XMHEIRD AC Power Cord (Compatible with Joyoung DJ13B-D18D, DJ13E-ME)

XMHEIRD 6ft UL Listed AC Power Cord User Manual

FOR JOYOUNG SOY MILK MAKER MODELS DJ13B-D18D AND DJ13E-ME

1. Introduction

This manual provides essential information for the safe and effective use of your XMHEIRD 6ft UL Listed AC Power Cord. This power cord is specifically designed to provide reliable power to compatible devices, including the Joyoung Soy Milk Maker models DJ13B-D18D and DJ13E-ME.

2. Safety Information

Your safety is paramount. Please read and adhere to the following safety guidelines:

- **UL Listed:** This power cord is UL Listed, indicating it meets nationally recognized safety standards.
- **Flame Retardant Material:** Constructed with V-0 grade flame retardant materials for enhanced safety.
- **Protection Features:** Equipped with Over Voltage Protection (OVP), Over Current Protection (OCP), and Short Circuit Protection (SCP) to safeguard your devices.
- **Proper Use:** Only use the power cord with devices that match its voltage and current specifications.
- **Avoid Damage:** Do not bend, twist, or pull the cord excessively. Inspect the cord for any damage before each use.
- **Indoor Use Only:** This power cord is intended for indoor use in dry locations.

3. Product Overview

The XMHEIRD 6ft AC Power Cord is a durable and reliable power solution. It features a standard 3-prong NEMA 5-15P male plug on one end and an IEC C13 female receptacle on the other, designed to connect to compatible electronic devices.

4. Setup

Follow these steps to properly connect your power cord:

1. **Identify Ports:** Locate the power input port on your Joyoung Soy Milk Maker (or other compatible device) and a standard wall outlet.
2. **Connect to Device:** Insert the IEC C13 female receptacle end of the power cord firmly into the power input port of your device.
3. **Connect to Power Source:** Insert the 3-prong NEMA 5-15P male plug end of the power cord firmly into a standard, grounded wall outlet.
4. **Verify Connection:** Ensure both ends are securely connected before powering on your device.

Image: A power cord properly connected to an electronic device and a wall outlet, demonstrating a typical setup.

5. Operating

Once the XMHEIRD 6ft AC Power Cord is securely connected to both your device and a power source, it will facilitate the delivery of electrical power. No further operation of the cord itself is required. Ensure your device's power switch is in the 'On' position to begin operation.

6. Compatible Devices

This XMHEIRD 6ft UL Listed AC Power Cord is specifically designed and tested for compatibility with:

- **Joyoung Soy Milk Maker DJ13B-D18D**
- **Joyoung Soy Milk Maker DJ13E-ME**

While this is a standard IEC C13 power cord and may physically fit other devices requiring a similar connection, its primary intended use and verified compatibility are with the Joyoung models listed above.

7. Maintenance

Proper care and maintenance will extend the life of your power cord:

- **Cleaning:** Disconnect the cord from all power sources before cleaning. Wipe the cord with a dry, soft cloth. Do not use liquid cleaners or immerse the cord in water.
- **Storage:** When not in use, coil the cord loosely. Avoid tight coiling or kinking, which can damage the internal wires. Store in a cool, dry place away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically inspect the cord for any signs of wear, cuts, fraying, or damage to the plugs. If damage is observed, discontinue use immediately and replace the cord.

8. Troubleshooting

If you encounter issues with your power cord, consider the following:

- **No Power to Device:**
 - Ensure both ends of the power cord are fully and securely plugged into the device and the wall outlet.
 - Check if the wall outlet is functional by plugging in another known working appliance.
 - Inspect the power cord for any visible damage (cuts, fraying, bent pins). If damaged, replace the cord.
 - Verify that your device's power switch is in the 'On' position.

- **Overheating:** If the power cord feels excessively hot to the touch, immediately disconnect it from the power source and the device. This could indicate an overload or internal damage. Do not use the cord again and replace it.

9. Specifications

Feature	Specification
Brand	XMHEIRD
Cable Length	6 feet (1.8 meters)
Input Voltage	AC 100V-240V, 50/60Hz
Connectors	NEMA 5-15P (Male) to IEC C13 (Female)
UL Listed	Yes
Safety Features	OVP, OCP, SCP Protection, V-0 Grade Flame Retardant
Color	Black
Item Weight	2 ounces (approx.)
Manufacturer	ShenZhen Moveforest Electric Appliance Industry Co.,LTD

10. Warranty and Support

XMHEIRD stands behind the quality of its products. This power cord comes with:

- **30-Days Hassle-free Return:** If you are not satisfied with your purchase, you may return it within 30 days for a refund.
