

Mattel DTN42

Mattel Hot Wheels Criss Cross Crash Playset DTN42 Replacement Orange Loop Track

Model: DTN42 | Brand: Mattel

INTRODUCTION

This manual provides instructions for the Mattel Hot Wheels Criss Cross Crash Die-Cast Vehicle Playset DTN42 Replacement Orange Loop Track. It covers essential information regarding the installation, operation, maintenance, and specifications of this genuine replacement part.

What's in the Box

- 1 Orange Loop Track

SAFETY INFORMATION

Please read and understand all safety information before using this product.

- Keep away from direct heat sources to prevent material damage or warping.
- This product is intended for use with the Hot Wheels Criss Cross Crash Playset DTN42. Use with other sets may result in improper function or damage.
- Recommended for ages 5-12 years. Adult supervision is recommended during play.

SETUP

Follow these steps to properly install the replacement orange loop track into your Hot Wheels Criss Cross Crash Playset DTN42.

1. **Unpack the Track:** Carefully remove the replacement orange loop track from its packaging.
2. **Identify Connection Points:** Locate the designated connection points on your Hot Wheels Criss Cross Crash Playset (Model DTN42) where the orange loop track is intended to attach. Refer to your playset's original instruction manual if needed.
3. **Align and Connect:** Align the connectors on both ends of the new orange loop track with the corresponding slots on the playset. Ensure the track is oriented correctly.
4. **Secure the Track:** Gently push the track ends into the playset's connection points until you hear or feel a secure click.

Verify that the track is firmly attached and does not wobble.

5. **Final Check:** Before play, visually inspect all connections to ensure the track is fully assembled and stable.

OPERATING INSTRUCTIONS

Once the orange loop track is securely installed, you can begin playing with your Hot Wheels Criss Cross Crash Playset.

1. **Place Vehicles:** Position Hot Wheels die-cast vehicles onto the track's starting points.
2. **Launch Cars:** Activate the playset's launcher mechanism (if applicable) to propel the cars onto the track.
3. **Observe Action:** Watch as the cars race through the orange loop and navigate the crash zone.
4. **Compatibility:** Ensure that only Hot Wheels die-cast vehicles compatible with the Criss Cross Crash Playset are used for optimal performance and to prevent damage.

MAINTENANCE

Proper care and maintenance will extend the life of your replacement track part.

- **Cleaning:** Wipe the track surface with a dry, soft cloth to remove dust and debris. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the plastic.
- **Storage:** Store the track in a cool, dry place, away from direct sunlight and extreme temperatures. Avoid placing heavy objects on the track to prevent warping or bending.
- **Inspection:** Periodically inspect the track for any signs of damage, cracks, or excessive wear. If significant damage is observed, replace the part to ensure safe and proper operation.

TROUBLESHOOTING

If you encounter issues with your replacement orange loop track, refer to the following common solutions.

• **Track not connecting securely:**

Ensure that the connectors on the track and playset are clean and free of debris. Realign the track and apply gentle, even pressure until it clicks into place.

• **Cars not completing the loop:**

Check for any obstructions on the track. Ensure the playset's launcher mechanism is functioning correctly and providing sufficient force. Verify that the die-cast cars used are compatible with the playset and are not too heavy or too light.

• **Track appears warped or bent:**

Ensure the track is stored flat and away from extreme temperatures or direct sunlight. If warping persists and affects performance, the track may need to be replaced.

SPECIFICATIONS

Product Dimensions	4 x 1 x 4 inches
