

## GABRYLLY GY1108

# GABRYLLY GY1108 Ergonomic Mesh Office Chair User Manual

Model: GY1108 | Brand: GABRYLLY

## INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your GABRYLLY GY1108 Ergonomic Mesh Office Chair. Please read this guide thoroughly before use to ensure proper function and longevity of your chair. This chair is designed to provide ergonomic support and comfort for users up to 280 lbs, with a recommended height range of 5'1" to 5'9".

## 1. SETUP AND ASSEMBLY

The GABRYLLY GY1108 office chair is designed for straightforward assembly. All necessary tools, including an Allen wrench, are provided. For a visual guide, scan the QR code provided in the packaging for an installation video.

### Assembly Steps:

- Unpack Components:** Carefully remove all parts from the packaging. Verify that all components listed in the parts diagram are present.
- Attach Casters to Base:** Insert the five casters into the holes at the end of each leg of the chair base. Ensure they are securely seated.
- Insert Gas Lift:** Place the gas lift cylinder into the center hole of the chair base.
- Assemble Seat and Backrest:** Follow the specific instructions in your package to attach the seat mechanism to the seat cushion, and then connect the backrest to the seat assembly. Pay attention to left and right components, which may be color-coded for ease of identification.
- Attach Armrests:** Secure the flip-up armrests to the seat assembly using the provided screws and Allen wrench.
- Install Headrest:** Attach the adjustable headrest to the top of the backrest.
- Connect Seat to Gas Lift:** Carefully place the assembled seat and backrest onto the gas lift cylinder. Apply gentle downward pressure to secure it.

## 2. OPERATING INSTRUCTIONS

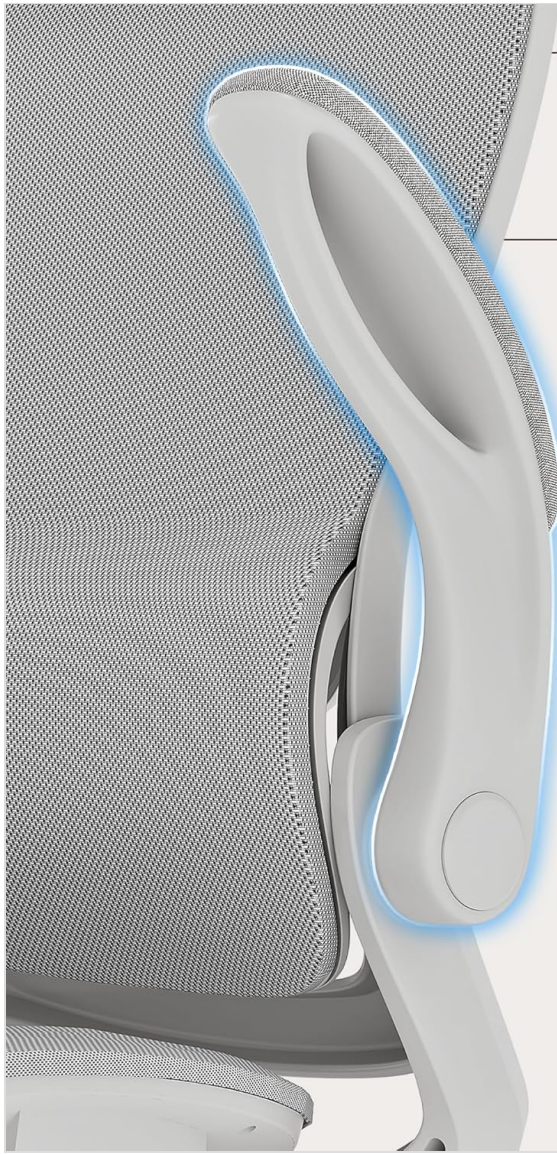

---

Your GABRYLLY GY1108 chair offers several adjustable features to customize your seating experience for optimal comfort and support.

- **Seat Height Adjustment:** Locate the lever on the right side beneath the seat. Pull the lever up while seated to lower the chair, or pull it up while standing to raise the chair. Release the lever at your desired height. The seat height ranges from 17.3 inches to 21 inches.
- **Flip-Up Armrests:** The armrests can be flipped up by 45 degrees. This feature allows for easy movement under desks or for activities requiring more space, such as playing an instrument. Simply lift the armrests to engage the flip-up mechanism.

# Flip Up Arms

Flip Freely, Work Flexibly.

*Image: Close-up view of the chair's flip-up armrests, demonstrating their upward movement for space-saving and flexibility.*

- **Adjustable Headrest:** The 2D headrest can be adjusted in height by 3.5 inches and tilted to provide personalized neck support. Gently push or pull the headrest to adjust its position.

# Adjustable 2D Headrest

Personalized Adjustment,  
Relief for Neck Strain.

## 3. MAINTENANCE

---

To ensure the longevity and optimal performance of your GABRYLLY GY1108 office chair, follow these simple maintenance guidelines:

- **Cleaning:** Wipe clean with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the mesh fabric and other components.
- **Inspection:** Periodically check all screws and bolts to ensure they are tight. Re-tighten if necessary to maintain stability.
- **Caster Care:** Keep the casters free of hair and debris to ensure smooth movement. If the chair struggles to roll on certain surfaces, consider cleaning the caster wheels or replacing them with appropriate alternatives (e.g., rollerblade-style wheels for carpets).

## 4. TROUBLESHOOTING

---

If you encounter any issues with your GABRYLLY GY1108 office chair, refer to the following common solutions:

Problem	Possible Cause	Solution
Chair does not adjust height	Gas lift cylinder malfunction or lever issue.	Ensure the height adjustment lever is fully engaged. If the problem persists, the gas lift may need replacement. Contact customer support.
Chair wobbles or feels unstable	Loose screws or improper assembly.	Check all assembly screws and re-tighten them. Ensure the chair base and gas lift are correctly seated.
Casters do not roll smoothly	Debris in casters or unsuitable casters for floor type.	Clean any hair or debris from the caster wheels. For carpeted surfaces, consider replacing standard casters with rollerblade-style wheels for improved mobility.
Backrest does not recline or lock	Tilt mechanism engaged incorrectly or malfunction.	Ensure the tilt lock lever is disengaged to allow reclining. If it still doesn't work, inspect the tilt mechanism for any obstructions.

## 5. PRODUCT SPECIFICATIONS
