# **Beldray BEL01731TT Titanium 2-in-1 Handheld Vacuum Cleaner**

User Instruction Manual

## **1. INTRODUCTION**

Thank you for purchasing the Beldray BEL01731TT Titanium 2-in-1 Handheld Vacuum Cleaner. This versatile and lightweight vacuum is designed for efficient cleaning across various surfaces, from floors to ceilings. It easily converts between a stick vacuum and a handheld unit, making it ideal for comprehensive home cleaning. Please read this instruction manual carefully before first use and keep it in a safe place for future reference. Proper use and maintenance will ensure optimal performance and extend the life of your appliance.

## 2. IMPORTANT SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and personal injury.

- Ensure the voltage indicated on the rating label matches your mains supply before connecting the appliance.
- Do not immerse the appliance in water or any other liquid.
- Unplug the vacuum cleaner from the mains supply before cleaning or performing any maintenance.
- This appliance is for domestic use only. Do not use it outdoors or for commercial purposes.
- Keep hair, loose clothing, fingers, and all parts of the body away from openings and moving parts.
- Do not pick up flammable or combustible materials, hot ashes, or large, sharp objects.
- Do not use without the dust container and filter in place.

- Supervise children to ensure they do not play with the appliance.

### 3. PRODUCT COMPONENTS

---

Familiarize yourself with the parts of your Beldray 2-in-1 Handheld Vacuum Cleaner:

1. Main Unit (Handheld Vacuum)
2. Extension Tube
3. Floor Head
4. Crevice Tool
5. Brush Tool
6. Dust Container (600ml capacity)

Image 3.2: The handheld unit with the crevice tool attached, ideal for narrow spaces.

## 4. ASSEMBLY AND SETUP

### 4.1. Assembling as a Stick Vacuum:

1. Insert the extension tube into the main unit until it clicks securely into place.
2. Attach the floor head to the other end of the extension tube, ensuring it is firmly connected.
3. Ensure the dust container and HEPA filter are correctly installed in the main unit.
4. Unwind the 5-meter power cord and plug it into a suitable mains socket.

### 4.2. Converting to a Handheld Vacuum:

1. Press the release button on the extension tube to detach it from the main unit.
2. You can now use the main unit as a handheld vacuum.
3. For specific cleaning tasks, attach the crevice tool or brush tool directly to the main unit's nozzle.

## 5. OPERATING INSTRUCTIONS

### 5.1. Using as a Stick Vacuum:

1. Once assembled and plugged in, press the power button located on the main unit's handle to turn on the vacuum.
2. Guide the floor head across the surface you wish to clean. The versatile vacuum head is suitable for all floor types.
3. Move the vacuum in a steady, overlapping motion to ensure thorough cleaning.
4. When finished, press the power button again to turn off the vacuum and unplug it from the mains.

### 5.2. Using as a Handheld Vacuum:

1. With the main unit detached from the extension tube, plug in the power cord.
2. Press the power button to activate the handheld vacuum.

3. Use the handheld unit for quick clean-ups, stairs, upholstery, or inside your car.
4. Attach the crevice tool for narrow gaps and corners, or the brush tool for dusting and delicate surfaces.
5. Turn off and unplug the unit after use.

## 6. MAINTENANCE AND CLEANING

Regular maintenance ensures your vacuum cleaner operates efficiently.

### 6.1. Emptying the Dust Container:

The 600ml dust container should be emptied regularly, especially when the debris reaches the 'MAX' line.

1. Ensure the vacuum is turned off and unplugged.
2. Press the dust container release button to detach it from the main unit.
3. Hold the dust container over a waste bin and open the bottom flap to empty the contents.
4. Close the flap securely and reattach the dust container to the main unit until it clicks.

Image 6.1: A close-up view of the transparent dust container, showing its capacity.

### 6.2. Cleaning the HEPA Filter:

The washable HEPA filter should be cleaned regularly to maintain suction power. A spare filter is included for convenience.

1. Turn off and unplug the vacuum.
2. Remove the dust container as described above.
3. Carefully remove the HEPA filter from inside the dust container.
4. Tap the filter gently to remove loose dust. For a deeper clean, rinse the filter under cold running water.
5. Allow the filter to air dry completely for at least 24 hours before reinserting it. Do not use a hairdryer or other heating devices.
6. Once dry, place the filter back into the dust container and reattach the container to the main unit.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Vacuum does not turn on.	Not plugged in; no power at outlet; power button not pressed.	Check power cord connection; test outlet with another device; press power button firmly.
Loss of suction.	Dust container full; filter clogged; blockage in nozzle/tube.	Empty dust container; clean/replace HEPA filter; check for and remove blockages.
Unusual noise.	Blockage; damaged part.	Turn off and unplug. Check for and remove any blockages. If noise persists, contact customer support.
