LEGAMI Inflatable Pillow (Model IP0008)

Instruction Manual

Brand: LEGAMI | Model: IP0008

1. INTRODUCTION

Thank you for choosing the LEGAMI Inflatable Pillow, Model IP0008. This versatile and portable pillow is designed to provide comfortable support for your head and neck during various leisure activities. Its compact size and easy inflation make it an ideal companion for camping, beach trips, poolside relaxation, and travel. Please read this manual carefully before use to ensure proper setup, operation, and maintenance.

2. SAFETY INFORMATION

- **Not a life-saving device:** This inflatable pillow is not intended for use as a flotation device or for personal safety in water. Always supervise children when near water.
- **Avoid sharp objects:** Keep the pillow away from sharp objects, rough surfaces, and open flames to prevent punctures and damage.
- **Do not overinflate:** Inflate the pillow until it is firm but not rigid. Overinflation can cause seams to burst.
- **Temperature exposure:** Avoid prolonged exposure to direct sunlight or extreme temperatures, as this may damage the material.
- **Adult supervision:** Ensure children use the product under adult supervision.

3. PACKAGE CONTENTS

- 1 x LEGAMI Inflatable Pillow (Model IP0008)

4. SETUP

1. **Unpack:** Carefully remove the inflatable pillow from its packaging.
2. **Locate Valve:** Find the inflation valve on the pillow.
3. **Inflate:** Open the valve and inflate the pillow by mouth or using a suitable hand pump. Inflate until the pillow is firm to the touch but still has some give. Do not overinflate.
4. **Seal Valve:** Securely close the inflation valve to prevent air leakage.

5. OPERATION

Once inflated, the LEGAMI Inflatable Pillow can be used as a comfortable headrest or back support. Its water-resistant design makes it suitable for use near water, such as by the pool or at the beach. The integrated cup holder provides convenience for beverages.

6. MAINTENANCE

- **Cleaning:** Clean the pillow with a damp cloth and mild soap. Do not use harsh chemicals or abrasive cleaners.
- **Drying:** Allow the pillow to air dry completely before deflating and storing.
- **Storage:** To store, open the valve, gently press the pillow to release air, and fold it neatly. Store in a cool, dry place away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

- **Pillow deflates quickly:** Ensure the inflation valve is securely closed. Inspect the pillow surface for any small punctures or leaks. If a leak is found, a repair kit (not included) may be used for minor repairs.
- **Difficulty inflating:** Check that the inflation valve is fully open and clear of any obstructions.
