Pecute PGT-SB05

Pecute Self-Cleaning Slicker Brush (Model PGT-SB05) Instruction Manual

For Dogs, Cats, and Small Animals

1. INTRODUCTION

Thank you for choosing the Pecute Self-Cleaning Slicker Brush. This manual provides essential information for the proper use, maintenance, and care of your grooming tool. Designed for effective and gentle removal of loose fur, dander, and dirt, this brush helps maintain a healthy and shiny coat for your pet. Please read these instructions carefully before first use and retain them for future reference.

This image displays the Pecute Self-Cleaning Slicker Brush. On the right, the full brush is shown with its stainless steel bristles extended. On the left, a hand is pressing the button to retract the bristles, demonstrating the self-cleaning function and the collected fur being pushed off the brush head.

2. PRODUCT OVERVIEW AND FEATURES

The Pecute Self-Cleaning Slicker Brush is engineered for optimal pet grooming with several key features:

- **Self-Cleaning Mechanism:** Easily remove collected hair from the brush with a single push of a button, simplifying cleanup.
- **Gentle Bristle Design:** Features fine, 135-degree angled stainless steel bristles with rounded massage particles. This design allows for deep penetration into the coat to remove loose fur, dander, and dirt without causing discomfort or irritation to your pet's skin.
- **Versatile Use:** Suitable for various pet types including dogs, cats, and small animals, and effective on all coat types

such as long, short, heavy, straight, wavy, and curly fur.

- **Ergonomic Handle:** Designed with a non-slip grip for comfortable handling during extended grooming sessions. The lightweight construction (89g / 3.1oz for Medium size) reduces hand fatigue.
- **Durable Construction:** Made from high-quality ABS, TPR, and stainless steel materials for long-lasting performance.

Great for Cats & Dogs of All Fur Types

Coat Types	For Dogs	For Cats	For Small Animals
Long	✓	✓	✓
Short	✓	✓	✓
heavy	✓	✓	✓
Straight	✓	✓	✓
Wavy	✓	✓	✓
Curly	✓	✓	✓

This chart illustrates the types of fur the Pecute slicker brush is suitable for. It shows compatibility with long, short, heavy, straight, wavy, and curly coats for dogs, cats, and small animals, indicating its versatility.

Skin-Friendly Massage Particles

Massaging pets and combing their hair can improve skin health.

This image provides a detailed view of the brush's skin-friendly massage particles. Each stainless steel bristle is tipped with a small, rounded particle designed to provide a gentle massage effect and prevent skin irritation during grooming.

135° Angled Smooth Stainless-Steel Pins

Allow the brush to dig deep into the pet's coat to remove loose fur.

This graphic demonstrates the 135-degree angled design of the stainless steel pins. This specific angle allows the bristles to penetrate deep into the pet's coat to effectively capture loose fur without scratching the skin.

Ergonomic Non-slip Handle

It reduces forces and protects wrists and dog's skin.

Hanging Hooks

Hooks allow brushes to be stored safely and easily.

This image focuses on the ergonomic design of the brush handle, featuring a non-slip grip for comfortable use and a hanging hole at the end for convenient storage.

3. SETUP

The Pecute Self-Cleaning Slicker Brush requires minimal setup. Upon receiving your brush:

1. Remove the brush from its packaging.
2. Inspect the bristles and handle for any damage. If any damage is found, do not use the product and contact customer support.
3. The brush is now ready for use.

4. OPERATING INSTRUCTIONS

Follow these steps for effective and comfortable grooming:

1. **Prepare Your Pet:** Ensure your pet is calm and comfortable. Begin with short grooming sessions if your pet is new to brushing.
2. **Brush Gently:** Always brush in the direction of hair growth. Use gentle strokes, avoiding excessive pressure, especially on sensitive areas.
3. **Section Grooming:** For thoroughness, divide your pet's hair into sections and groom one section at a time. This is particularly helpful for pets with thick or long coats.
4. **Regular Hair Removal:** As fur accumulates on the brush, regularly remove it to maintain brushing effectiveness.
5. **Self-Cleaning Function:** To remove collected hair from the brush, simply press the button located on the handle. The bristles will retract, allowing the fur to be easily wiped away.

Easy to Use

Step 1
Gently brush your pet.

Step 2
Click the button.

Step 3
Remove hair from
pet brush.

This visual guide shows the simple three-step process for using the brush: Step 1, gently brush your pet; Step 2, click the button to retract bristles; Step 3, easily remove collected hair from the brush.

1 Button Self Cleaning

Press the button on the handle to remove fallen hairs.

This graphic highlights the one-button self-cleaning feature. It shows a hand pressing the button on the brush handle, which retracts the bristles and allows for easy removal of collected pet hair.

5. MAINTENANCE

Proper maintenance ensures the longevity and effectiveness of your brush:

- **Cleaning the Brush:** After each grooming session, use the self-cleaning mechanism to remove the bulk of the hair. For a more thorough cleaning, you can rinse the brush head directly under water. Ensure all hair is removed from between the bristles.
- **Drying:** After rinsing, shake off excess water and allow the brush to air dry completely before storing. You can hang it by the integrated hook for convenience.
- **Storage:** Store the brush in a clean, dry place away from direct sunlight and extreme temperatures.

6. SAFETY INFORMATION

- Always brush your pet's fur gently.
- Avoid sensitive areas such as eyes, ears, and genitals.
- Do not use excessive force, as this may cause skin irritation or injury to your pet.
- Keep out of reach of children and pets when not in use.
- This product is intended for pet grooming only.

7. TROUBLESHOOTING

If you encounter any issues with your Pecute Self-Cleaning Slicker Brush, consider the following:

- **Bristles Bending/Sticking:** If bristles bend or get stuck in the extension mechanism, gently try to straighten them or clear any trapped debris. Ensure the brush is clean and dry after each use to prevent buildup that might affect the mechanism.
- **Ineffective Fur Removal:** Ensure you are brushing in the direction of hair growth and that the brush head is clean. For very dense coats, multiple passes or smaller sections may be required.
- For any other concerns, please refer to the support information below.
