4. SETUP AND ASSEMBLY

Assembly is designed to be straightforward and can typically be completed by one person within 30 minutes. All parts are numbered for easy identification.

4.1. Preparation

1. Clear an open area for assembly, preferably near the final placement of the bed.
2. Unpack all components and lay them out on a soft, clean surface to prevent scratches.
3. Identify all parts and hardware using the provided list and diagrams.

4.2. Assembly Steps

1. **Attach Side Rails to Headboard:** Align the pre-drilled holes on the side rails with those on the headboard. Secure using the provided bolts and Allen wrench. Ensure a snug fit.
2. **Attach Footboard:** Connect the footboard to the other end of the side rails, securing with bolts.
3. **Install Support Legs:** Screw the main support legs into the designated points on the side rails and footboard. Install the central cross support legs to the metal frame for added stability.
4. **Place Wooden Slats:** The 12 thickened wooden slats are pre-attached with Velcro for easy installation. Simply unroll and press them firmly onto the Velcro strips on the bed frame. The EVA strips between the slats and metal frame provide cushioning to ensure noise-free use.
5. **Connect Charging Station:** Ensure the charging station is securely integrated into the headboard. Plug the 6.6-foot power cord into a standard wall outlet.

- **AC Outlets:** The headboard features two (2) 110V/12A AC outlets. These are suitable for powering lamps, laptops, or other small appliances.
- **USB Ports:** Two (2) 5V/2A USB ports are available for charging smartphones, tablets, and other USB-powered devices.
- **Usage:** Simply plug your device's power adapter or USB cable into the corresponding port on the headboard. Ensure the bed frame's power cord is plugged into a live wall outlet.

Important: Do not overload the charging station. Refer to the power ratings for each port. Disconnect devices when not in use.

6. MAINTENANCE

Regular maintenance will help prolong the life and appearance of your Feonase bed frame.

- **Cleaning Upholstery:** For general cleaning, gently vacuum the fabric to remove dust and debris. For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner following the product's instructions, testing on an inconspicuous area first. Avoid harsh chemicals or abrasive cleaners.
- **Frame Inspection:** Periodically check all bolts and connections to ensure they remain tight. Re-tighten if necessary.
- **Slats:** Ensure the wooden slats remain properly seated on the Velcro strips.
- **Charging Station:** Keep the charging ports free of dust and debris. Do not insert foreign objects into the outlets or USB ports.

- **Underbed Space:** The 8-inch underbed clearance allows for storage. Keep this area clean and free of excessive clutter to maintain air circulation.
