

Inalsa Inox 1000 Pro

INALSA Food Processor Inox 1000 Pro User Manual

Model: Inox 1000 Pro | Brand: Inalsa

1. INTRODUCTION

Thank you for choosing the INALSA Inox 1000 Pro Food Processor. This versatile appliance is designed to simplify your kitchen tasks, offering a range of functions including chopping, blending, mixing, juicing, grinding, kneading, shredding, slicing, and whisking. Equipped with a powerful 1000W copper motor, it is built for efficiency and durability. Please read this manual thoroughly before first use to ensure safe and optimal operation.

2. IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury, always follow these basic safety precautions:

- Read all instructions before operating the appliance.
- Do not immerse the motor unit, cord, or plug in water or other liquids.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use, before putting on or taking off parts, and before cleaning.
- Avoid contact with moving parts. Never feed food by hand. Always use the food pusher provided.
- Blades are sharp. Handle with care. Always hold blades by the plastic hub.
- Ensure the appliance is properly assembled and all safety locks are engaged before operation. The child-safe interlock system prevents operation if parts are not correctly secured.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.

- This appliance is equipped with overheat protection to safeguard the motor during heavy use. If the motor stops, unplug the unit and allow it to cool down before resuming operation.
- For household use only. Do not use outdoors.

The appliance features a child-safe interlock system for enhanced safety.

3. PRODUCT OVERVIEW AND COMPONENTS

The INALSA Inox 1000 Pro Food Processor comes with a variety of attachments to handle diverse kitchen tasks. Familiarize yourself with all components before use.

Overview of the INALSA Inox 1000 Pro Food Processor and its accessories.

Jar Capacities:

- Processing Bowl: 2.5 Liters
- Blender Jar: 1.5 Liters
- Dry Grinding Jar: 1.2 Liters

- Chutney Jar: 0.5 Liters

Visual representation of the various jar capacities.

4. ASSEMBLY AND SETUP

Before first use, wash all removable parts (jars, blades, lids) in warm soapy water, rinse thoroughly, and dry. The main motor unit should only be wiped with a damp cloth.

General Assembly Steps:

1. Place the motor base on a stable, flat, and dry surface.
2. Select the appropriate jar for your task.
3. Attach the desired blade or accessory to the jar's spindle. Ensure it is securely seated.
4. Place the assembled jar onto the motor base. Rotate the jar clockwise until it locks into place. The appliance will not operate if the jar is not correctly locked.
5. Secure the lid onto the jar. For the processing bowl, ensure the feed tube is aligned and the lid is twisted to

engage the safety lock.

6. Plug the appliance into a suitable power outlet.

The processing bowl and lid are designed for easy stack and snap assembly, ensuring secure locking.

5. OPERATING INSTRUCTIONS

The INALSA Inox 1000 Pro features a 3-speed control dial and a pulse function for precise processing.

General Operation:

1. Ensure the appliance is correctly assembled and locked.
2. Add ingredients to the appropriate jar. Do not overfill.
3. Select the desired speed (1, 2, or 3) using the rotary dial. For short bursts of power, turn the dial to the 'P' (Pulse) setting and release.
4. After use, turn the dial to '0' (Off) and unplug the appliance.

Specific Functions:

Chopping and Kneading

Use the chopping blade for ingredients like onions, tomatoes, nuts, and garlic. The kneading blade is ideal for preparing dough for bread or pizza.

The chopper blade is used for various vegetables, while the atta kneader blade prepares dough.

Juicing (Citrus)

Attach the citrus juicer accessory to extract juice from citrus fruits like oranges and lemons.

The citrus juicer attachment allows for fresh juice preparation.

Shredding, Slicing, and French Fries Cutting

Utilize the specialized cutter discs for uniform shredding, slicing vegetables like cucumbers and carrots, or preparing French fries.

A hand is shown pressing down on the top of the INALSA INOX1000 pro food processor. The clear plastic bowl is filled with chopped tomatoes. The base is black with a silver band and a control dial. The background is a blurred kitchen setting.

6. CARE AND MAINTENANCE

Proper cleaning and maintenance will extend the life of your food processor.

Cleaning:

- Always unplug the appliance before cleaning.
- Disassemble all removable parts.
- Wash all jars, blades, and accessories by hand in warm, soapy water. Rinse thoroughly and dry immediately.
- **Caution:** Blades are very sharp. Handle with extreme care.
- The processing bowl and jars are **not dishwasher safe**.
- Wipe the motor base with a damp cloth. Never immerse the motor base in water or any other liquid.
- For stubborn stains, use a mild, non-abrasive cleaner.

Storage:

Store the food processor and its accessories in a clean, dry place, out of reach of children.

7. TROUBLESHOOTING

If you encounter issues with your INALSA Inox 1000 Pro Food Processor, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Appliance does not start	Not plugged in; Jar/lid not properly locked; Overheat protection activated.	Ensure plug is securely in outlet; Check that jar and lid are correctly assembled and locked; Unplug and allow motor to cool for 30 minutes before restarting.
Motor sounds strained or stops during operation	Overloading with ingredients; Ingredients are too hard or dense; Overheat protection activated.	Reduce the quantity of ingredients; Cut hard ingredients into smaller pieces; Unplug and allow motor to cool.
Ingredients not processing evenly	Too many ingredients; Not enough liquid (for blending); Blade not suitable for task.	Process in smaller batches; Add more liquid if blending; Ensure correct blade is used for the task.
Vibration or excessive noise	Appliance not on a stable surface; Jar/blade not properly seated.	Place on a firm, flat surface; Re-seat the jar and blade securely.
