SETUP AND ASSEMBLY

The skewer stand is designed for quick assembly and disassembly for convenient storage. To set up:

1. Unpack all components: the circular base and the individual skewer posts.
2. Insert each skewer post into the designated holes on the circular base. Ensure they are firmly seated.
3. Place the assembled skewer stand inside the inner pot of your compatible Ninja Foodi pressure cooker.
4. If using the silicone mat, place it at the bottom of the inner pot before inserting the skewer stand, or directly under the food if not using the stand.

EFFICIENT
Cook *easily and evenly.*

OPERATING INSTRUCTIONS

The INFRAOVENS accessories are designed for versatile cooking. Follow these guidelines for optimal use:

Using the Skewer Stand:

1. Prepare your desired food items (e.g., chicken pieces, meat cubes, vegetables) and thread them onto the provided skewers.
2. Place the loaded skewers into the vertical slots of the skewer stand. The stand can accommodate up to 18 skewers.
3. Carefully lower the skewer stand, using the central handle, into the inner pot of your Ninja Foodi.
4. Close the lid of your Ninja Foodi and select the appropriate cooking function (e.g., Air Fry, Pressure Cook) and settings according to your recipe.
5. Once cooking is complete, use the central handle to safely lift the hot skewer stand out of the pot.

EASY TO USE

Use the middle handle to **easily** grab the rack

Image: A hand carefully placing cooked chicken wings onto the individual skewers of the INFRAOVENS rack, demonstrating its ease of use.

Using the Silicone Mat:

- Place the silicone mat at the bottom of your Ninja Foodi's inner pot.
- Arrange food items directly on the mat. The raised cylinders will elevate the food, allowing excess fat, grease, and oils to drain away, promoting healthier cooking.
- The raised walls of the mat help contain any drippings, keeping your pressure cooker's inner pot cleaner.

MAINTENANCE AND CARE

Proper care will ensure the longevity of your INFRAOVENS accessories:

- **Cleaning:** Both the stainless steel skewer stand and the silicone mat are dishwasher safe. For best results, rinse off any large food particles before placing them in the dishwasher. They can also be easily hand-washed with warm, soapy water.
- **Material Quality:** The skewer stand is made from premium 304 stainless steel, designed to resist rust, peeling, and flaking, ensuring food safety and durability.
- **Storage:** The skewer stand can be quickly disassembled into its base and individual posts for compact, flat storage, saving space in your kitchen.

EASY TO CLEAN ***Dishwasher Safe & Hand Washable***

TROUBLESHOOTING

Skewer Stand Stability:

If the skewer posts appear slightly wobbly when inserted into the base, this is normal and part of the design for easy assembly and disassembly. Once food is placed on the skewers and the stand is inside the pressure cooker, its stability will be sufficient for cooking.

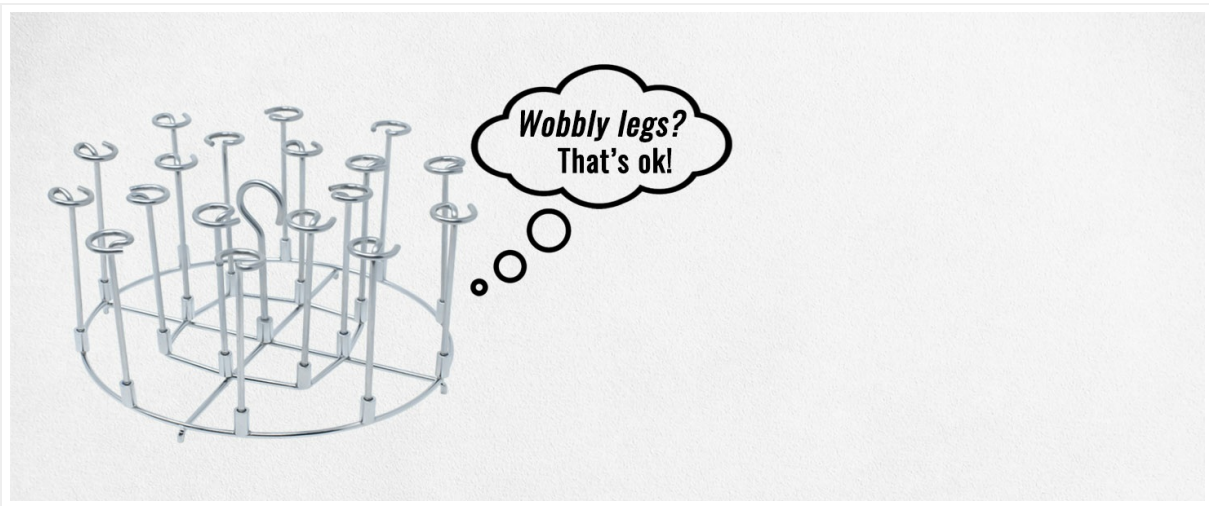

Image: A visual reassuring users that slight wobbliness of the skewer stand legs is acceptable and does not affect performance.
