

## Gosund SP111-4

# Gosund SP111 Smart WiFi Plug User Manual

Model: SP111-4

## 1. INTRODUCTION

Thank you for choosing the Gosund SP111 Smart WiFi Plug. This device allows you to control your electronic appliances remotely via a smartphone application or voice commands, and to set schedules for automated operation. Please read this manual carefully before use to ensure proper installation and operation.

This image displays four white Gosund SP111 Smart WiFi Plugs. Each plug features a standard European Type F (Schuko) plug on one side and a corresponding socket on the other, with the Gosund logo printed on the side. A small indicator light and a button are visible on the top surface of each plug.

## 2. SAFETY INFORMATION

---

- Do not exceed the maximum load current of 16A or power of 3680W.
- Do not disassemble or modify the device.
- Keep the device away from water, moisture, and high temperatures.
- For indoor use only.
- Ensure the plug is fully inserted into the wall socket.
- Do not connect appliances that could cause a fire hazard if left unattended (e.g., irons, heaters).

## 3. PACKAGE CONTENTS

---

The package includes the following items:

- 4 x Gosund SP111 Smart WiFi Plugs
- 1 x User Manual (this document)

## 4. PRODUCT OVERVIEW

---

Familiarize yourself with the components of your Gosund SP111 Smart WiFi Plug:

- **Power Button:** Press to manually turn the plug on/off. Press and hold for 5 seconds to enter pairing mode.
- **Indicator Light:** Indicates the status of the plug (e.g., solid blue for ON, flashing blue for pairing mode, off for OFF).
- **Type F (Schuko) Socket:** For connecting your appliance.
- **Type F (Schuko) Plug:** For inserting into a wall outlet.

## 5. SETUP

---

### 5.1 Download the App

The Gosund SP111 Smart WiFi Plug works with the Tuya Smart or Smart Life app. Download the app from the App Store (iOS) or Google Play Store (Android).

- Search for "Tuya Smart" or "Smart Life".
- Install the app and register an account.

### 5.2 Add Device

1. Plug the Gosund SP111 Smart WiFi Plug into a wall outlet.
2. The indicator light should flash rapidly (approximately twice per second), indicating it's in pairing mode. If not, press and hold the power button for 5 seconds until it flashes rapidly.
3. Open the Tuya Smart or Smart Life app.
4. Tap the "+" icon in the top right corner to add a device.
5. Select "Electrical Outlet" or "Socket (Wi-Fi)".
6. Confirm that the indicator light is flashing rapidly.
7. Enter your 2.4 GHz Wi-Fi network password (5 GHz Wi-Fi is not supported).
8. Wait for the device to connect. Once connected, you can rename the plug.

## 6. OPERATING

---

### 6.1 Manual Control

Press the power button on the plug to manually turn the connected appliance on or off.

### 6.2 App Control

- **Remote On/Off:** Tap the plug icon in the app to turn it on or off from anywhere.
- **Scheduling:** Set timers or schedules for the plug to turn on or off automatically at specific times.
- **Countdown:** Set a countdown timer for the plug to turn off after a set duration.
- **Energy Monitoring:** (If supported by the specific SP111 variant) View real-time and historical power consumption.

### 6.3 Voice Control

The Gosund SP111 Smart WiFi Plug can be integrated with voice assistants like Amazon Alexa and Google Assistant via the Tuya Smart or Smart Life app. Follow the instructions within the app to link your

smart home assistant account.

- Example commands:
- "Alexa, turn on [Plug Name]"
- "Hey Google, turn off [Plug Name]"

## 7. MAINTENANCE

- Unplug the device before cleaning.
- Wipe the surface with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- Store in a cool, dry place when not in use for extended periods.

## 8. TROUBLESHOOTING

Problem	Solution
Plug cannot connect to Wi-Fi.	Ensure your Wi-Fi network is 2.4 GHz. Check if the Wi-Fi password is correct. Move the plug closer to your Wi-Fi router. Reset the plug by holding the power button for 5 seconds and try pairing again.
Indicator light is off.	Ensure the plug is properly inserted into the wall outlet. Check if the wall outlet has power. The plug might be off; press the power button to turn it on.
Appliance connected to the plug does not turn on.	Verify the plug is turned on via the app or manually. Check if the appliance itself is working correctly when plugged directly into a wall outlet. Ensure the appliance's power switch is in the ON position.

## 9. SPECIFICATIONS

Model:	SP111-4
Input Voltage:	AC 230V, 50/60Hz
