SETUP GUIDE

Package Contents

Verify that all items are present in the package:

- Tablet x1
- Charger and Data line x1
- Card removal needle x1
- User Manual x1
- Business leather case x1

Initial Power On and Basic Configuration

1. Press and hold the power button until the DOOGEE logo appears.
2. Follow the on-screen prompts to select your language, region, and connect to a Wi-Fi network.
3. Sign in with your Google account or create a new one to access the Google Play Store and other services.

4. Configure security settings, including side fingerprint recognition and face recognition, for secure access.

SIM Card and Storage Expansion

The DOOGEE T30 Max supports dual Nano-SIM cards for 4G connectivity and a Micro SD card for storage expansion up to 2TB.

1. Locate the SIM card tray on the side of the tablet.
2. Insert the card removal needle into the small hole next to the tray to eject it.
3. Place your Nano-SIM cards and/or Micro SD card into the designated slots on the tray. Ensure correct orientation.
4. Gently push the tray back into the tablet until it clicks into place.

MAINTENANCE

Battery Care

- Avoid fully discharging the battery frequently.
- Use the provided 33W fast charger for optimal charging speed and battery health.
- Do not expose the tablet to extreme temperatures, as this can degrade battery performance.

Cleaning Instructions

- Use a soft, lint-free cloth to clean the screen and body of the tablet.
- For stubborn smudges, lightly dampen the cloth with water or a screen-cleaning solution.
- Avoid using harsh chemicals, abrasive materials, or aerosol sprays directly on the tablet.

Software Updates

Regularly check for and install system updates to ensure your tablet has the latest features, security patches, and performance improvements. You can usually find this option in the tablet's Settings menu under "System" or "About tablet".

TROUBLESHOOTING

This section addresses common issues you might encounter with your DOOGEE T30 Max Tablet. For more complex problems, please refer to the support section.

Device Not Powering On

- Ensure the battery is charged. Connect the tablet to the charger and wait a few minutes before attempting to power it on again.
- Press and hold the power button for at least 10-15 seconds to perform a forced restart.

Connectivity Issues (Wi-Fi/4G)

- **Wi-Fi:** Restart your Wi-Fi router. On the tablet, go to Settings > Network & internet > Wi-Fi, turn Wi-Fi off and then on again. Forget the network and reconnect.
- **4G:** Ensure your SIM card is correctly inserted and activated. Check your mobile data settings in Settings > Network &

internet > Mobile network. Restart the tablet.

Applications Crashing or Freezing

- Close and reopen the application.
- Clear the app's cache: Go to Settings > Apps > [App Name] > Storage & cache > Clear cache.
- Ensure the app is updated to its latest version from the Google Play Store.
- If the issue persists, consider uninstalling and reinstalling the app.
