity Battery:** Features a 1200mAh battery for extended operation.
- **Power Bank Function:** Can be used to charge other devices via its USB output.
- **Digital Battery Display:** A clear digital screen indicates the remaining battery percentage.
- **Durable Construction:** Made from robust TPR plastic with structural reinforcements for wear resistance.
- **Versatile Mounting:** Includes a 180° rotating handle, a 360° hanging hook, and strong magnetic elements for hands-free use on metal surfaces.

3. PACKAGE CONTENTS

Please check the package for the following items:

- 1 x Superfire G12 Workshop Flashlight
- 1 x USB Charging Cable

4. SETUP

4.1 Initial Charging

Before using your Superfire G12 flashlight for the first time, it is recommended to fully charge the battery. Connect the smaller end of the provided USB charging cable to the flashlight's micro USB port and the larger end to a standard USB power adapter (not included) or a computer's USB port. The digital display will show the charging status and battery percentage. Charging is complete when the display shows 100%.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off and Mode Selection

1. To turn on the flashlight, press the power button located on the side of the device.
2. Subsequent presses of the power button will cycle through the different lighting modes: Main COB LED → Top LED Spotlight → Off.

5.2 Brightness Adjustment

While the flashlight is on, use the '+' and '-' buttons to adjust the brightness level of the active light source. Pressing '+' will increase brightness, and pressing '-' will decrease it. The digital display may show the current brightness level or battery percentage depending on the model's specific implementation.

5.3 Using the Mounting Features

- **Rotating Handle:** Adjust the integrated handle to your desired angle for comfortable handheld use or to position the light. The handle rotates 180 degrees.
- **Hanging Hook:** Extend the 360-degree rotating hook from the top of the flashlight to hang it from ropes, branches, or other fixtures.
- **Magnetic Base:** The strong magnets on the base allow you to securely attach the flashlight to any ferrous metal surface for hands-free operation.

6. CHARGING AND POWER BANK FUNCTION

6.1 Recharging the Flashlight

When the battery level is low, as indicated by the digital display, recharge the flashlight using the provided

USB cable. Connect the micro USB end to the flashlight and the USB-A end to a compatible power source (e.g., computer USB port, wall adapter, car charger). The digital display will show the charging progress.

6.2 Using as a Power Bank

The Superfire G12 can serve as an emergency power bank for small electronic devices. Connect your device's charging cable to the USB output port on the G12 flashlight. The flashlight's battery will then begin to charge your connected device. Monitor the G12's digital display to keep track of its remaining battery percentage.

7. MAINTENANCE

- **Cleaning:** Wipe the flashlight's exterior with a soft, slightly damp cloth. Do not use harsh chemicals, abrasive cleaners, or immerse the device in water.
- **Storage:** Store the flashlight in a cool, dry place away from direct sunlight and extreme temperatures. If storing for extended periods, charge the battery every 3-6 months to maintain its lifespan.
- **Battery Care:** Avoid fully depleting the battery frequently. Recharge it when the battery indicator shows low levels.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Flashlight does not turn on.	Battery is depleted.	Charge the flashlight fully using the provided USB cable.
Light is dim or flickers.	Low battery level.	Recharge the flashlight.
Cannot charge external device (power bank function).	Flashlight battery is too low or cable is faulty.	Ensure the flashlight is sufficiently charged. Try a different USB cable.

9. SPECIFICATIONS

Attribute	Value
Brand	Superfire
Model Reference	G12
Lumen Output	566 lm
Battery Capacity	1200mAh
Charging Port	Micro USB
Material	TPR Plastic
ASIN	B0CWS6YMHY
First Available Date	February 29, 2024

10. WARRANTY AND SUPPORT

For detailed warranty information, product registration, or technical support, please refer to the warranty card included with your purchase or visit the official Superfire website. You may also contact your point of purchase for assistance.

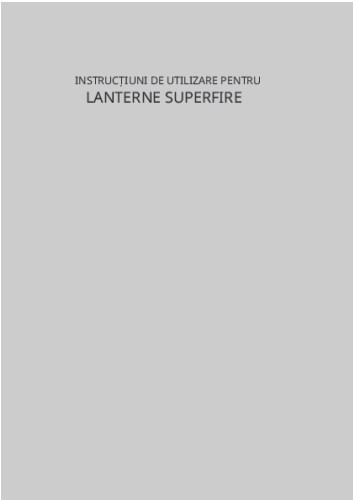

Please retain your proof of purchase for any warranty claims.
