

## Caiord J6

# Caiord J6 Wireless Lavalier Microphone Instruction Manual

Model: J6 | Brand: Caiord

## 1. PRODUCT OVERVIEW

---

The Caiord J6 Wireless Lavalier Microphone system offers a convenient and high-quality audio solution for content creators, streamers, and anyone needing clear sound recording. Featuring plug-and-play functionality, advanced noise cancellation, and broad device compatibility, this system is designed for professional-grade audio capture.

### What's in the Box:

- 2 x TX (Transmitters)
- 1 x RX (Receiver)
- 2 x Adapters (USB-C to Lightning, USB-C to USB-A)
- 2 x Windscreen
- 1 x Charging Case
- 2 x USB-C Charging Cable
- 1 x Instruction Manual

## 2. SETUP GUIDE

### 2.1 Initial Charging

Before first use, ensure both transmitters (TX) and the charging case are fully charged. Connect the provided USB-C charging cable to the charging case and a power source. The charging case features a built-in rechargeable battery, offering up to 42 hours of extended usage for the microphones.

### 2.2 Connecting to Your Device (Plug and Play)

1. **Select Adapter:** Choose the appropriate adapter (USB-C to Lightning for iPhone/iPad or USB-C to USB-A for Android/PC) based on your recording device's port.
2. **Plug in Receiver:** Insert the receiver (RX) with the selected adapter into your device's charging port.
3. **Power On Microphones:** Take the transmitters (TX) out of the charging case. Press and hold the power button on each transmitter to turn them on. They will automatically pair with the receiver.
4. **Verify Connection:** Visual dials on the transmitters provide clear insight into the connection status.

### 3.2 Noise Cancellation

The Caiord J6 features a built-in intelligent active noise cancellation chip. To activate or deactivate noise cancellation, simply one-click the yellow button on the transmitter (TX) or receiver (RX).

## VISUAL OPERATION

Easily know your connection status anytime, anywhere

<b>One click:</b>	<b>Double-click</b>	<b>Triple click</b>
Noise Reduction	Mute Mode	Reverb Mode

Image: Visual representation of the Caiord J6's smart noise reduction capabilities, including 48kHz sampling rate, 24-bit depth, 60dB signal-to-noise ratio, and 95dB maximum sound pressure level.

### 3.3 Mute Function

Double-click the yellow button on the transmitter to activate or deactivate mute mode.

### 3.4 Wireless Transmission

The microphone boasts a stable 2.4GHz transmission technology, providing a wireless transmission distance of up to 165 feet (50 meters).

## MELODY IN THE WIND

You can pop on a windscreen to keep your recording clearly

## 4. MAINTENANCE

---

## 4.1 Charging

The wireless microphone transmitters feature a built-in rechargeable battery, offering up to 6 hours of continuous operation on a single charge. The charging case provides an impressive 42 hours of additional battery life, allowing you to recharge the microphones multiple times on the go.

## 4.2 Using Windscreen

For outdoor recording or in windy environments, attach the provided windscreens to the microphones to minimize wind noise and ensure clear audio capture.

## 4.3 General Care

- Keep the device dry and away from extreme temperatures.
- Clean the microphones and receiver gently with a soft, dry cloth.
- Avoid dropping or subjecting the device to strong impacts.

## 5. TROUBLESHOOTING

- **No Sound:** Ensure the receiver is correctly plugged into your device and the microphones are powered on and paired (indicated by visual dials). Check your device's audio input settings.
- **Poor Audio Quality:** Verify that noise cancellation is enabled if in a noisy environment. Ensure the microphone is positioned correctly and not obstructed. Check battery levels.
- **Disconnection:** Ensure the microphones and receiver are within the 165ft transmission range. Avoid physical obstructions between the transmitter and receiver.
- **Microphone Not Charging:** Place the microphones correctly into the charging case. Ensure the charging case itself is charged or connected to a power source.

## 6. SPECIFICATIONS

Feature	Detail
Model Name	J6
Brand	Caiord

Feature	Detail
Microphone Form Factor	Lavalier
Connectivity Technology	Wireless (2.4GHz)
Polar Pattern	Omnidirectional
Audio Sensitivity	60 Decibels
Signal-to-Noise Ratio	60 dB
Power Source	Battery Powered (2 A batteries included)
Battery Type	Lithium Ion
Operating Time (Microphone)	Up to 6 hours
Operating Time (with Charging Case)	Up to 42 hours
Wireless Transmission Distance	Up to 165 feet (50 meters)
Compatible Devices	Smartphone (iPhone 16, iPhone 16 Plus, iPhone 16 Pro, iPhone 16 Pro Max, other iPhone/iPad models, Android, PC, Laptop)
Special Features	Battery Indicator Light, Clip, Mute Function, Noise Reduction
Item Weight	98 Grams (3.46 ounces)
Product Dimensions	4.72 x 4.33 x 1.57 inches
