

PETLIBRO PLAF301

PETLIBRO Upgraded RFID Automatic Cat Feeder User Manual

Model: PLAF301

INTRODUCTION

The PETLIBRO Upgraded RFID Automatic Cat Feeder is designed to provide precise and personalized feeding for your pets, especially in multi-pet households. Featuring RFID collar tag activation, Wi-Fi connectivity for app control, and real-time eating habit monitoring, this feeder ensures your pet receives the right amount of food at the right time, promoting healthier eating habits and preventing food aggression.

IMPORTANT SAFETY INFORMATION

Please read all safety instructions before use to prevent injury or damage.

- Use this product indoors only.
- Only use the provided collar tag. This feeder is **NOT** microchip activated.
- Do not wash the feeder base or the RFID reader with water. Clean only with a dry cloth.
- Use only dry kibble with a diameter between 2mm and 15mm.
- Replace the desiccant bag every half month to maintain food freshness.
- Always use the original charger provided with the feeder.

PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x PETLIBRO ONE WiFi Feeder (3L)
- 1 x Charger
- 1 x Collar & Tag (Only supports the provided collar tag)
- 1 x Stainless Steel Bowl
- 1 x RFID Reader

SETUP GUIDE

1. Unpacking and Assembly

Carefully remove all components from the packaging. Place the feeder on a flat, stable surface indoors. Insert the stainless steel bowl into its designated slot.

2. Power Connection

Connect the feeder to a power outlet using the provided charger. For added reliability, you may install Type-D batteries (not included) as a backup power source in case of power outages. Note that Wi-Fi functionality is not available when the feeder is powered solely by batteries.

Image: Illustration of the feeder operating in power cord mode and emergency mode with batteries.

3. App Download and Wi-Fi Connection

Download the PETLIBRO app from your mobile device's app store. Follow the in-app instructions to connect your feeder to your home Wi-Fi network. This enables remote control and monitoring features.

Wi-Fi enabled automatic feeding

Easily schedule customized meals with app

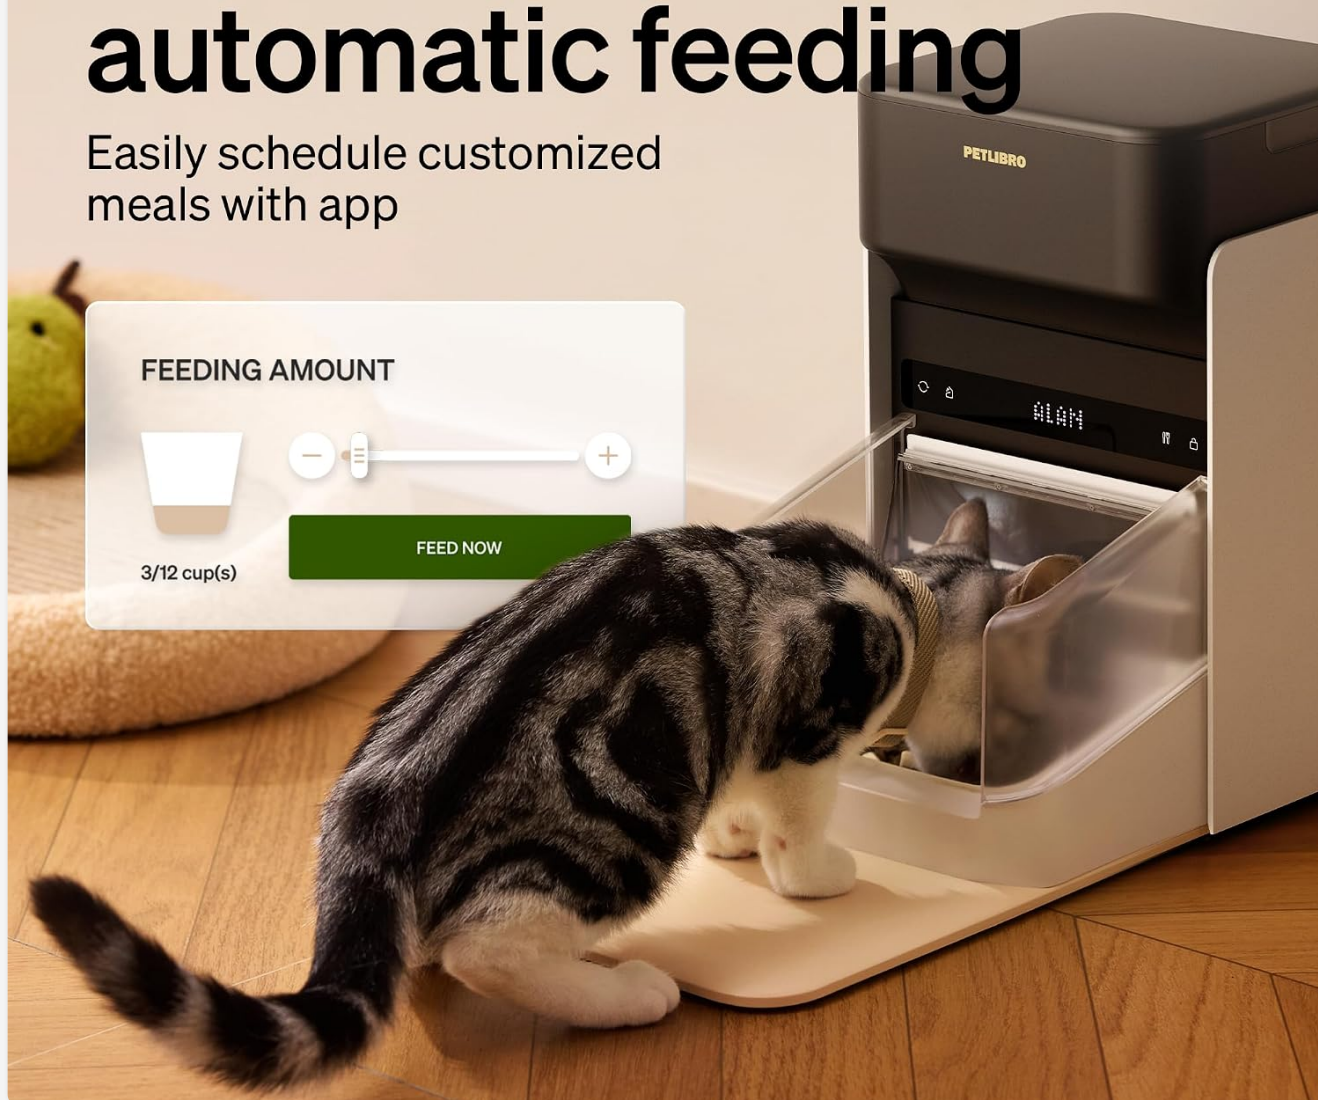

Image: The PETLIBRO feeder alongside a smartphone displaying the app interface for controlling feeding amounts.

4. RFID Collar Tag Setup

Attach the provided RFID collar tag to your pet's collar. The feeder is designed to recognize this specific tag, ensuring only the designated pet can access the food. For multi-pet households, ensure sufficient distance (greater than 10 inches) between multiple feeders to prevent interference.

Collar tag activated personal meals

RFID reader only unlocks lid to serve food
after verifying pet's collar tag

Note: The feeder is only compatible with the provided tag, not for microchips.

Image: A cat wearing an RFID collar tag approaching the PETLIBRO feeder, illustrating how the tag activates the feeder.

A personal feeder for every pet

Cater meals to every pet's individual
eating habits and requirements

Note: The distance between multiple feeders should be greater than 10 inches.

OPERATING INSTRUCTIONS

1. Scheduling Meals via App

Use the PETLIBRO app to set up customized feeding schedules. You can define meal times, portion sizes, and frequency. The app allows for flexible adjustments to meet your pet's specific dietary needs.

2. Manual Feeding

For immediate feeding or to provide an extra treat, use the manual feeding option available in the app. This dispenses a pre-set portion of food on demand.

3. Adjustable Lid Settings

The feeder's lid speed can be adjusted to one of three modes, allowing your pet to adapt comfortably. The lid's closing time can also be customized to close within 1-10 seconds after your pet moves away from the sensor.

4. Monitoring Eating Habits (Pawsense™)

The Pawsense™ feature within the app monitors your pet's meal times and frequency, generating data reports that provide insights into their eating patterns. This helps you understand and manage their health more effectively.

Monitor eating habits for peace of mind

Track mealtime insights easily with PawSense™

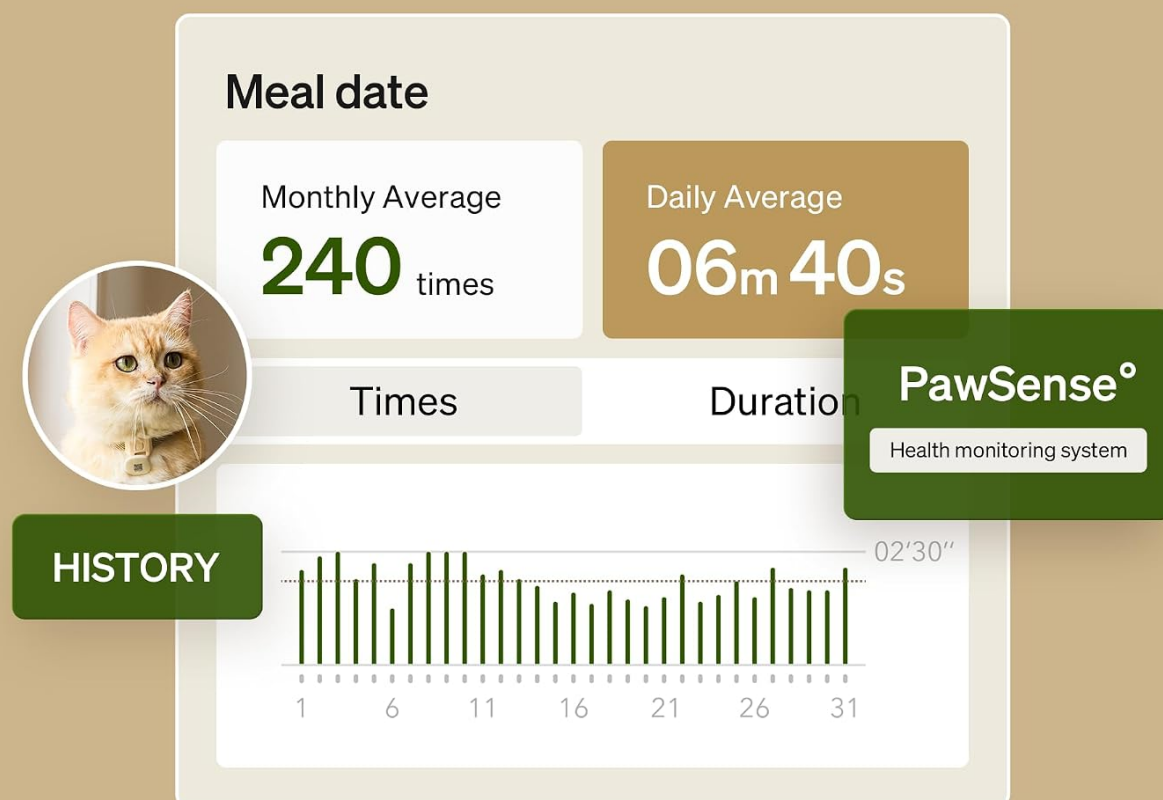

Image: The PETLIBRO app displaying the Pawsense health monitoring system, showing monthly and daily average eating times and frequencies.

5. Customizable LED Screen

Personalize the feeder's LED screen with your pet's name or other messages through the app. This adds a unique touch to your pet's feeding experience.

Customizable LED screen

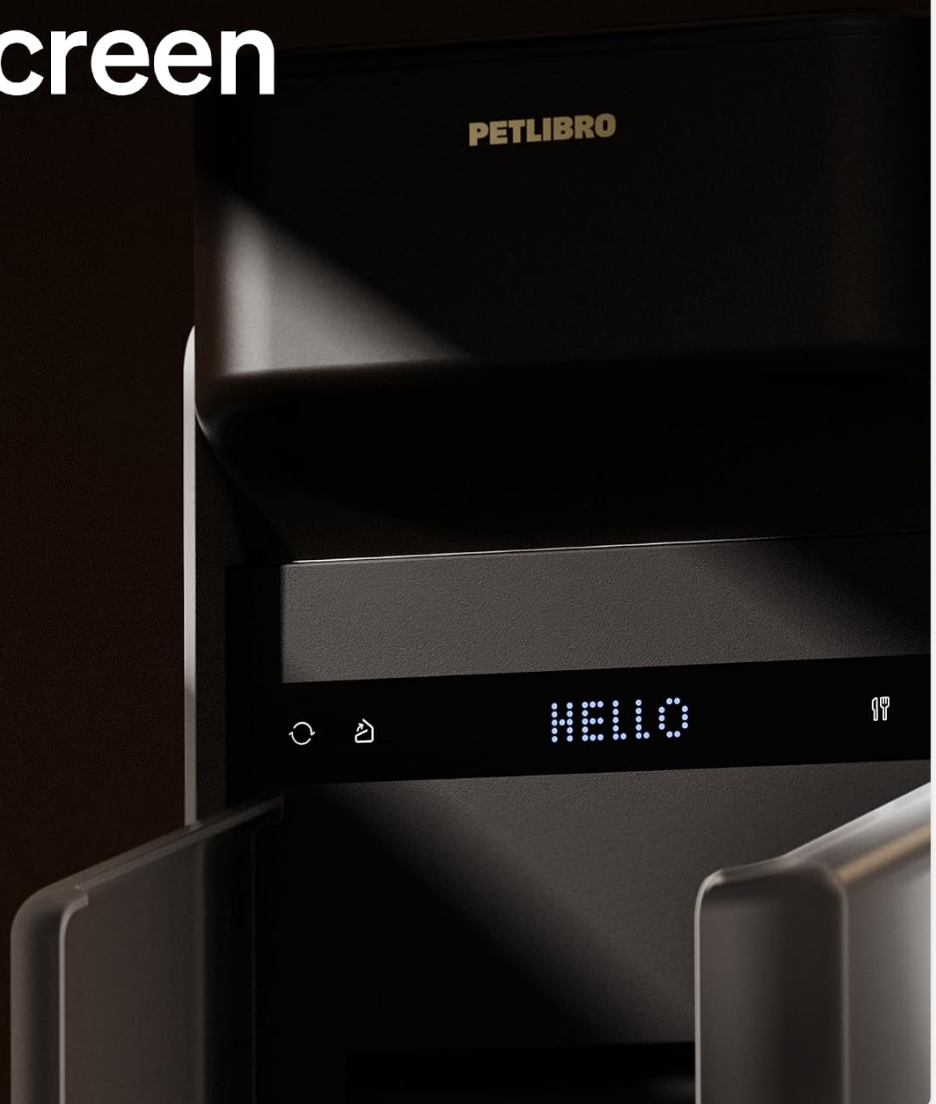

Image: A close-up of the PETLIBRO feeder's customizable LED screen, showing various display options including "HELLO".

6. App Alerts

Receive instant notifications on your phone for important events such as low food levels or when the desiccant bag needs replacement, ensuring you never miss a meal or maintenance task.

MAINTENANCE

1. Cleaning

Regular cleaning is essential for hygiene and proper functioning. The stainless steel bowl can be removed and washed. The feeder base and RFID reader should only be wiped clean with a dry cloth. Do not submerge them in water.

Food kept safe and fresh

Bowl lid keeps meals secure

Image: The PETLIBRO feeder demonstrating its food freshness features with the bowl lid closed and open, revealing kibble inside.

2. Desiccant Bag Replacement

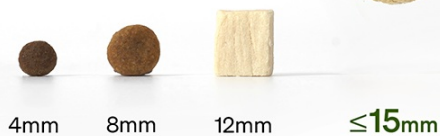

To ensure optimal food freshness, replace the desiccant bag located in the food tank every half month. This helps to absorb moisture and keep the kibble dry.

3. Recommended Kibble

Use only dry kibble with a diameter between 2mm and 15mm. This ensures smooth dispensing and prevents jams. Do not use wet pet food or kibble larger than 15mm.

Recommended kibble size

2-15 mm

Recommended food types

Dry food

Freeze-dried food

Mixed food

Air-dried food

Note: Do not use the feeder with wet pet food or kibble over 15mm in diameter.

Image: Visual guide showing recommended kibble sizes (2-15mm) and compatible food types such as dry food, freeze-dried food, mixed food, and air-dried food.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Feeder not dispensing food.	Food jam, low food level, power issue.	Check food level. Clear any obstructions in the dispenser. Ensure feeder is properly powered. Check app for alerts.
RFID collar tag not recognized.	Tag not positioned correctly, tag damaged, sensor interference.	Ensure the pet is positioned directly over the RFID reader. Check the collar tag for damage. Move feeder away from other electronic devices that might cause interference. If issue persists, contact customer support for a replacement tag.
App not connecting to feeder.	Wi-Fi issue, feeder not powered, app glitch.	Ensure feeder is connected to power and within Wi-Fi range. Restart the app and/or the feeder. Verify your Wi-Fi network is stable.
Food becoming stale quickly.	Desiccant bag needs replacement, lid not sealed properly.	Replace the desiccant bag every half month. Ensure the food tank lid is securely closed and the silicone strips are clean and intact.

SPECIFICATIONS

Feature	Detail
Model Name	RFID cat feeder
Model Number	PLAF301
Capacity	3L

Feature	Detail
Dimensions (LxWxH)	10.43 x 9.45 x 17.13 inches
