Mojimdo FLD631RF-BK

Mojimdo 168 LED Floor Lamp with Remote Control

MODEL: FLD631RF-BK

Introduction

This manual provides detailed instructions for the safe and efficient use of your Mojimdo 168 LED Floor Lamp. Please read this manual thoroughly before operating the product and retain it for future reference. This versatile lamp offers adjustable lighting options and a convertible design to suit various environments.

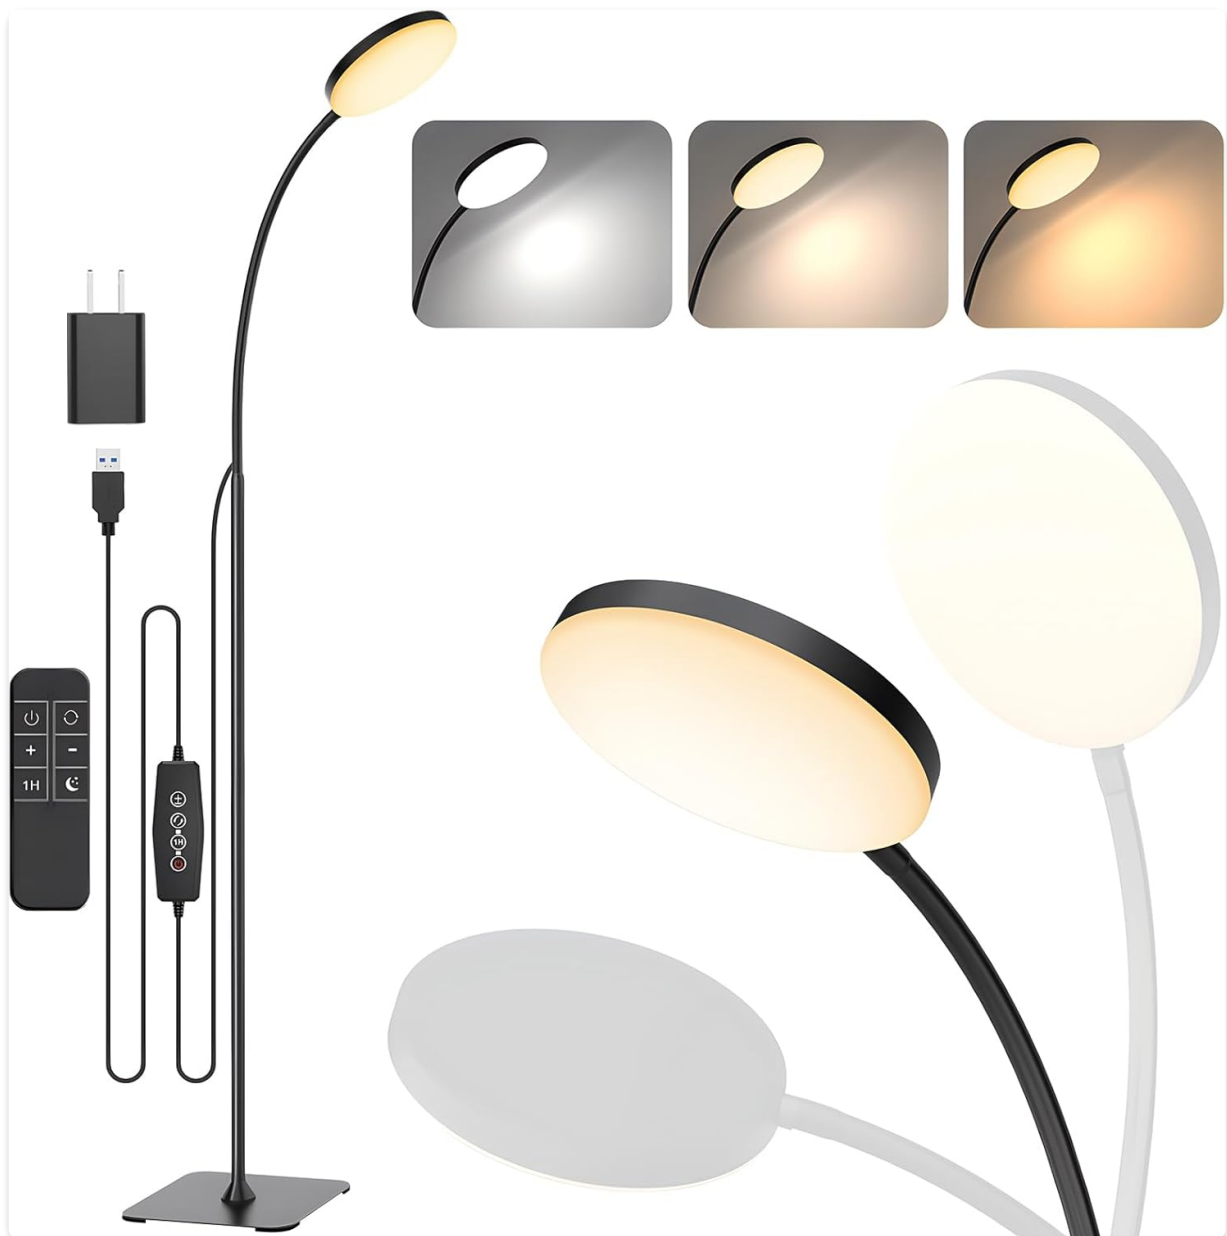

Image: Mojimdo 168 LED Floor Lamp with remote control, adapter, and dimmer on cord, showcasing its components and three light color modes.

Key Features

- **Remote Control Convenience:** Adjust brightness and color temperature from a distance.
- **2-in-1 Convertible Design:** Easily switch between a floor lamp and a desk lamp.
- **Brilliant and Customizable Lighting:** 168 LED beads with 3 color temperatures (3000K, 4500K, 6000K) and 10 brightness levels.
- **360° Adjustable Gooseneck:** Flexible neck for precise light positioning.
- **USB Power with Memory Function:** Powered via USB (5V/2A adapter included) and remembers your last settings.

What's in the Box

Image: Contents of the Mojimdo 168 LED Floor Lamp package, including the lamp head, pole sections, base, remote control, dimmer on cord, and USB power adapter.

- 6.1" Floor Lamp (consisting of lamp head, gooseneck, and detachable pole sections)
- Lamp Base
- Remote Control
- Dimmer on Cord
- 5V/2A USB Power Adapter
- User Manual

Setup Instructions

1. **Assemble the Lamp Pole:** Carefully screw the pole sections together. Ensure each section is securely tightened to form a stable pole.
2. **Attach to Base:** Screw the assembled lamp pole into the heavy-duty base. Ensure it is firmly attached to prevent tipping.
3. **Connect Power:** Plug the USB cable from the lamp into the provided 5V/2A USB power adapter, then plug the adapter into a standard wall outlet.
4. **Remote Control Preparation:** Ensure the remote control has batteries installed (if not pre-installed).

Operating Instructions

Power On/Off

Use the power button on the remote control or the dimmer on the cord to turn the lamp on or off.

Adjusting Color Temperature

Image: The Mojimdo LED Floor Lamp displaying three distinct color temperatures: 3000K Warm Yellow Light, 4500K Cold & Warm Light, and 6000K Cold White Light.

The lamp offers three color temperature modes:

- **3000K:** Warm Yellow Light, ideal for relaxation.
- **4500K:** Natural Light (Cold & Warm), suitable for general activities.
- **6000K:** Cold White Light, best for tasks requiring focus.

Press the 'Color Mode' button on the dimmer or the color temperature button (C icon) on the remote to cycle through these modes.

Adjusting Brightness Levels

— Dimmable Brightness —

Each color mode has **10 levels** of brightness settings

Image: The Mojimdo LED Floor Lamp demonstrating dimmable brightness with 10 levels, showing 100% Bright Light, 50% Balanced Light, and 30% Warm Light settings.

Each color mode has 10 adjustable brightness levels. Use the '+' and '-' buttons on the remote control or the dimmer on the cord to increase or decrease the light intensity.

Timer Function

The remote control features a 1-hour timer. Press the '1H' button on the remote to activate the timer. The lamp will automatically turn off after one hour.

Nightlight Mode

Press the 'Moon' icon button on the remote control to activate a soft nightlight mode, which automatically dims the light to a very low setting.

Memory Function

The lamp is equipped with a memory function that recalls your last used brightness and color temperature settings when turned back on.

Adjustable Gooseneck

The flexible gooseneck allows you to direct the light exactly where needed. Gently bend the gooseneck to

position the lamp head for optimal illumination.

2-in-1 Convertible Design

Image: The Mojimdo LED lamp shown in two configurations: as a tall floor lamp next to a sofa, and as a shorter desk lamp on a table, demonstrating its convertible design.

This lamp can be easily converted between a floor lamp and a desk lamp:

1. **For Floor Lamp Configuration:** Assemble all pole sections and attach them to the base.
2. **For Desk Lamp Configuration:** Remove one or more of the detachable pole sections to achieve the desired height for desktop use. Ensure the remaining sections are securely tightened to the base.

Care and Maintenance

- **Cleaning:** Disconnect the power before cleaning. Use a soft, dry cloth to wipe the lamp. Do not use abrasive cleaners or solvents.
- **Handling:** Handle the lamp with care. Avoid excessive force when adjusting the gooseneck.
- **Storage:** If storing the lamp for an extended period, disassemble it and store it in its original packaging in a dry place.

Troubleshooting

Problem	Possible Cause	Solution
Lamp does not turn on.	No power, loose connection, remote battery low.	Check power adapter connection. Ensure outlet is functional. Replace remote batteries.
Remote control not responding.	Remote batteries low or depleted, obstruction, remote out of range.	Replace remote batteries. Ensure no obstructions between remote and lamp. Operate remote within close proximity to the lamp.
Brightness or color temperature not changing.	Incorrect button pressed, maximum/minimum level reached.	Ensure you are pressing the correct brightness (+/-) or color mode buttons. The lamp has 10 brightness levels and 3 color temperatures.
Lamp is unstable or tips over easily.	Pole sections not fully tightened, base not securely attached, gooseneck extended too far.	Ensure all pole sections are tightly screwed together and the pole is firmly attached to the base. Adjust the gooseneck to maintain balance, especially when extended.

Specifications

— Product Parameter —
