Smartoo 4L No Spill Stainless Steel Dog Water Bowl Instruction Manual

INTRODUCTION

Thank you for choosing the Smartoo 4L No Spill Stainless Steel Dog Water Bowl. This innovative product is designed to provide a clean, slow-drinking water solution for your pets, minimizing spills and keeping your floors dry. Its large capacity and durable stainless steel construction make it ideal for multi-pet households and active dogs. Please read this manual carefully to ensure proper setup, operation, and maintenance of your new pet water bowl.

PRODUCT COMPONENTS

- Stainless Steel Bowl (4L / 136oz capacity)
- Floating Disc (with integrated filter housing)
- Activated Carbon Filter Pad

Figure 1: The Smartoo dog water bowl components, highlighting the replaceable filter pads made of PVC shell material, medical stone, and activated carbon for water purification.

SETUP INSTRUCTIONS

Follow these steps to set up your Smartoo dog water bowl:

1. **Unpack Components:** Carefully remove all parts from the packaging.
2. **Insert Filter:** Place the activated carbon filter pad into the designated slot within the floating disc. Ensure it is securely seated.
3. **Place Floating Disc:** Insert the floating disc into the stainless steel bowl. The disc should rest on the internal ledges, allowing it to float freely when water is added.
4. **Fill with Water:** Pour fresh water into the bowl. The floating disc will rise with the water level, exposing a small surface area for drinking.
5. **Introduce Pet:** Guide your pet to the bowl. They will learn to drink from the central opening of the floating disc.

Figure 2: Visual guide demonstrating the simple installation process of the Smartoo dog water bowl, from assembling the floating cover to filling with water and guiding the pet to drink.

OPERATING INSTRUCTIONS

The Smartoo No Spill Dog Water Bowl is designed for optimal pet hydration and mess prevention:

- **Slow Drinking:** The floating disc allows only a small amount of water to be accessible at a time, encouraging pets to drink slower and reducing gulping, which can prevent choking and wet muzzles.
- **No Spill Design:** The widened rim and floating plate design effectively prevent water from splashing out, keeping your floors dry and clean. This is particularly beneficial for messy drinkers or during travel.
- **Clean Water:** The activated carbon filter pad helps remove impurities, chlorine, and odors from the water, providing fresher and cleaner water for your pet.

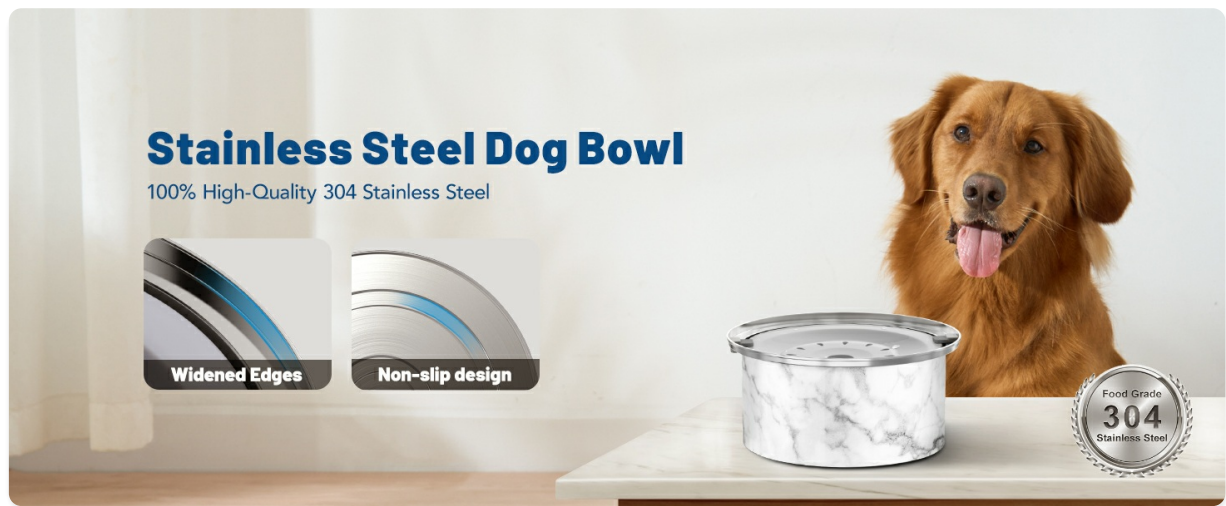

Figure 3: A golden retriever demonstrates the slow drinking and no spill design of the Smartoo water bowl, which helps keep floors and fur dry.

Figure 4: A visual comparison illustrating how the Smartoo bowl's sunken puddle design provides easy water access, unlike other bowls that may require pets to press for water, potentially damaging their tongue over time.

MAINTENANCE AND CLEANING

Regular cleaning is essential to maintain hygiene and prolong the life of your pet's water bowl:

- **Daily Water Change:** Always provide fresh water daily.
- **Floating Disc Cleaning:** The floating plate can be easily detached for cleaning. It is recommended to clean the floating plate at least twice a week to prevent debris and slime buildup.
- **Stainless Steel Bowl Cleaning:** The 304 food-grade stainless steel bowl is dishwasher safe for convenience. For hand washing, use mild soap and water, then rinse thoroughly.
- **Filter Replacement:** Replace the activated carbon filter pad twice a month to ensure optimal water purification.

Figure 5: The Smarttoo dog water bowl's components, excluding the pump and filter, are dishwasher safe and BPA-free, making cleaning simple and safe.

Figure 6: The detachable floating disc design allows for easy disassembly and cleaning, recommended at least once a week to maintain hygiene.

TROUBLESHOOTING

- **Water in Floating Disc:** If water accumulates inside the floating disc, it may indicate a seal issue or improper assembly. Disassemble, ensure the filter is correctly placed, and reassemble. If the issue persists, inspect the disc for damage.
- **Reduced Water Flow:** If your pet is struggling to access water, check if the floating disc is properly seated and not obstructed. Ensure the water level is adequate. A clogged filter can also reduce flow; replace the filter if necessary.
- **Pet Not Drinking:** Some pets may need time to adjust to the new bowl. Encourage them by gently pressing the floating disc to expose more water initially. Ensure the water is fresh and the bowl is clean.

SPECIFICATIONS

Brand	smartoo
Model Name	dog water bowl no spill
Capacity	4 Liters (136 oz)

Material	304 Food Grade Stainless Steel
Dimensions (LxWxH)	9.8" x 9.8" x 4.7"
Item Weight	1.57 pounds
Care Instructions	Hand Wash Only (for floating disc and filter), Dishwasher Safe (for stainless steel bowl)
