# Philips Pet Series Smart Feeder with Camera (PAW5320/02) - Instruction Manual

Model: PAW5320/02

## INTRODUCTION

---

This manual provides comprehensive instructions for the setup, operation, and maintenance of your Philips Pet Series Smart Feeder with Camera (PAW5320/02). This smart feeder is designed to help you manage your pet's feeding schedule, ensure food freshness, and allow for remote monitoring and interaction.

Key features include a quality seal for freshness, easy-to-clean components, anti-clogging technology for dry food (2-12 mm), scheduled meal planning via an intuitive app, and remote monitoring with an HD camera and two-way audio.

## WHAT'S IN THE BOX

---

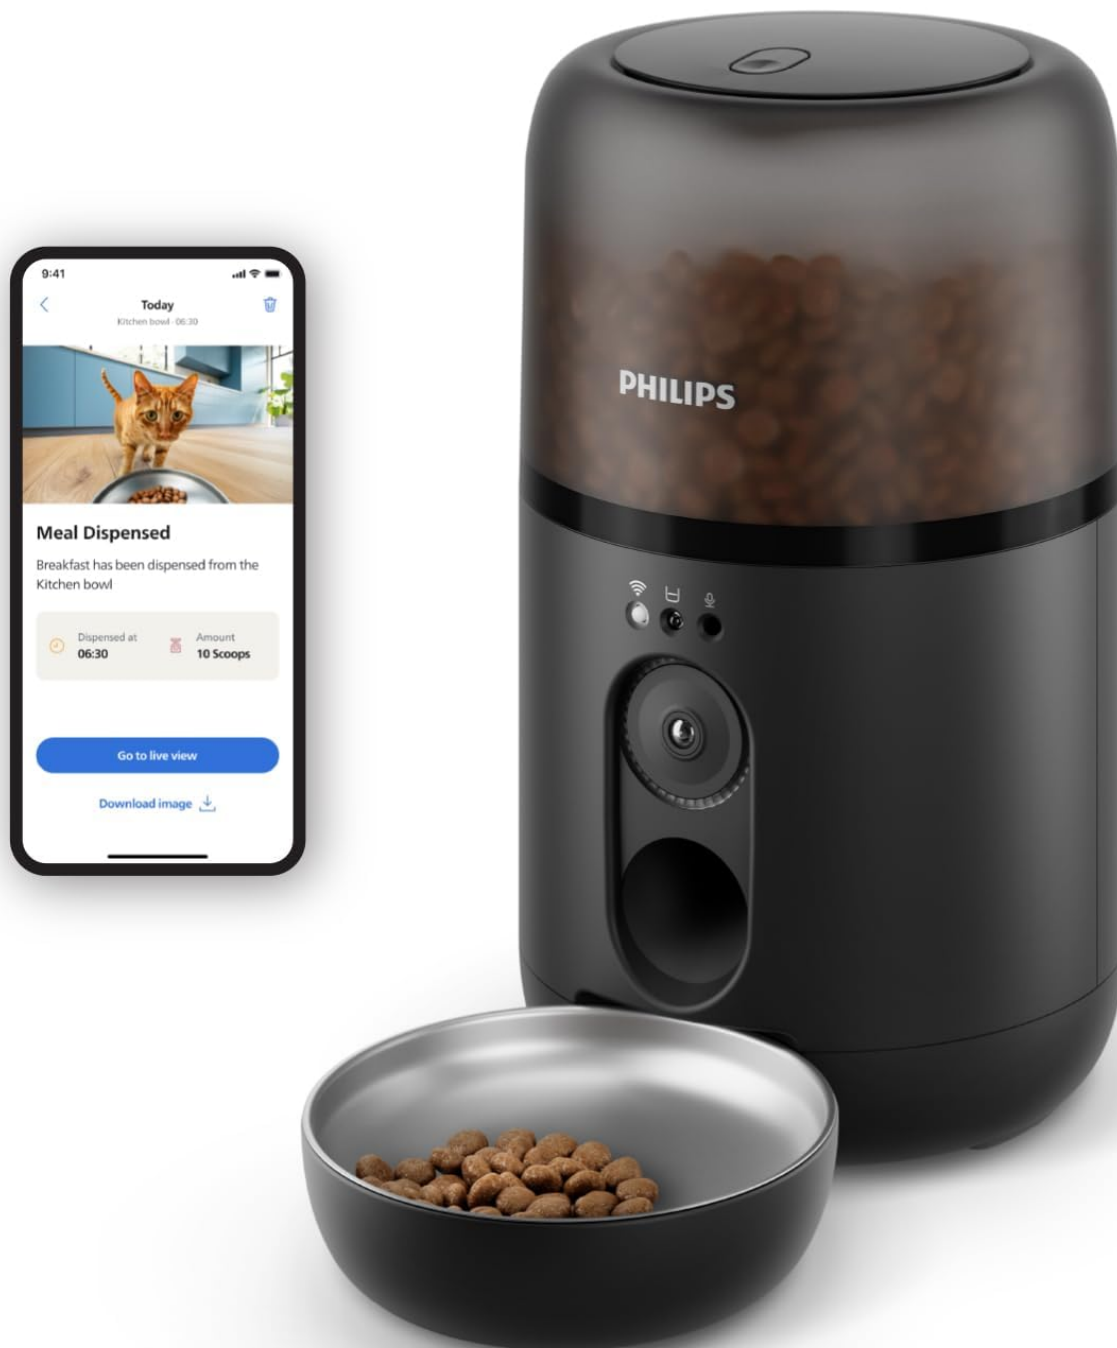

Please ensure all the following components are present in your package:

- The Smart Feeder unit
- Feeder bowl
- Desiccant bag
- Charging cable
- Adapter
- Quick start guide
- Important Information booklet

## SETUP

---

### Initial Setup Steps

The Philips Smart Feeder, designed for automated pet feeding, integrates with a mobile application for remote control and monitoring.

1. **Fill the Food Bin:** Open the lid and fill the food bin with dry kibble. Ensure the kibble size is between 2-12 mm. For proper operation, the food bin should be filled with at least 10% of its total capacity.
2. **Place the Food Bowl:** Insert the feeder bowl into its designated slot in the feeder's base.
3. **Attach Container:** Securely attach the food container to the Smart Feeder unit.
4. **Power Connection:** Place the Smart Feeder near a power outlet.
5. **Plug In:** Connect the adapter to the feeder and plug it into the power outlet. Ensure both the adapter and socket are plugged in tightly.
6. **App Connection:** Turn on the feeder. Download the Philips Pet Series app from your device's app store. Follow the in-app instructions to connect your phone with the Smart Feeder.

## App Download and Connectivity Requirements

To get started, download the Philips Pet Series app:

- **Wi-Fi Frequency Band:** The feeder requires a 2.4 GHz Wi-Fi network. Ensure your router is configured to support this frequency.
- **App Download:** Search for "Philips Pet Series" on the Apple App Store or Google Play Store.
- **Signal Strength:** For optimal performance and stable connection, place the feeder close to your Wi-Fi router where the signal is strong.
