### AlphaTheta WAVE-EIGHT

# AlphaTheta Wave-Eight 8-Inch Bluetooth DJ Speaker with SonicLink Instruction Manual

Model: WAVE-EIGHT

## 1. INTRODUCTION

The AlphaTheta Wave-Eight is an 8-inch Bluetooth DJ speaker designed for portable, high-quality audio. It features SonicLink, an ultra-low-latency wireless technology for seamless DJing without sound delays. This manual provides essential information for setting up, operating, and maintaining your Wave-Eight speaker.

## 2. WHAT'S IN THE BOX

---

Verify that all the following items are included in your package:

- Main unit × 1
- Transmitter × 1
- Power cable × 1
- Transmitter charging/transmission cable × 1
- RCA cable × 1
- Quick Start Guide × 1

## 3. SETUP

---

Follow these steps to set up your AlphaTheta Wave-Eight speaker:

1. **Charging the Speaker:** Connect the power cable to the speaker's AC IN port and a power outlet. The battery indicator will show charging status.
2. **Charging the Transmitter:** Use the provided transmitter charging/transmission cable to charge the transmitter.
3. **Connecting the Transmitter:** Connect the included transmitter to your DJ gear using the appropriate cables (e.g., RCA cable).
4. **Power On:** Press and hold the power button on the speaker and the transmitter to turn them on.
5. **SonicLink Connection:** The speaker and transmitter should automatically establish a SonicLink connection for ultra-low-latency wireless audio. Ensure both devices are within range.
6. **Bluetooth Pairing (Optional):** For standard Bluetooth audio, activate Bluetooth on your source device and select "WAVE-EIGHT" from the list of available devices.

## 4. OPERATING INSTRUCTIONS

The AlphaTheta Wave-Eight is designed for versatile use in various environments.

## 4.1 Wireless Audio with SonicLink

The primary feature of the Wave-Eight is its SonicLink technology, providing ultra-low-latency wireless audio transmission. This allows for cable-free DJing with minimal delay between your decks and the speaker, ensuring precise mixing.

## 4.2 Sound Quality

The speaker features an efficient amplifier, an 8-inch driver, and a Vortex Bass Accelerator to deliver professional sound quality with deep, clear bass.

## 4.3 Expanding Your Setup

For larger events or spaces, you can easily expand your audio setup by connecting additional Wave-Eight units using the SonicLink connection. This creates a synchronized, powerful sound system.

## 4.4 Portability and Durability

The Wave-Eight is battery-powered, offering extended operation without the need for a constant power source. Its

waterproof design makes it suitable for outdoor events and environments where exposure to moisture is possible.

## 4.5 Controls and Inputs

The speaker features intuitive controls for volume, input selection, and sound adjustments. The rear panel includes various input options for connecting different audio sources.

## 5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the speaker's exterior. Avoid abrasive cleaners or solvents.

- **Storage:** Store the speaker in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** For optimal battery life, avoid fully discharging the battery frequently. Charge the speaker regularly, even when not in use for extended periods.
- **Waterproof Features:** While waterproof, ensure all port covers are securely closed before exposing the speaker to water.

## 6. TROUBLESHOOTING

- **No Power:** Ensure the power cable is securely connected and the power outlet is functional. Check the battery level.
- **No Sound:** Verify that the volume is turned up on both the speaker and the audio source. Check all cable connections and ensure the SonicLink or Bluetooth connection is active.
- **SonicLink Disconnection:** Ensure the speaker and transmitter are within range and there are no significant obstructions. Try re-pairing the devices if necessary.
- **Bluetooth Pairing Issues:** Ensure the speaker is in pairing mode and your device's Bluetooth is enabled. Forget previous pairings on your device and try again.

## 7. SPECIFICATIONS

Feature	Specification
Model Name	WAVE-EIGHT
Mounting Type	Floor Standing
Material	Metal
Speaker Type	Outdoor
Special Feature	Waterproof
Recommended Uses For Product	For Music Players
Compatible Devices	Smartphone
Unit Count	1.0 Count
