## Shark Rotator Anti-Allergen Pet Plus w/Self-Cleaning Brushroll Vacuum ZU55 Instruction Manual

Model: ZU55

Brand: Generic

### PRODUCT OVERVIEW

The Shark Rotator Anti-Allergen Pet Plus with Self-Cleaning Brushroll Vacuum, ZU55, is engineered for effective cleaning, especially in homes with pets. This powerful upright vacuum incorporates Anti-Allergen Complete Seal Technology with a HEPA filter to capture pet hair, dust, dander, and allergens, preventing their release into the air. Its robust suction efficiently handles pet hair and debris, while the self-cleaning brushroll actively prevents hair wrap during operation, ensuring consistent performance.

## KEY FEATURES

- **Anti-Allergen Complete Seal Technology with HEPA Filter:** Traps 99.9% of dust and allergens inside the vacuum.
- **Self-Cleaning Brushroll:** Designed to eliminate hair wrap for consistent cleaning performance.
- **Powerful Suction:** Effectively picks up pet hair and debris from various floor types.
- **Large Capacity Dust Cup:** 0.74 qt capacity reduces the frequency of emptying.
- **Extended Reach:** 25 ft. cord length provides ample reach for cleaning large areas.
- **Washable Filters:** HEPA, Foam, and Felt filters are washable for easy maintenance.
- **Swivel Steering:** Allows for easy maneuverability around furniture and obstacles.

## SETUP

### Unpacking and Assembly

The Shark Rotator Anti-Allergen Pet Plus vacuum requires minimal assembly. Ensure all components are present before beginning. Assembly is required.

1. Carefully remove all parts from the packaging.
2. Attach the main body to the floor nozzle until it clicks securely into place.
3. Connect the hose to the back of the vacuum unit.
4. Attach the accessory holder to the vacuum body.
5. Store the Crevice Tool and Pet Power Brush on the accessory holder.

### Power Connection

Plug the 25 ft. power cord into a standard electrical outlet. Ensure the cord is not in the path of the vacuum during operation to prevent damage.

## OPERATING INSTRUCTIONS

### Powering On and Off

- To turn the vacuum ON, press the power button located on the main unit.
- To turn the vacuum OFF, press the power button again.

### Selecting Floor Type

The vacuum features settings for different floor types:

- **Hard Floor Setting:** Ideal for bare floors and delicate area rugs.
- **Carpet Setting:** Provides optimized performance for carpets and thicker rugs.

## Using Attachments

The vacuum comes with specialized attachments for targeted cleaning:

- **Crevice Tool:** Use for cleaning tight spaces, corners, and along baseboards.
- **Pet Power Brush:** Designed to tackle stubborn pet hair from upholstery, stairs, and other surfaces.

Figure 4: Demonstrating the use of the Pet Power Brush for cleaning furniture.

## MAINTENANCE

### Emptying the Dust Cup

Empty the dust cup after each use or when debris reaches the MAX FILL line. To empty, detach the dust cup from the vacuum and press the release latch to open the bottom flap over a trash bin.

### Cleaning Filters

Regularly clean the filters to maintain optimal suction performance. All filters are washable.

- **Foam and Felt Filters:** Rinse with water and allow to air dry completely for at least 24 hours before reinserting. Clean monthly.
- **HEPA Filter:** Tap clean to remove loose dirt. Rinse with water and allow to air dry completely for at least 24 hours before reinserting. Clean annually.

### Self-Cleaning Brushroll Maintenance

The self-cleaning brushroll is designed to prevent hair wrap. Periodically check the brushroll for any remaining debris or blockages. If necessary, remove the brushroll cover and clear any obstructions.

Figure 5: Visual comparison showing the effectiveness of the self-cleaning brushroll in preventing hair wrap.

## TROUBLESHOOTING

If your Shark Rotator vacuum is not performing as expected, refer to the common issues below:

- **No Power:** Ensure the power cord is securely plugged into a working outlet. Check the circuit breaker.
- **Loss of Suction:** Empty the dust cup. Check and clean all filters (foam, felt, and HEPA). Inspect the hose and nozzles for blockages.
- **Brushroll Not Spinning:** Ensure the vacuum is upright and the floor type setting is correct. Check for obstructions in the brushroll.
- **Unusual Noises:** Turn off and unplug the vacuum. Check for any foreign objects in the brushroll, hose,

or air pathways.

For persistent issues, contact customer support.
