## Maintenance

To ensure the longevity and optimal performance of your ErGear Electric Standing Desk, follow these general maintenance guidelines:

- Regularly wipe down the desktop surface with a soft, damp cloth to remove dust and spills. Avoid abrasive cleaners.
- Check all screws and connections periodically to ensure they remain tight. Tighten if necessary.
- Keep the motor and electrical components free from dust and moisture.
- Do not overload the desk beyond its maximum weight capacity of 154 lbs.

## Troubleshooting

If you encounter any issues with your ErGear Electric Standing Desk, please refer to the following common troubleshooting tips. For more complex problems, contact customer support.

- **Desk not moving:** Ensure the power cable is securely plugged into both the desk and a working power outlet. Check for any obstructions under the desk.
- **Uneven height adjustment:** Perform a reset procedure (refer to the full installation manual for specific steps). Ensure the desk is on a level surface.
- **Unusual noises:** Minor motor sounds are normal during adjustment. If you hear grinding or loud noises, stop operation and check for obstructions or loose components.
- **Control panel not responding:** Unplug the desk from the power outlet for 10-15 seconds, then plug it back in to reset the control system.
