SWGOTA Smart Watch for Women

SWGOTA Smart Watch for Women User Manual

Model: Smart Watch for Women

Brand: SWGOTA

INTRODUCTION

This manual provides detailed instructions for setting up, operating, and maintaining your SWGOTA Smart Watch for Women. Please read this manual thoroughly to ensure proper use and to fully utilize all features of your device.

The SWGOTA Smart Watch for Women, featuring a sleek purple band and a vibrant round display.

Official product video showcasing the features and design of the SWGOTA Smart Watch for Women.

WHAT'S IN THE BOX

Upon opening your SWGOTA Smart Watch package, you should find the following items:

- SWGOTA Smart Watch (with pre-attached watch band)
- Charging Cable
- User Manual

Please inspect all components for any damage. If any items are missing or damaged, contact customer support immediately.

SETUP

1. Charging the Device

Before first use, fully charge your smartwatch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a compatible power adapter (not included) or a computer USB port. A full charge typically takes approximately 2 hours.

2. App Installation

To unlock the full potential of your smartwatch, download the companion app. The app is named "FitCloudPro" and is available on both the Google Play Store for Android devices and the Apple App Store for iOS devices.

1. Turn on the Bluetooth function on your smartphone.
2. Open the "FitCloudPro" app or your phone's "App Store".
3. Search for "FitCloudPro" and download it.

3. Bluetooth Pairing

Follow these steps to pair your smartwatch with your smartphone via Bluetooth:

1. Open the FitCloudPro app and click "Find" to bind your device.
2. On your smartwatch, open the drop-down menu and light up the "Call" function icon.
3. On your phone, go to "Settings" and enter the "Bluetooth" interface.
4. Find "S81" (or similar device name) and click to connect it.
5. Once connected, you can use the watch to answer/make calls anytime.

• **14 Days**
Daily Usage

View your sports data at a glance, helping you manage your exercise and training scientifically.

5. Smart Features

Beyond health and fitness, your smartwatch offers several convenient smart features:

- **AI Voice Assistant:** Carry out functions like opening a sports mode or playing music via voice command, hands-free.
- **Music Control:** Control music playback on your connected smartphone.
- **Camera Control:** Remotely control your phone's camera for easy photo taking.
- **Find Phone Function:** Helps you locate your misplaced smartphone.
- **Calculator:** A convenient calculator for quick computations.
- **Calendar:** Keep track of your schedule and important dates.
- **Flashlight:** A simple flashlight function for low-light situations.
- **Timer & Alarm:** Set timers and alarms for various needs.

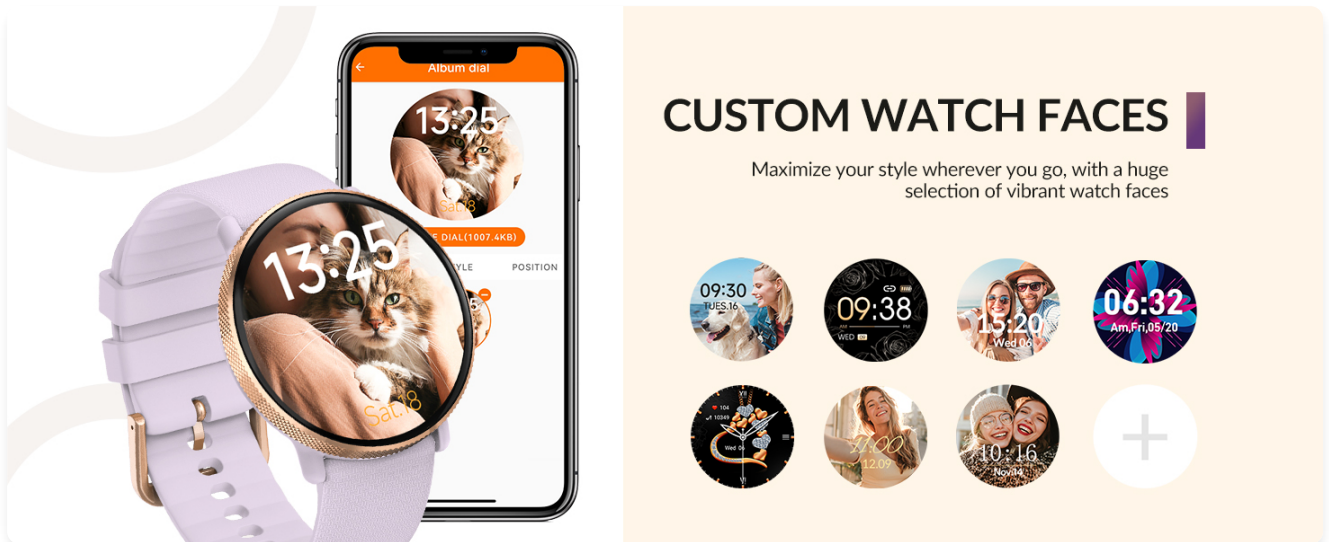

Utilize the offline voice assistant to control various functions hands-free.

MAINTENANCE

1. Waterproofing

The SWGOTA Smart Watch has an IP68 waterproof rating, meaning it is protected against dust and can withstand immersion in water up to 1.5 meters for up to 30 minutes. This makes it suitable for daily use, including hand washing, rain, and light splashes. However, it is not recommended for hot showers, saunas, or diving, as steam and hot water can damage the seals.

The IP68 waterproof rating ensures the smartwatch is protected against water splashes and sudden rain.

2. Cleaning

To keep your smartwatch in optimal condition:

- Wipe the screen and band regularly with a soft, damp cloth.
- Avoid using harsh chemicals or abrasive materials.
- Ensure the charging contacts are clean and dry before charging.

3. Battery Life & Charging

The smartwatch is equipped with a 300 mAh battery, offering impressive endurance:

- **Daily Usage:** Up to 14 days.
- **Heavy Usage:** Up to 7 days.
- **Always-On Usage:** Up to 2 days.
- **Standby Time:** Up to 50 days.
- **Charging Time:** Approximately 2 hours for a full charge.

A woman in a light-colored athletic outfit is performing a yoga pose (Eka Pada Pigeon) against a blue sky with white clouds. She has a smartwatch on her left wrist. To her left, there are four circular icons: a water drop with 'O2', a crescent moon with a 'Z', a heart with a pulse line, and a female silhouette. To her right, the text 'MEASURE YOUR BLOOD OXYGEN' is displayed in large, bold letters. Below the text is a line graph showing oxygen saturation levels over time. The graph has a y-axis from 90 to 100 and an x-axis from 6:30am to 10:00am. The data points are color-coded: red for <70%, yellow for 70-79%, green for 80-89%, and blue for 90-100%. The graph shows a fluctuating line that stays mostly in the green and blue zones.

Stage	Action	Oxygen Saturation
6:30am		~95%
7:00am		~98%
7:30am		~96%
8:00am		~99%
8:30am		~97%
9:00am		~98%
9:30am		~96%
10:00am		~99%

The remarkable sensor and app in women's watches allow you to take on-demand readings of your blood oxygen, day and night

The 300mAh battery provides extended usage, from 2 days with always-on display to 50 days in standby mode.

TROUBLESHOOTING

If you encounter any issues with your SWGOTA Smart Watch, please refer to the following common solutions:

- **Device not turning on/charging:** Ensure the charging cable is securely connected to both the watch and the power source. Try a different USB port or power adapter. If the battery is completely drained, it might take a few minutes for the charging indicator to appear.
- **Bluetooth connection issues:** Make sure Bluetooth is enabled on both your phone and watch. Ensure the watch is within the Bluetooth range of your phone. Try unpairing and re-pairing the device in the FitCloudPro app and your phone's Bluetooth settings.
- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensors on the back of the watch regularly. Note that the data is for reference only and not for medical diagnosis.
- **Notifications not appearing:** Check app notification settings in the FitCloudPro app and your phone's system settings to ensure they are enabled for the watch. Ensure the app is running in the background.
- **Screen unresponsive:** Try restarting the watch. If the issue persists, ensure the screen is clean and dry.

If the problem persists after trying these steps, please contact SWGOTA customer support for further assistance.
