2. SETUP AND INITIAL USE

2.1 Charging the Power Bank

1. Connect the provided USB-C charging cable to the USB-C port on the power bank.
2. Plug the other end of the cable into a compatible USB power adapter (not included).
3. The LED indicator lights will illuminate to show the charging status. All four lights will be solid when fully charged.

2.2 Attaching to Your Device (MagSafe)

1. Ensure your iPhone is a 16/15/14/13/12 series model or is equipped with a MagSafe-compatible case.
2. Align the power bank with the MagSafe area on the back of your iPhone.

3. The power bank will magnetically snap into place and automatically begin wireless charging.

3.3 Checking Battery Level

- Press the power button once to view the current battery level via the LED indicator lights.
- Each illuminated LED light represents approximately 25% of the battery capacity.

4. MAINTENANCE AND CARE

- Keep the power bank away from water, moisture, and extreme temperatures.
- Avoid dropping or subjecting the device to strong impacts.
- Clean the surface with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place when not in use for extended periods.

5. TROUBLESHOOTING

5.1 Device Not Charging

- Ensure the power bank itself is charged. Check the LED indicators.
- For wireless charging, verify that your device is MagSafe compatible or has a MagSafe case, and that it is properly aligned.
- For wired charging, check the USB-C cable connection and ensure the cable is not damaged.
- Try restarting the power bank by pressing the power button.

5.2 Weak Magnetic Connection

- Ensure your iPhone is a compatible model (16/15/14/13/12 series).
- If using a case, ensure it is a MagSafe-compatible case. Non-MagSafe cases may interfere with magnetic strength.
- Remove any metal objects or thick accessories between the power bank and your device.

5.3 Slow Charging

- Ensure you are using a PD20W compatible wall adapter for wired charging of the power bank or your device.
- Wireless charging speeds may vary depending on device model and environmental factors.
- Avoid using your device heavily while charging, as this can slow down the charging process.
