Dreo DR-HCF003S White

Dreo Ceiling Fans with Lights User Manual

Model: DR-HCF003S White

1. SETUP AND INSTALLATION

The Dreo Ceiling Fan is designed for easy installation with pre-assembled parts, significantly reducing the time and effort required. Follow the detailed instructions provided in this manual and the accompanying videos for a smooth setup process.

1.1 Before You Begin

Ensure all components are present and undamaged before starting installation. It is recommended to disconnect power at the circuit breaker before beginning any electrical work.

1.2 Mounting the Ceiling Bracket

The ceiling bracket must be securely installed to a building structure or a ceiling fan-rated outlet box capable of supporting 15.9 kg (35 lbs) or less. Failure to do so may result in the fan falling.

Recommended for Medium Rooms

1.3 Wiring and Final Assembly

Connect the fan's wires to your household wiring according to local electrical codes. The ceiling fan must be grounded. If a ground wire is not present, consult a qualified electrician. Once wiring is complete, attach the fan body and light kit.

For a comprehensive guide, please refer to the official [User Manual \(PDF\)](#).

2. OPERATING YOUR CEILING FAN

The Dreo Ceiling Fan offers extensive control options and features to customize your comfort and lighting experience.

2.1 Fan Controls and Modes

Control your fan using the included remote, the Dreo app, or voice commands via Amazon Alexa and Google Home. The fan features 12 different speeds and 3 fan modes (Normal, Natural, Sleep) to suit your preferences.

3. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your Dreo Ceiling Fan.

3.1 Cleaning

To clean the fan, ensure the power is disconnected at the circuit breaker. Use a soft, damp cloth to wipe down the blades and motor housing. Avoid using harsh chemicals or abrasive cleaners, as they may damage the finish.

4. TROUBLESHOOTING

If you encounter issues with your Dreo Ceiling Fan, refer to the common troubleshooting tips below.

4.1 Fan Not Operating / Light Not Working

- **Check Power Supply:** Ensure the circuit breaker is on and the fan is receiving power.
- **Remote Control Battery:** Verify the remote control has fresh batteries and is functioning correctly.
- **App Connection:** Confirm the Dreo app is properly connected to the fan and that Wi-Fi is active. Some users have reported issues with initial setup or speed changes that were resolved by ensuring proper app connection and firmware updates.

Video: A user demonstrating a common issue where the fan and light do not work out of the box, highlighting the importance of checking power and connections.

4.2 Unusual Noises or Wobbling

- **Blade Tightness:** Ensure all blade screws are securely tightened. Loose blades can cause wobbling or noise.
- **Mounting Security:** Recheck that the ceiling bracket is firmly attached to the ceiling structure.

5. SPECIFICATIONS

Feature	Detail
Brand	Dreo
Model Name	DR-HCF003S White
Color	White

Product Dimensions	44"D x 44"W x 9.67"H
Power Source	Electric DC Motor
Wattage	36 watts
Voltage	120 Volts
Number of Blades	4
Air Flow Capacity	3171 Cubic Feet Per Minute
Noise Level	40 dB
Light Type	LED (up to 2400 lumens, 2700K-6500K)
Control Method	App, Remote, Voice
Special Features	Remote Controlled, Timer, Dimmable LED Light, App Operable

6. WARRANTY AND SUPPORT

Dreo products come with a standard manufacturer's warranty. For specific warranty details, product registration, or technical support, please visit the official Dreo website or contact their customer service.
