## SETUP

### Initial Charging of the Power Bank

1. Upon first use, it is recommended to fully charge the Baseus Qpow2 Power Bank.
2. Connect the included USB-C cable to the power bank's USB-C port (labeled for input/output) and connect the other end to a compatible USB wall charger (not included).
3. The digital display will show the charging progress. The power bank is fully charged when the display shows 100%.
4. A full charge typically takes approximately 3 hours with a suitable charger.

# OPERATING INSTRUCTIONS

---

## Charging Your Devices

The Baseus Qpow2 Power Bank offers multiple ways to charge your devices:

- **Using Built-in Cables:**

- Gently pull out the integrated Type-C cable or Lightning cable from its storage slot.
- Connect the appropriate cable directly to your device's charging port.
- The power bank will automatically begin charging your device. The digital display will show the power bank's remaining battery level.

- **Using USB-C Port:**

- Connect your device's USB-C charging cable (not included) to the power bank's USB-C port (labeled for input/output).
- Connect the other end of the cable to your device.
- Charging will commence automatically.

- **Using USB-A Port:**

- Connect your device's USB-A charging cable (not included) to the power bank's USB-A output port.
- Connect the other end of the cable to your device.
- Charging will commence automatically.

The power bank supports 22.5W fast charging for compatible devices. The intelligent power management system will optimize the charging speed based on your device's requirements.

## Checking Battery Level

The digital LED display on the power bank shows the remaining battery percentage. This allows you to monitor the power bank's charge status accurately.

## MAINTENANCE

---

- **Cleaning:** Use a soft, dry cloth to clean the surface of the power bank. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the power bank frequently. Recharge it when the battery level is low. Do not expose the power bank to water or moisture.
- **Handling:** Do not drop, disassemble, or attempt to repair the power bank yourself. This may void the warranty and cause damage.

## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Power bank not charging devices.	Low battery on power bank, incorrect cable connection, device incompatibility.	Ensure power bank is charged. Check cable connections. Try a different cable or port. Verify device compatibility.

Problem	Possible Cause	Solution
Power bank not recharging.	Faulty charging cable, incompatible wall adapter, power bank malfunction.	Use the included USB-C cable and a compatible wall adapter. Try a different wall adapter. If issue persists, contact support.
Slow charging.	Device not supporting fast charging, cable limitation, multiple devices charging simultaneously.	Ensure your device supports 22.5W fast charging. Use high-quality cables. Charging multiple devices may reduce individual charging speeds.
Digital display not working.	Power bank is off, internal fault.	Ensure the power bank is active (e.g., by connecting a device). If it remains unresponsive, contact support.

## SPECIFICATIONS

Brand	Baseus
