Atomi Smart AT2005

Atomi Smart WiFi 52" Indoor Ceiling Fan User Manual

Model: AT2005

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Atomi Smart WiFi 52" Indoor Ceiling Fan. Please read this manual thoroughly before installation and use, and retain it for future reference.

The Atomi Smart WiFi Ceiling Fan features a 6-speed reversible DC motor, 1950 lumens of dimmable RGB-CCT LED lighting, and smart control via the Atomi Smart app, Amazon Alexa, or Google Assistant.

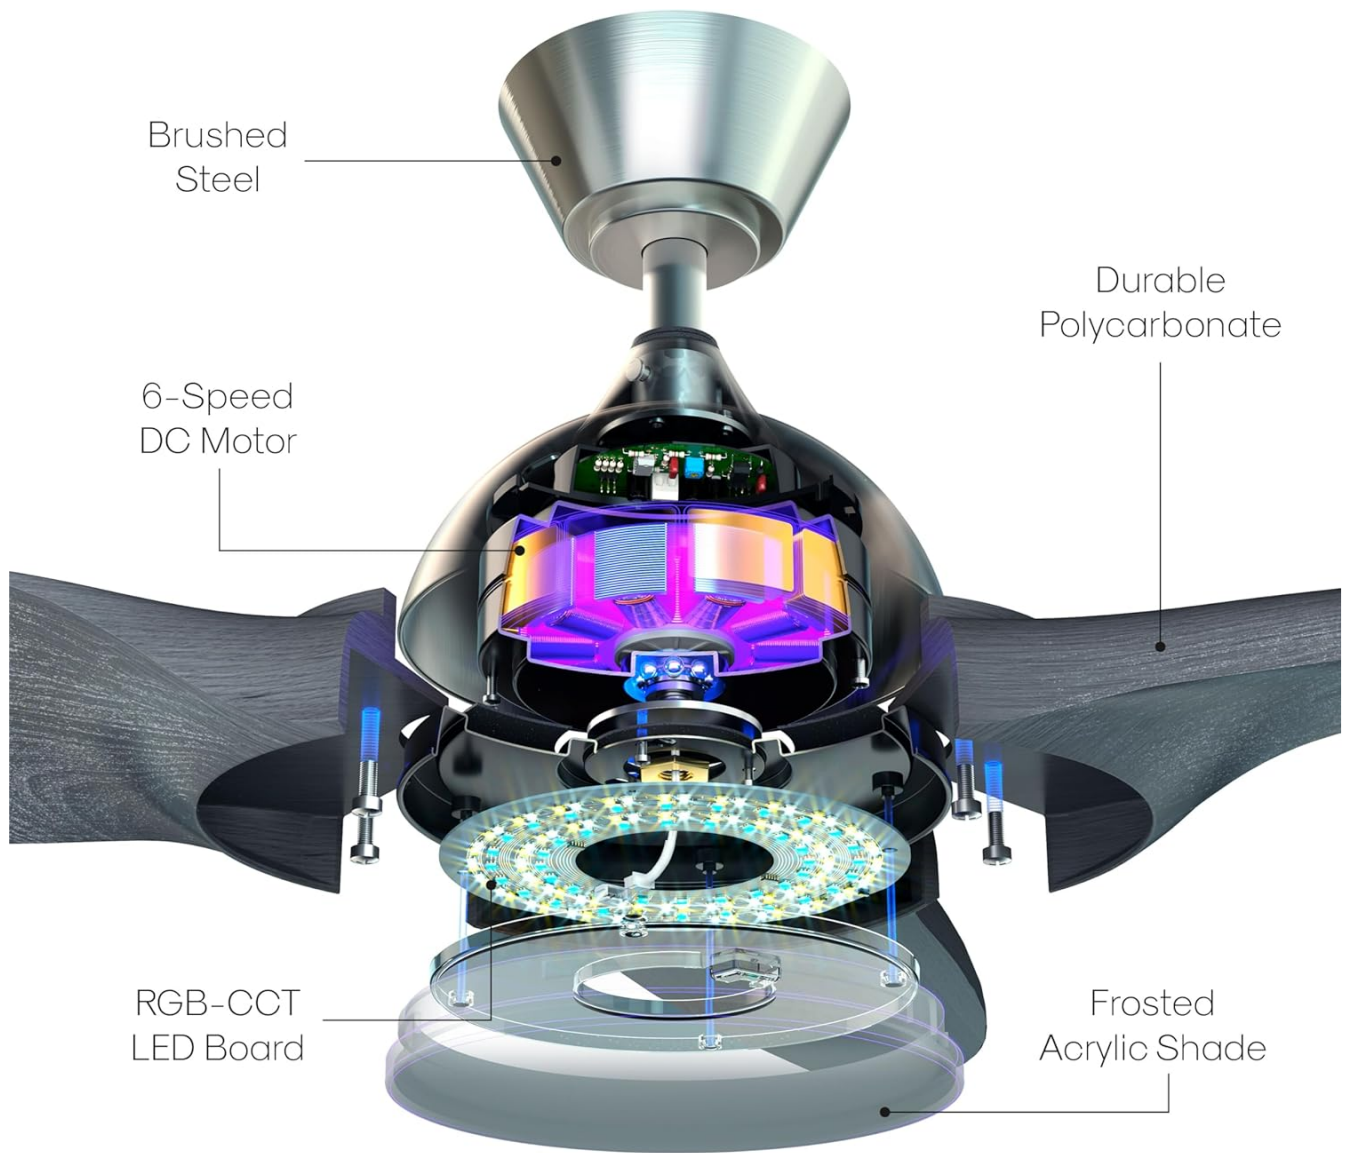

SAFETY INFORMATION

- Always disconnect power at the circuit breaker before installation or servicing.
- Ensure all electrical connections comply with local codes and ordinances.
- Consult a qualified electrician if you are unsure about installation.
- Do not operate the fan with damaged blades or housing.
- Keep hands, hair, and clothing away from moving fan blades.
- This fan is designed for indoor use only.

For detailed safety warnings, refer to the full installation guide included with your product.

PACKAGE CONTENTS

- Atomi Smart WiFi 52" Indoor Ceiling Fan (Motor, Blades, Light Kit)
- Remote Control
- Mounting Hardware (including flush mount and standard mount options)
- User Manual (this document)

SETUP AND INSTALLATION

Pre-Installation

- Unpack all components and ensure nothing is missing or damaged.
- Turn off power at the circuit breaker before beginning installation.
- Ensure the mounting location can support the fan's weight (16.5 pounds).

Mounting the Fan

- Install the mounting bracket to the ceiling junction box.
- Assemble the fan blades to the motor housing.
- Connect the electrical wiring according to the provided wiring diagram (refer to the separate installation guide for detailed diagrams).
- Secure the fan assembly to the mounting bracket.
- Install the light kit and frosted acrylic shade.

The fan supports both flush mount and standard mount installations.

This video demonstrates the key features and aspects of the Atomi Smart 52" Indoor Ceiling Fan, including its smart control capabilities, lighting options, and quiet operation.

Control the smart ceiling fan from your smartphone

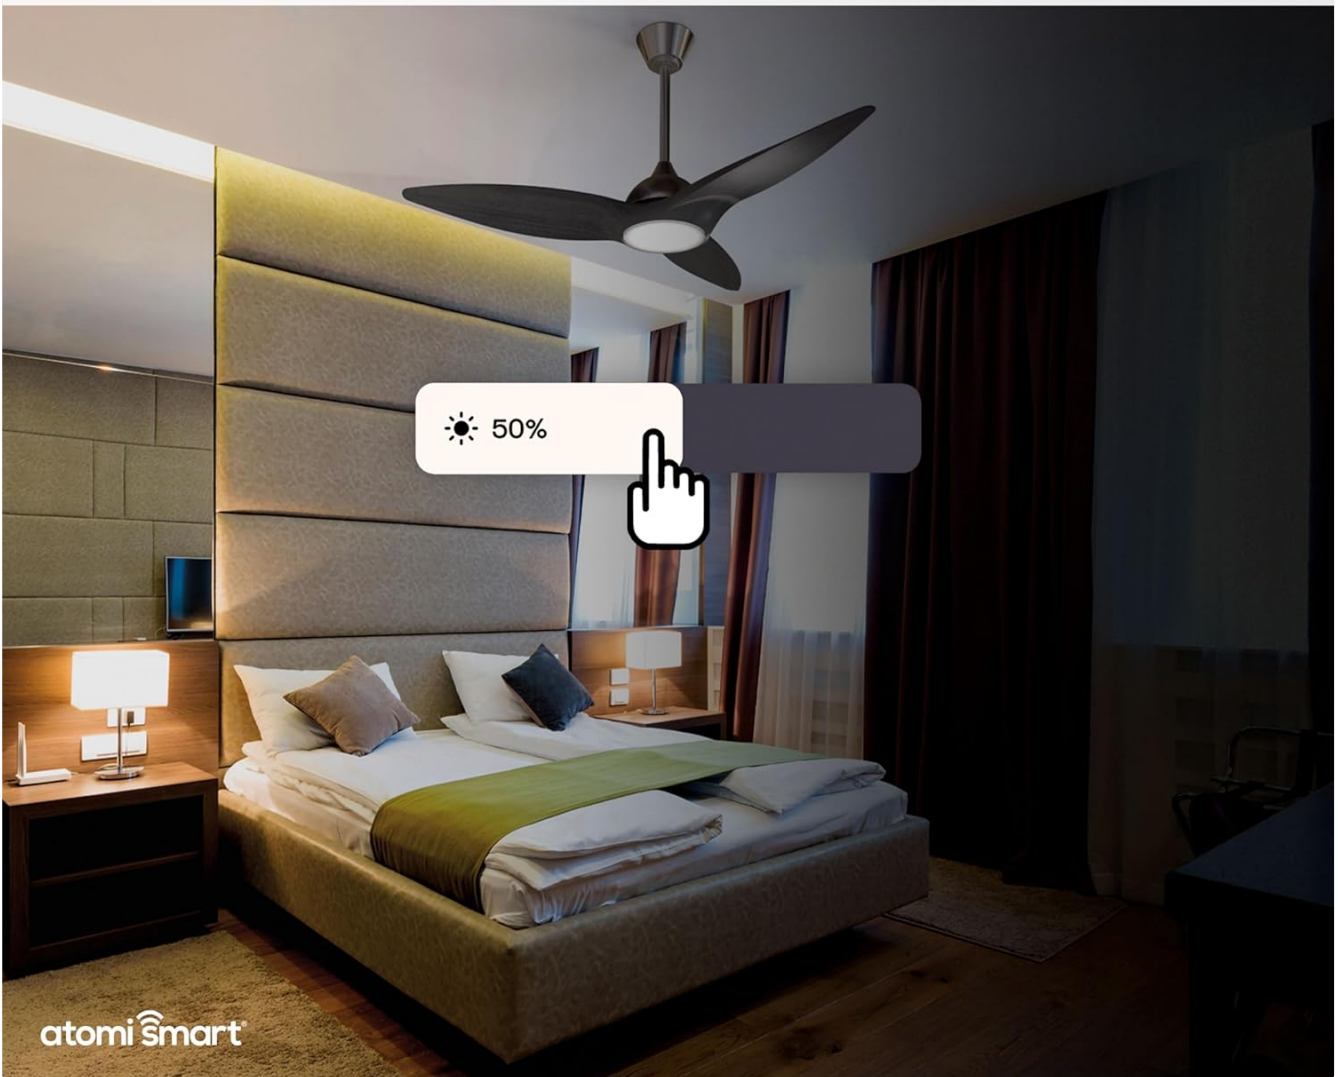

This image illustrates the Atomi Smart Ceiling Fan installed in a living room, emphasizing its integration with the Atomi Smart app for convenient control.

Connecting to Atomi Smart App

- Download the Atomi Smart app from the App Store or Google Play.
- Create an account or log in.
- Follow the in-app instructions to add your Atomi Smart WiFi Ceiling Fan. Ensure your phone is connected to a 2.4GHz Wi-Fi network during setup.

Fully Dimmable

Lower or increase the brightness of your light anytime with the highly-rated Atomi Smart app right from your phone.

This image shows the Atomi Smart app interface, detailing the various controls available for the fan, such as light adjustment and fan speed settings.

OPERATING THE FAN

Using the Atomi Smart App

- **Fan Control:** Turn the fan on/off, adjust fan speed (6 speeds), and change fan direction (forward/reverse for seasonal use).
- **Light Control:** Turn the light on/off, adjust brightness (fully dimmable), change white light temperature (tunable white), and select from 16 million RGB colors.
- **Scheduling:** Set schedules for the fan and light to turn on/off automatically.
- **Timers:** Activate countdown timers for automatic shut-off.
- **Grouping:** Group multiple Atomi Smart devices for synchronized control.

Whisper-Quiet Reversible DC Motor

6-speed DC motor delivers ultra-powerful airflow for high-speed cooling with quiet performance all year round.

Color-Changing Hue

Play with 16 million colors to create the effect you want.
Save your favorite light settings and recall them over again.

This image highlights the fan's dimmable light feature, controlled through the Atomi Smart app.

Voice Control (Alexa/Google Assistant)

- Enable the Atomi Smart skill/action in your Amazon Alexa or Google Home app.
- Link your Atomi Smart account.
- Use voice commands such as:
 - "Alexa, turn on the ceiling fan."
 - "Hey Google, set ceiling fan speed to 3."
 - "Alexa, change ceiling fan light to blue."

52"

Indoor Ceiling Fan

Made for indoor areas up to 400ft² such as living rooms, bedrooms, offices, and more

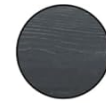

LED

RGB-CCT LED Lights

Uses 18 watts of power to produce 1950 lumens of dimmable lighting (without light shade)

Tunable White + Color-Changing Hue
Select warm to cool white light or play with 16 million colors to create the effect you want

Slate Grey Polycarbonate Fan Blades
Premium polycarbonate is durable and strong with a stylish wood-inspired pattern

Using the Remote Control

- The included remote control allows for direct control of fan speed, light on/off, light brightness, and fan direction without the app.
- Install batteries (not included) into the remote.
- Pair the remote with the fan if necessary (refer to the remote's specific pairing instructions).

Remote control included for added convenience

atomi Smart

This image displays the included remote control, providing an alternative method for operating the fan's functions.

MAINTENANCE

- **Cleaning:** Use a soft, damp cloth to clean the fan blades and motor housing. Do not use abrasive cleaners or solvents.
- **Light Kit:** The LED light source is designed for long life and does not require replacement under normal use.
- **Blade Screws:** Periodically check that all blade screws are tight.

Always turn off power to the fan at the circuit breaker before cleaning or performing any maintenance.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Fan does not turn on.	No power to the fan.	Check circuit breaker and wall switch. Ensure all wiring connections are secure.
Fan wobbles.	Loose blade screws or unbalanced blades.	Tighten all blade screws. Use the included balancing kit if necessary.
Light does not work.	Loose wiring or light kit issue.	Check light kit wiring connections. Ensure power is on.
Cannot connect to Wi-Fi/App.	Incorrect Wi-Fi band, weak signal, or incorrect pairing steps.	Ensure your router is 2.4GHz. Move closer to the router. Reset the fan and try pairing again.
Remote control not working.	Dead batteries or remote not paired.	Replace batteries. Refer to remote pairing instructions.

SPECIFICATIONS

Feature	Detail
Model Name	AT2005
Product Dimensions	52"D x 52"W x 12"H
Item Weight	16.5 pounds
Power Source	Wired Electric
Voltage	120 Volts
Number of Blades	3
Blade Material	Plastic (Polycarbonate)
Air Flow Capacity	4017 Cubic Feet Per Minute (CFM)
Light Type	LED (RGB-CCT, 1950 Lumens)
Control Method	App, Remote, Voice (Alexa, Google Assistant)
Room Type Recommendation	Up to 400ft ² (Living Room, Bedroom, Office, Dining Room, Kitchen)
