INTRODUCTION

The Ingenuity Dream Retreat 3-in-1 Portable Bassinet & Playard is designed to provide a safe and comfortable environment for your child, adapting from a bassinet for infants to a playard for toddlers, and featuring a versatile UPF 50+ shade for indoor and outdoor use. This manual provides essential information for proper assembly, operation, maintenance, and safety to ensure the well-being of your child.

SAFETY INFORMATION

WARNING: Failure to follow these warnings and instructions could result in serious injury or death. Always ensure the product is used according to the guidelines provided.

- **Age and Weight Limits:** Suitable for children from 0 to 36 months. Maximum weight recommendation is 20 pounds. Discontinue use of the bassinet feature when the infant begins to push up on hands and knees or has reached 20 lbs (9 kg), whichever comes first. Discontinue use of the playard when the child is able to climb out or reaches 35 inches (89 cm) in height.
- **Suffocation Hazard:** Infants can suffocate in gaps between an extra mattress and the side of the bassinet/playard, or on soft bedding. Use ONLY the mattress/pad provided by the manufacturer. NEVER add a pillow, comforter, or another mattress for padding.
- **Strangulation Hazard:** Keep cords, blinds, and other potential strangulation hazards away from the bassinet/playard.
- **Fall Hazard:** Always check that the bassinet/playard is securely locked in place before use. Never leave a child unattended.
- **Supervision:** Always supervise your child when they are in the bassinet, playard, or shade.
- **Outdoor Use:** When using the shade outdoors, ensure it is properly anchored to prevent tipping.

OPERATING INSTRUCTIONS

Bassinet Mode (0-5 months)

The bassinet mode provides a raised sleeping surface for newborns, making it easier to access your baby. The integrated shade helps create a consistent, healthy sleep environment by controlling lighting and limiting distractions.

- **Frame:** Wipe metal and plastic parts with a soft, clean cloth and mild soap.

TROUBLESHOOTING

If you encounter issues with your Ingenuity Dream Retreat, refer to the following common solutions:

- **Playard not locking:** Ensure all side rails are fully extended and clicked into place. The center of the floor must be pushed down completely until it lies flat and locks.
- **Difficulty with shade assembly:** Carefully review the assembly instructions for the shade frame. Ensure all connectors are aligned correctly before applying pressure. Avoid forcing parts, as this may cause breakage.
- **Product feels unstable:** Double-check all locking mechanisms on the frame and ensure the bassinet insert (if used) is securely fastened. For outdoor shade use, fill the anchor bags to provide stability.
- **Mattress not lying flat:** Ensure the mattress is correctly positioned within the bassinet or playard base and that no fabric is bunched underneath.
