MAINTENANCE

Proper care ensures the longevity and continued comfort of your Laura Ashley sheet set. Always refer to the care label for specific instructions.

- **Washing:** Machine wash in cold water with similar colors. Use a gentle cycle.
- **Detergent:** Use a mild detergent. Avoid using bleach or harsh chemicals, as these can damage the fabric and fade colors.
- **Drying:** Tumble dry on low heat. Remove promptly to minimize wrinkles. Line drying is also an option and can help preserve fabric integrity.
- **Ironing:** If desired, iron on a low setting. The percale weave naturally has a crisp feel, and some wrinkling is characteristic of cotton percale.

TROUBLESHOOTING

Here are solutions to common issues you might encounter with your sheet set:

Problem	Possible Cause	Solution
Sheets feel stiff after washing.	New percale cotton can feel crisp. Over-drying or using too much detergent can also contribute.	Percale sheets naturally soften with each wash. Use less detergent and avoid over-drying. Consider adding a cup of white vinegar to the rinse cycle occasionally.
Fitted sheet does not stay on the mattress.	Mattress depth exceeds the fitted sheet's pocket depth. Incorrect placement.	Ensure your mattress depth is within the 15-inch limit for Twin XL. Verify the elasticized edges are fully tucked under the mattress.

Problem	Possible Cause	Solution
Color fading.	Washing with hot water or harsh detergents. Exposure to direct sunlight for prolonged periods.	Always wash in cold water. Use mild, color-safe detergents. Avoid direct sunlight when drying if possible.
Excessive wrinkling.	Percale cotton naturally wrinkles. Over-drying or leaving in the dryer after the cycle.	Remove sheets from the dryer immediately after the cycle finishes. Smooth and fold them while still warm. Ironing on a low setting can reduce wrinkles.
