5. MAINTENANCE

To ensure the longevity and cleanliness of your Sitodier Garden Villa House Building Blocks Set, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, damp cloth to wipe down the blocks. For deeper cleaning, blocks can be gently washed with mild soap and water. Rinse thoroughly and allow to air dry completely before storing.
- **Storage:** Store the building blocks in a clean, dry place away from direct sunlight and extreme temperatures. The original packaging or a dedicated storage container is recommended to keep all pieces together.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or harsh chemicals, as these can damage the plastic and colors of the blocks.

6. TROUBLESHOOTING

If you encounter any issues with your building set, please refer to the following common solutions:

- **Missing Pieces:** Double-check all packaging materials and the assembly area. If a piece is genuinely missing, contact customer support (see Section 8).
- **Blocks Not Connecting:** Ensure the blocks are aligned correctly and apply firm, even pressure. Some new blocks may require a bit more force initially.
- **Structure Instability:** Review previous steps in the instruction manual to ensure all connections are secure and no steps were missed. Incorrectly placed blocks can affect overall stability.
- **Difficulty Disassembling:** If blocks are too tight, gently twist them apart rather than pulling directly. Avoid using tools that could damage the plastic.
