

Tailulu MJ27

Tailulu MJ27 Vacuum Cleaner Replacement Filter (3-Pack) Instruction Manual

1. INTRODUCTION

This instruction manual provides essential information for the proper installation, maintenance, and care of your Tailulu MJ27 Vacuum Cleaner Replacement Filters. Regular filter replacement and cleaning are crucial for maintaining the optimal suction power and efficiency of your vacuum cleaner. Please read this manual thoroughly before use.

2. PRODUCT COMPONENTS

Your package includes the following items:

- Tailulu MJ27 Replacement Filters (3 pieces)

Image: Three Tailulu MJ27 replacement filters. These filters are designed to capture fine dust and particles, ensuring clean air output from your vacuum cleaner.

3. INSTALLATION INSTRUCTIONS

Follow these steps to replace the filter in your Tailulu MJ27 Vacuum Cleaner:

1. **Power Off:** Ensure the vacuum cleaner is turned off and unplugged from the power outlet before proceeding.
2. **Locate Filter Compartment:** Identify the filter compartment on your MJ27 vacuum cleaner. This is typically located near the dustbin. Refer to your vacuum cleaner's main manual for the exact location if unsure.
3. **Remove Dustbin:** Detach the dustbin from the vacuum cleaner body.
4. **Remove Old Filter:** Carefully twist or pull out the old filter from its housing. Dispose of the old filter responsibly.
5. **Insert New Filter:** Place a new Tailulu MJ27 replacement filter into the filter housing. Ensure it is seated correctly and securely. Do not force the filter into place.
6. **Reattach Dustbin:** Reattach the dustbin to the vacuum cleaner body, ensuring it clicks firmly into place.

7. **Test:** Plug in and turn on the vacuum cleaner to ensure it operates correctly with the new filter.

4. MAINTENANCE AND CLEANING

To prolong the life of your filters and maintain optimal vacuum performance, regular cleaning is recommended. These filters are reusable.

1. **Frequency:** Clean the filter after every 3-5 uses, or more frequently if you notice a decrease in suction power or if the filter appears visibly dirty.
2. **Removal:** Follow steps 1-4 from the "Installation Instructions" to remove the filter.
3. **Cleaning Method:**
 - **Tap Cleaning:** Gently tap the filter against a hard surface (e.g., a trash can) to dislodge loose dust and debris.
 - **Rinsing (if applicable):** If the filter is heavily soiled and designed for wet cleaning (check your vacuum's main manual), rinse it under cool, running water until the water runs clear. Do not use detergents or hot water.
 - **Drying:** If rinsed, allow the filter to air dry completely for at least 24 hours before reinstallation. Ensure it is absolutely dry to prevent mold growth and damage to the vacuum cleaner. Do not use heat to dry.
4. **Reinstallation:** Once clean and dry, follow steps 5-7 from the "Installation Instructions" to reinstall the filter.

Replacement Schedule: Even with regular cleaning, filters wear out over time. It is recommended to replace your Tailulu MJ27 filters every 3-6 months, depending on usage, to maintain optimal performance and air quality.

5. TROUBLESHOOTING

If you experience issues with your vacuum cleaner, check the filter-related points below:

Problem	Possible Cause	Solution
Reduced Suction Power	Clogged or dirty filter.	Clean or replace the filter. Ensure it is completely dry before reinstallation.
Unusual Noise/Odor	Filter not installed correctly or damaged.	Check filter installation. Replace if damaged.
Dust Escaping Vacuum	Filter damaged or improperly seated.	Ensure filter is correctly installed and not damaged. Replace if necessary.

If the problem persists after checking these points, please refer to your Tailulu MJ27 Vacuum Cleaner's main instruction manual or contact customer support.

6. SPECIFICATIONS

Feature	Detail
---------	--------

Feature	Detail
Brand	Tailulu
Model Compatibility	MJ27 Vacuum Cleaner
