## 3. SAFETY INFORMATION

Please read all safety instructions carefully before installation and use. Failure to follow these instructions may result in electric shock, fire, or other hazards.

- Ensure power is turned OFF at the circuit breaker before installation or maintenance.
- Do not attempt to disassemble or modify the unit.
- This product is designed for indoor use unless specified otherwise.
- Keep out of reach of children.
- Do not insert fingers or any objects into the fan blades while operating.
- Ensure the light socket is rated for the fan's wattage (16 Watts).

This product meets CE, UKCA, FCC, and RoHS specifications.

## 4. SETUP & INSTALLATION

The REYLAX Socket Fan Light is designed for quick and easy installation without the need for complex wiring or specialized tools. It screws directly into any standard E26 or E27 light socket.

1. **Unpack Components:** Carefully remove all items from the packaging.
2. **Attach Fan Blades:** Align each fan blade with the corresponding slot on the fan unit and push firmly until you hear a click, ensuring it is securely fastened. There are 5 blades to attach.
3. **Determine Socket Extender Need:** If your light socket is recessed or you desire the fan to hang lower, screw the provided socket extender into your existing light socket first.
4. **Install Fan Light:** Screw the REYLAX Socket Fan Light (or the socket extender with the fan light attached) into your E26/E27 light socket clockwise until it is snug. Do not overtighten.
5. **Pair Remote Control:** After installation, ensure the light switch is on. Follow the remote control pairing instructions in the remote's mini-manual to sync it with your fan light.
6. **Mount Remote Holder (Optional):** Use the provided hardware to mount the remote holder to a convenient wall location.

## 8. TROUBLESHOOTING

If you encounter any issues with your REYLAX Socket Fan Light, please refer to the following common troubleshooting steps:

- **Fan or Light Not Responding to Remote:**
  - Ensure the light switch is turned ON.
  - Check the remote control battery (1 x 12V battery included). Replace if necessary.
  - Re-pair the remote control with the fan light according to the remote's instructions.
- **Light Not Dimming or Changing Color Temperature:**
  - Ensure the remote control is properly paired.
  - Confirm the light switch is not a traditional dimmer switch, as this may interfere with the fan light's built-in dimming function.
- **Fan Not Providing Sufficient Airflow:**
  - Ensure the fan is set to a higher speed setting (up to 6 speeds available).
  - Verify that the fan blades are securely attached and free from obstructions.

If problems persist after following these steps, please contact REYLAX customer support for assistance.
