2. PRODUCT OVERVIEW AND FEATURES

The FuzeBug Buzz Blast Pro Bug Zapper is a multi-functional device designed for insect control and illumination. It features a UV light to attract and eliminate mosquitoes and other flying insects, combined with a versatile flashlight.

- **UV Light Protection:** Emits UV light to attract and trap mosquitoes and other insects.
- **Dual Charging:** Supports both solar charging and USB charging for convenient power access.
- **Easy Maintenance:** Designed for simple cleaning and upkeep.
- **Quiet Operation:** Operates silently to avoid disturbing sleep or activities.
- **Cord-Free Design:** Offers portability and ease of use in various locations.
- **Multi-Mode Flashlight:** Includes High, Low, and SOS modes for diverse lighting needs.
- **Compact and Lightweight:** Ideal for camping, picnics, and other outdoor activities.
- **Eco-Friendly:** Safe for use around children and pets, utilizing no chemicals or pesticides.
- **Waterproof:** Suitable for outdoor use.
- **Portable:** Equipped with a carry handle for easy transport and hanging.

3. SETUP AND CHARGING

Before initial use, ensure the device is fully charged.

1. **USB Charging:** Connect the provided USB charging cable to the device's USB port and a compatible 5V USB power source. The charging indicator light will be red during charging and turn green when fully charged.
2. **Solar Charging:** Place the device with its solar panel facing direct sunlight. The device will charge automatically.

A full charge typically takes 3-5 hours and provides up to 12 hours of power for the mosquito killer function.

Structural Diagram:

Input	USB 5V 1A
Power Lighting	3W
Power Mosquito Killing	1.2W
Grid Voltage	600V
Battery Capacity	2200MAH

EPA-Safe

This device uses no chemicals or pesticides.

4. OPERATION

The FuzeBug Buzz Blast Pro Bug Zapper offers both insect killing and lighting functions.

1. **Mosquito Killer Function:** Press the dedicated mosquito killer switch (often marked with a lightning bolt or insect icon) to activate or deactivate the UV bug zapper. The UV light will illuminate.
2. **Flashlight/Camping Lamp Function:** Press the "Lantern Switch" (often marked with a light bulb icon) to cycle through the available lighting modes:
 - **Camping Mode:** Provides a continuous glow for ambient lighting.
 - **High Mode:** Bright flashlight setting.
 - **Low Mode:** Dimmer flashlight setting.
 - **SOS Mode:** Flashing light for emergency signaling.
3. **Placement:** Use the built-in handle to carry the device or hang it in desired locations. It is suitable for patios, campsites, RVs, bedrooms, and travel.

5. MAINTENANCE

Regular cleaning ensures optimal performance of your bug zapper.

- **Cleaning the Grid:** Periodically clean the high-voltage grid to remove accumulated insect debris. Ensure the device is turned off and unplugged before cleaning. Use a small brush (not included) to gently clear the grid.
- **Exterior Cleaning:** Wipe the exterior of the device with a soft, damp cloth. Do not use harsh chemicals or abrasive materials.
- **Storage:** When not in use for extended periods, store the device in a cool, dry place.

6. TROUBLESHOOTING

If you encounter issues with your FuzeBug Buzz Blast Pro Bug Zapper, refer to the following common solutions:

Problem	Possible Cause	Solution
Device does not turn on.	Low battery or device is off.	Charge the device using the USB cable or solar panel. Ensure the power button is pressed.
Mosquito killer function is not working.	Mosquito killer switch is off or grid is obstructed.	Press the mosquito killer switch. Clean the high-voltage grid if debris is present.
Flashlight is not working or dim.	Low battery or incorrect light mode.	Charge the device. Press the lantern switch to cycle through light modes.
Reduced effectiveness in attracting bugs.	Grid is dirty or device is placed in a brightly lit area.	Clean the high-voltage grid. Place the zapper in a darker area for better attraction.

7. SPECIFICATIONS

- **Brand:** FREEZE2TRIM
- **Model Number:** Buzz Bug (W851)
- **Color:** Orange
- **Material:** Plastic
- **Product Dimensions (L x W x H):** 3.5" x 3.5" x 5.3"
- **Power Source:** Battery Powered (Rechargeable)
- **Battery Type:** Lithium Polymer (Li-Po)
- **Battery Capacity:** 2200mAh
- **Input:** USB 5V 1A
- **Power Lighting:** 3W
- **Power Mosquito Killing:** 1.2W
- **Grid Voltage:** 600V
- **Global Trade Identification Number (GTIN):** 00850058961132

8. SAFETY INFORMATION

Please read and follow these safety guidelines to prevent injury or damage to the device:

- This device is designed to be safe for use around children and pets, as it uses no chemicals or pesticides.
- Do not disassemble the device.
- Avoid short-circuiting the device.

- Do not dispose of the device in fire.
- Use only with a 5V USB charger.
- Do not charge the device unattended.
- Read all instructions before using the product.
- Do not expose the USB charging port to water.

9. WARRANTY AND SUPPORT

For any questions, concerns, or to request a new user manual, please contact customer support through the retailer or manufacturer's official channels. Keep your purchase receipt for any warranty claims.
