Important Note: This is a replacement remote. While it may look similar to other remotes, internal codes can differ. Always confirm compatibility with your specific air conditioner model. If you are unsure about compatibility, please contact support with your air conditioner's brand and model number, and pictures of your original remote (if available).

Package Contents

- 1 x KRPTQJoo Infrared AC Remote Control

Note: Batteries (2 x AAA) and a printed manual are not included.

Setup

Battery Installation

1. Locate the battery compartment on the back of the remote control.
2. Slide the battery compartment cover downwards to open it.
3. Insert two (2) AAA batteries, ensuring the positive (+) and negative (-) terminals align correctly with the markings inside the compartment.
4. Slide the battery compartment cover back into place until it clicks securely.

Figure 2: Back view of the remote control, highlighting the battery compartment.

The remote control does not require pairing or programming. Once batteries are installed, it is ready for use.

Operating Instructions

This remote control provides standard functions for your LG air conditioner. Point the remote control directly at the air conditioner's infrared receiver when operating.

Figure 3: Detailed view of the remote control buttons and display.

Key Functions:

- **Power Button (On/Off):** Typically a distinct button (often blue or red) to turn the air conditioner on or off.
- **Mode Selection:** Cycle through operating modes such as Cool, Heat, Fan, Dry, or Auto.
- **Temperature Adjustment:** Use the Up/Down arrow buttons to increase or decrease the desired temperature. The display shows temperature in Celsius only.
- **Fan Speed:** Adjust the fan speed (e.g., Low, Medium, High, Auto).
- **Swing/Louvre:** Control the direction of the airflow.
- **Timer:** Set a timer for the air conditioner to turn on or off.

Refer to your LG air conditioner's original manual for specific functions and their corresponding buttons, as button layouts may vary slightly between remote models.

Maintenance

Battery Replacement

Replace batteries when the remote control's range decreases or if the display becomes dim or unresponsive. Always replace both batteries simultaneously with new AAA batteries.

1. Open the battery compartment cover on the back of the remote.
2. Remove the old AAA batteries.
3. Insert two new AAA batteries, observing the correct polarity (+/-).
4. Close the battery compartment cover securely.

Dispose of used batteries according to local regulations.

Cleaning

Wipe the remote control with a soft, dry cloth. Do not use liquid cleaners or abrasive materials, as these can damage the remote's surface or internal components.

Troubleshooting

Problem	Possible Cause	Solution
Remote control is not working.	Batteries are depleted or incorrectly installed.	Replace batteries with new AAA batteries, ensuring correct polarity.
Remote control has poor range.	Low battery power. Obstruction between remote and AC unit.	Replace batteries. Ensure a clear line of sight to the air conditioner's receiver.
Air conditioner does not respond to commands.	Remote is incompatible with the AC unit.	Verify the compatibility of the remote control with your specific LG air conditioner model. Refer to the "Compatibility" section.
