1. SETUP INSTRUCTIONS

This section guides you through the initial setup of your CHARGEWORX Magnetic Wireless Charging Stand.

1.1 Inserting the MagSafe Charger

The stand is designed to securely hold a MagSafe charging cable (not included). Follow these steps to properly install your charger:

1. Locate the circular cutout on the top surface of the silicone stand.
2. Identify the cable management channel within the stand's hollow interior.
3. Carefully thread the charging cable of your MagSafe charger through the designated opening at the bottom of the stand and up through the interior channel.
4. Insert the MagSafe charging puck into the circular cutout on the top of the stand. Ensure the puck sits flush and securely within the cutout.
5. Gently pull any excess cable through the bottom opening to ensure a snug fit and discreet cable management.

A PERFECT
CIRCULAR
CUTOUT FOR
MAGSAFE
CHARGERS

A 3D cutaway illustration of the charging stand's interior. The stand is dark grey/black. Inside, a white charging cable is shown entering from the right and being routed through a series of curved, teal-colored channels. The text 'DISCREET CABLE MANAGEMENT' is overlaid in teal and white. A teal arrow points to the cable's path.

DISCREET CABLE MANAGEMENT

1.2 Connecting to Power

Once the MagSafe charger is securely in place, connect the USB-C end of the charging cable to a compatible power adapter (not included) and plug it into a wall outlet. The stand is now ready for use.

2. OPERATING INSTRUCTIONS

This section details how to use your charging stand effectively.

2.1 Placing Your Device for Charging

The CHARGEWORX stand is compatible with iPhone 16, 15, 14, 13, and 12 series devices when used with a MagSafe charging cable. Simply place your MagSafe-compatible iPhone onto the charging puck. The magnetic connection will align your device for optimal wireless charging.

COMPATIBLE WITH
IPHONE 12/13/14/15

3. MAINTENANCE

Proper care ensures the longevity and appearance of your charging stand.

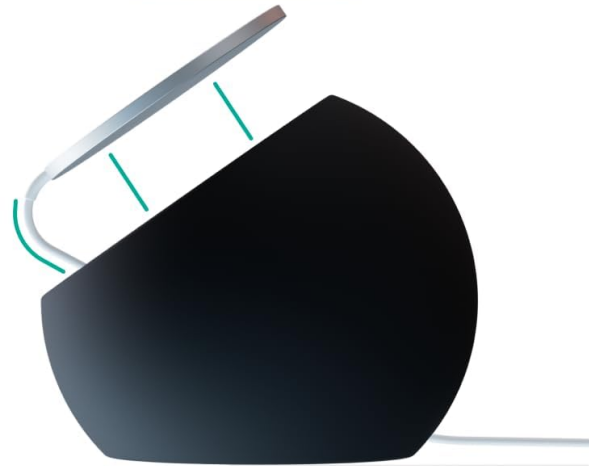

3.1 Cleaning Instructions

The stand is made from premium silicone material. To clean, gently wipe the surface with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the silicone finish.

4. TROUBLESHOOTING

If you encounter issues with your CHARGEWORX Magnetic Wireless Charging Stand, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
MagSafe charger does not fit or protrudes.	Charger not fully seated or cable not properly routed.	Ensure the MagSafe puck is pushed firmly into the circular cutout until it is flush. Verify the cable is correctly threaded through the internal channel and pulled taut from the bottom.
Phone does not charge.	Loose connection, incompatible charger/adaptor, or phone misalignment.	Check that the MagSafe charger is properly connected to a power adapter and the adapter is plugged into a working outlet. Ensure your phone is MagSafe-compatible and correctly aligned with the charging puck.

Problem	Possible Cause	Solution
MagSafe charger comes out when removing phone.	Strong magnetic force between phone and charger, or charger not securely seated.	Ensure the MagSafe puck is firmly seated in the stand. When removing your phone, gently slide it off the charger rather than pulling directly upwards.

5. SPECIFICATIONS

Key technical details for the CHARGEWORX Magnetic Wireless Charging Stand:

- **Brand:** CHARGEWORX
- **Model Number:** AZ1017BK
- **Color:** Black
- **Material:** Premium Silicone
- **Compatible Devices:** Smartphones (iPhone 16, 15, 14, 13, 12 series with MagSafe)
- **Mounting Type:** Tabletop
- **Fastening Type:** Magnetic
- **Item Dimensions:** 3.5 x 3.5 x 2.7 inches
- **Item Weight:** 3.4 Ounces
- **UPC:** 643620037010
