Jorumo Mechanical Shark Building Block Set Model 8600 Instruction Manual

Model: 8600

Brand: Jorumo

1. INTRODUCTION

Thank you for choosing the Jorumo Mechanical Shark Building Block Set Model 8600. This set offers an engaging experience, combining mechanical engineering principles with the fascinating world of sea animals. Designed to stimulate curiosity and enhance problem-solving skills, this model features rotatable components and integrated lighting for an interactive display.

This manual provides detailed instructions for assembly, operation, maintenance, and troubleshooting to ensure a rewarding building and play experience.

2. SAFETY INFORMATION

- **Small Parts Warning:** This set contains small parts which may pose a choking hazard for children under 3 years of age. Adult supervision is recommended for younger builders.
- **Recommended Age:** Suitable for ages 12 years and up.
- **Material Safety:** All components are made from high-standard, high-quality ABS plastic, tested to meet ASTM and CPSIA safety standards.
- **Handling:** Handle components with care to avoid damage or injury.
- **Electrical Components:** If the set includes lighting, ensure proper battery installation and handling. Do not expose electrical components to water.

3. SETUP AND ASSEMBLY

Follow the included step-by-step pictorial instructions carefully. Sort pieces by size and color to streamline the

building process. The manual is designed for clear readability, guiding you through each stage of construction.

Assembly Tips:

- **Organize:** Before starting, sort all pieces into separate containers or areas based on their type, size, and color. This will significantly speed up the assembly.
- **Follow Steps Sequentially:** Each step builds upon the previous one. Do not skip steps or attempt to force pieces together.
- **Check Piece Count:** The instruction manual indicates the number of pieces required for each step. Verify you have the correct pieces before proceeding.
- **Use the Brick Separator:** An orange brick separator is included to help disassemble tightly connected blocks if needed.

4. OPERATING INSTRUCTIONS

The Jorumo Mechanical Shark features interactive elements designed to mimic the movement and appearance of a shark. Once assembled, you can engage with its rotatable link components and lighting system.

Key Features:

- **Rotatable Link Function:** The shark's fins and tail are designed with a rotatable link function. Turn the handle on the display base to activate a swimming motion, simulating graceful underwater movement.
- **Lighting Design:** The model includes integrated lighting to enhance its visual appeal and highlight the intricate mechanical details. Locate the power switch or button, typically on the shark's body or base, to activate the lights.

5. MAINTENANCE

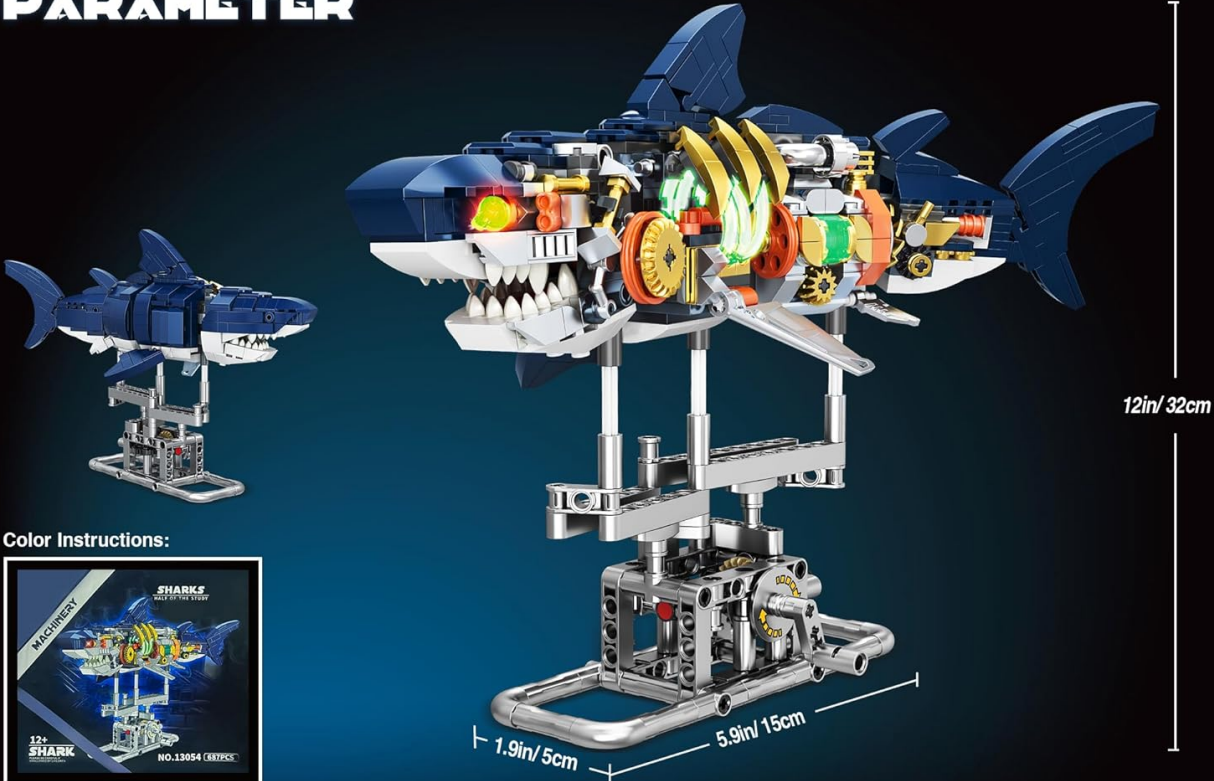

- **Cleaning:** To clean the building blocks, wipe them gently with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the assembled model or loose blocks in a cool, dry place away from direct sunlight to prevent discoloration or warping.
- **Disassembly:** If disassembling, do so carefully to avoid damaging the connection points. Use the included brick separator for stubborn pieces.

6. TROUBLESHOOTING

- **Missing Pieces:** If you find any missing pieces, please contact Jorumo customer support with your product model number and a description of the missing part.
- **Difficulty Connecting Pieces:** Ensure pieces are correctly oriented and aligned. Apply gentle, even pressure. If a piece is particularly tight, try wiggling it slightly.
- **Lights Not Working:** Check if batteries are correctly installed and charged. Ensure the power switch is in the 'on' position.
- **Movement Issues:** Verify that all gears and rotatable components are correctly assembled and free from obstruction. Refer to the assembly instructions for specific details.
