## 3. SETUP AND INITIAL USE

### 3.1. For iOS Devices (iPhone/iPad)

1. **Download the LESOGE App:** Search for "LESOGE" in the Apple App Store and download the official application. This app is required for the flash drive to function with iOS devices.
2. **Connect the Flash Drive:** Insert the Lightning connector of the flash drive into your iPhone or iPad.
3. **Grant Permissions:** When prompted, allow the LESOGE app to communicate with the flash drive.

## 9. MAINTENANCE AND CARE

---

- Keep the flash drive dry and away from extreme temperatures.
- Use the protective cap for the Lightning connector when not in use to prevent damage.
- Avoid dropping or subjecting the drive to strong impacts.
- Regularly back up important data to another storage medium.

## 10. TROUBLESHOOTING

---

- **Device Not Recognized:** Ensure the flash drive is fully inserted. For iOS, check if the LESOGE app is installed and permissions are granted. For Android, verify OTG is enabled. For computers, try a different USB port.
- **Slow Transfer Speeds:** Ensure you are using a USB 3.0 port for optimal performance. Large file transfers may naturally take longer.
- **App Issues (iOS):** Ensure the LESOGE app is updated to the latest version. Restart the app or your device if problems persist.
- **File Corruption:** Always safely eject the flash drive from your computer before removing it. Avoid disconnecting during data transfer.

## 11. WARRANTY AND SUPPORT
