## Uuoeebb XXT

# Uuoeebb Baby 2 Step Stool User Manual

Model: XXT

## 1. IMPORTANT SAFETY INFORMATION

Please read and understand all safety warnings and instructions before assembling or using the Uuoeebb Baby 2 Step Stool. Failure to follow these instructions may result in serious injury.

- **WARNING:** Serious or fatal injury may occur from unexpected assembly or use.
- During the assembly process, keep all parts away from babies or children to prevent choking hazards or injury.
- Keep the stool away from water, fire, and direct sunlight to prevent damage and ensure longevity.
- Ensure that all 12 screws are fixed tightly before each use to maintain stability and prevent collapse.
- The maximum bearing capacity of this stool is 100 KG (approximately 220 lbs). Do not overload the stool.
- Always supervise children when they are using the step stool.
- Ensure the stool is placed on a flat, stable surface. For added stability, position the stool against a wall or sturdy furniture when in use.

## 2. PRODUCT OVERVIEW

The Uuoeebb Baby 2 Step Stool is a versatile and sturdy wooden stool designed to assist toddlers in reaching elevated surfaces safely and independently. It is ideal for use in various rooms, including bathrooms, kitchens, and playrooms.

The Uuoeebb Baby 2 Step Stool is designed to assist toddlers in reaching elevated surfaces safely.

### Key Features:

- Promotes child's independence and motor skills.
- Includes 4 slip-resistant soft mats for enhanced security on various floor types.
- Sturdy birch wood construction with a Cream White finish.
- Supports up to 220 lbs, suitable for both children and adults.
- Easy assembly with included hardware.

### 3. PACKAGE CONTENTS

Please verify that all components are present before beginning assembly:

- Pre-cut wooden panels for the step stool
- 12 x Screws

- 1 x Screwdriver (assembly tool)
- 4 x Slip-resistant soft mats
- Assembly instructions (this manual)

#### 4. SETUP AND ASSEMBLY INSTRUCTIONS

The Uuoeebb Baby 2 Step Stool requires assembly. Follow these steps carefully to ensure proper and safe construction.

This diagram illustrates the assembly points, including where the 12 screws are inserted and the placement of anti-slip strips on the floor side.

1. Unpack all components and verify against the package contents list.
2. Identify the side panels, step panels, and connecting pieces.
3. Align the first step panel with the designated slots on the side panels.
4. Insert screws into the pre-drilled holes and tighten them securely using the provided screwdriver. Do not overtighten.
5. Repeat the process for the second step panel, ensuring it is firmly attached.
6. Attach any remaining connecting pieces as indicated in the diagram.

7. Once the wooden structure is fully assembled and all 12 screws are tightened, apply the four slip-resistant soft mats to the bottom of the stool's feet. These mats help prevent sliding on smooth surfaces.
8. Before first use, gently test the stool's stability by applying light pressure. Ensure there is no wobbling or loose connections.

## 5. OPERATING INSTRUCTIONS / USAGE

---

The Uuoeebb Baby 2 Step Stool is designed for children aged 1-5 years to assist with various daily activities.

### General Use:

- Place the stool on a flat, dry, and stable surface.
- Ensure the child steps onto the stool facing forward, holding onto a stable surface if needed.
- Always supervise children while they are using the stool.

### Bathroom Use (Sink & Potty Training):

The two-step design is ideal for potty training, providing a stable and accessible platform for children to reach the toilet.

The stool is perfect for helping children reach the bathroom sink to wash hands or brush teeth. It also serves as an excellent aid for potty training, allowing children to comfortably reach the toilet.

### **Kitchen and Other Areas:**

**Best Step Stool  
to Train Kids'  
Independence**

The step stool helps children gain independence by allowing them to reach higher surfaces, such as shelves, safely.

Use the stool in the kitchen to involve children in cooking activities or to help them reach items on lower shelves. Its compact design makes it suitable for bedrooms, playrooms, or any area where a little boost is needed.

The stool features a first step at 5.5 inches and a second step at 5.1 inches, providing appropriate height for toddlers.

## 6. MAINTENANCE AND CARE

Proper care will extend the life of your Uuoeebb Baby 2 Step Stool.

- **Cleaning:** Wipe the stool clean with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the wood finish.
- **Storage:** Store the stool in a dry place, away from extreme temperatures and humidity.
- **Protection:** Keep the stool away from prolonged exposure to water, fire, and direct sunlight to prevent warping, discoloration, or damage.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.

## 7. TROUBLESHOOTING

If you encounter any issues with your Uuoeebb Baby 2 Step Stool, please refer to the following common solutions:

- **Stool feels wobbly after assembly:** Ensure all 12 screws are fully tightened. Refer to Section 4: Setup and Assembly Instructions for detailed steps.
- **Stool slides on the floor:** Verify that the four slip-resistant soft mats are properly attached to the bottom of the stool's feet. If they are worn, consider replacing them. Ensure the floor surface is clean and dry.
- **Child has difficulty using the stool:** Ensure the stool is placed on a stable, flat surface. Encourage the child to hold onto a nearby stable object (like a sink or counter) for balance. Always supervise use.
