

## GOTINSN A1419-A1862-A2115 Glass

# GOTINSN iMac 27-inch Front Screen Panel Protector Glass User Manual

Model: A1419-A1862-A2115 Glass

## 1. PRODUCT OVERVIEW

This document provides instructions for the GOTINSN Front Screen Panel Protector Glass, designed for Apple iMac 27-inch models. This product serves as a protective layer or a cover for existing surface scratches and minor defects on your iMac screen.

### 1.1 Product Purpose

The GOTINSN Front Screen Panel Protector Glass is intended to:

- Cover existing scratches or minor broken defects on the corners of your iMac screen.
- Provide an additional protective layer for your iMac screen against future damage.

**Important Note:** This product is a front glass cover only and does not include the LCD screen. It has no display function and is used solely to protect the display assembly.

### 1.2 Compatibility

This front glass cover is compatible with Apple iMac 27-inch models from the A2115, A1419, and A1862 series, including years 2012, 2013, 2014, 2015, 2017, and 2019.

**You can tear off the very thin iMac screen glass with special tool, and replace a new one for your iMac A1419**

## 2. PACKAGE CONTENTS

The package includes:

- One (1) Front Glass Bezel Protective Panel

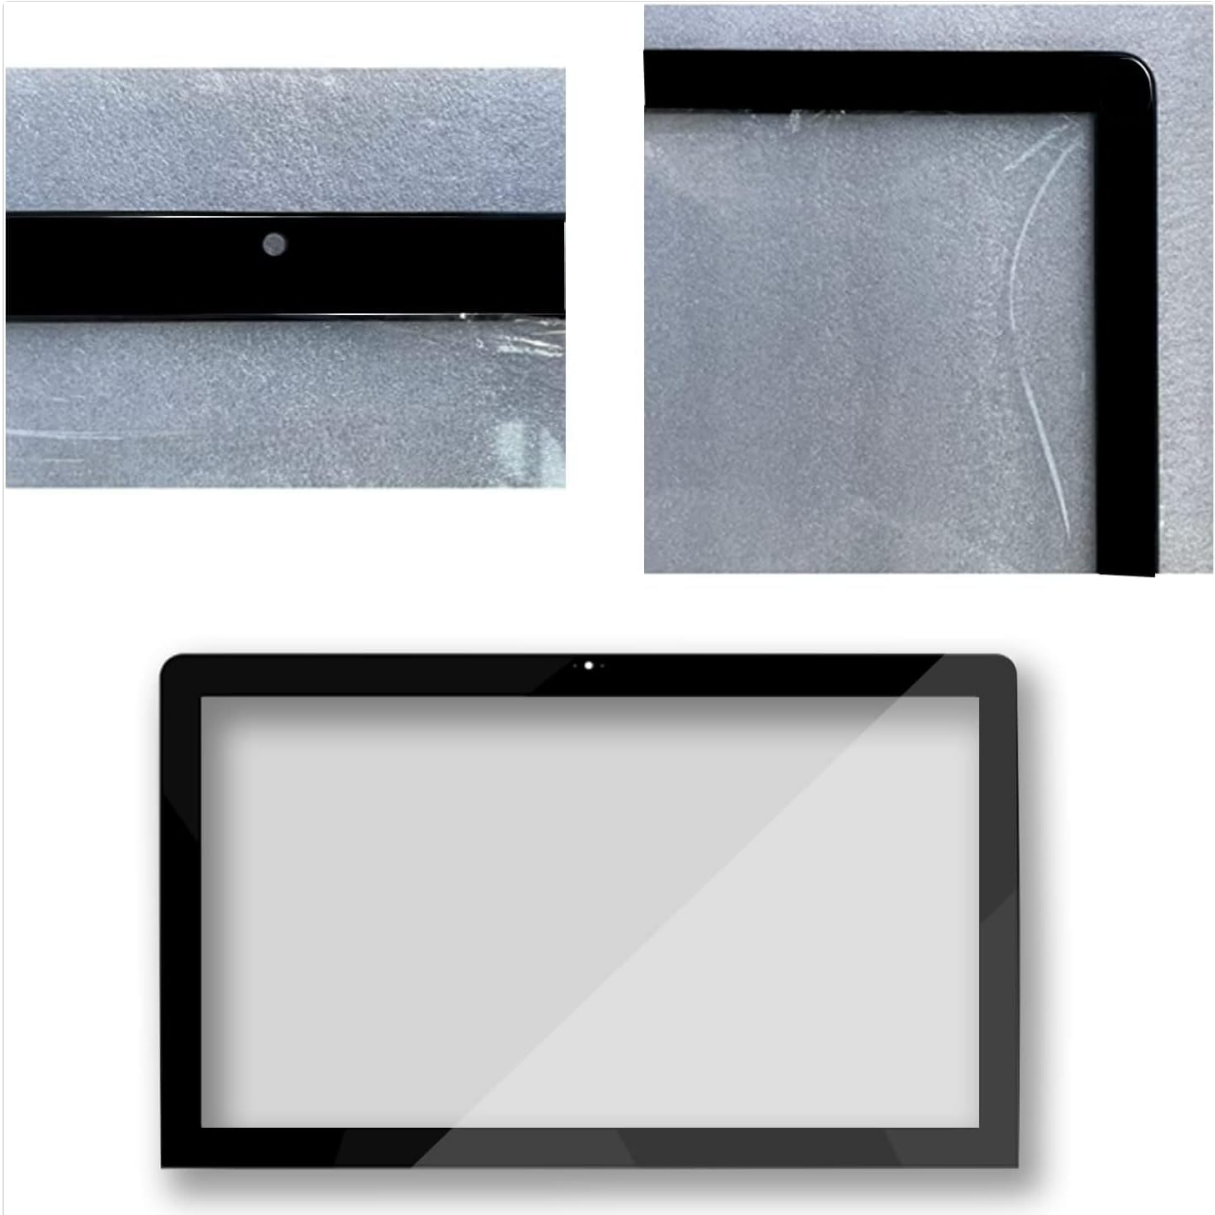

Image: A sequence of images illustrating the secure packaging of the glass panel, including EPE foam and a corrugated box, designed to prevent damage during shipping.

## 3. INSTALLATION GUIDE

Installation of the GOTINSN Front Screen Panel Protector Glass is designed to be straightforward. Please follow these steps carefully.

### 3.1 Pre-Installation Steps

1. **Clean the iMac Screen:** Thoroughly wipe the existing iMac screen to remove any dust, smudges, or debris. Ensure the surface is completely clean and dry before proceeding.
2. **Remove Protective Films:** Carefully peel off the protective plastic films from both sides of the new glass panel.

### 3.2 Installation Procedure

1. **Position the Glass Panel:** Align the new glass panel with the edges of your iMac screen. Use the webcam cutout at the top as a reference point for accurate centering.
2. **Apply the Panel:** Gently lower the glass panel onto the iMac screen. The panel is designed to adhere strongly to the existing screen.
3. **Secure Placement:** Once aligned, press lightly around the edges to ensure a secure and even adhesion.

## Thickened and Reinforced to Prevent Broken Screens

Image: An illustration indicating that the original thin iMac screen glass can be removed with a special tool for replacement with the new A1419 glass.

## 4. CARE AND MAINTENANCE

To ensure the longevity and clarity of your GOTINSN Front Screen Panel Protector Glass, follow these care guidelines:

- **Cleaning:** Use a soft, lint-free cloth specifically designed for electronics screens. Dampen the cloth slightly with water or a screen-safe cleaning solution. Avoid harsh chemicals or abrasive materials.
- **Handling:** While the glass is reinforced tempered glass, avoid applying excessive force or sharp impacts to the screen.
- **Dust Prevention:** Keep your workspace clean to minimize dust accumulation on the screen surface.

## 5. TROUBLESHOOTING

This section addresses common questions and concerns regarding the product.

### 5.1 Common Inquiries

- **Is this a full screen replacement?** No, this is a front glass cover only. It does not include the LCD display and does not restore display functionality if your LCD is damaged. It is designed to protect the existing display or cover cosmetic defects on the outer glass.
- **Can it fix a cracked LCD?** No, this product cannot fix a cracked LCD. It can, however, provide an additional layer of protection over an existing cracked outer glass to prevent further damage.
- **What if I have air bubbles after installation?** Ensure the screen was thoroughly cleaned before installation. Small bubbles may dissipate over time. For larger bubbles, gently lift the nearest edge of the glass and reapply, pushing the air out towards the edge.

## 6. SPECIFICATIONS

Feature	Detail
Brand	GOTINSN
