7. TROUBLESHOOTING

If you encounter any issues with your shoe cabinet, refer to the following common problems and solutions:

- **Cabinet feels wobbly:**
Solution: Ensure the cabinet is placed on a level surface. Check all assembly screws and tighten them. Verify the anti-tip hardware is correctly installed and secured to the wall.
- **Drawers do not open/close smoothly:**
Solution: Check for any obstructions inside the drawer or along the pivot mechanism. Ensure shoes are not overfilling the compartments. Verify that the drawer assembly was done correctly.
- **Scratches or minor damage:**
