SETUP

The MARVO HG8959 headset connects to your device via a USB cable. Follow these steps for initial setup:

1. **Connect the USB Cable:** Locate an available USB port on your computer, gaming console, or other compatible device. Insert the USB plug of the headset firmly into the USB port.
2. **Driver Installation (Automatic):** For most operating systems (Windows, macOS), the necessary drivers will install automatically upon connecting the headset. Wait for the installation to complete.
3. **Audio Output Configuration:**
 - **Windows:** Go to *Sound Settings* (right-click speaker icon in taskbar) and ensure "MARVO HG8959" or a similar device name is selected as the default playback device.
 - **macOS:** Go to *System Preferences > Sound > Output* and select "MARVO HG8959".

4. Microphone Input Configuration:

- **Windows:** In *Sound Settings > Recording* tab, ensure "MARVO HG8959 Microphone" is set as the default recording device.
- **macOS:** In *System Preferences > Sound > Input*, select "MARVO HG8959 Microphone".

5. **Adjust Volume:** Use the inline volume control on the headset cable or your device's system volume controls to set the desired audio level.

Note: While the headset primarily uses USB for audio and power, some models or specific setups might utilize 3.5mm jacks for audio and microphone. Refer to the connectivity diagram in the Product Overview section for visual guidance on the different plugs.

OPERATING INSTRUCTIONS

Audio Playback:

Once connected and configured, the headset will output audio from your device. Adjust the volume using the inline controller on the headset cable or your operating system's volume settings.

Microphone Usage:

The integrated microphone is designed for clear voice communication. Position the microphone boom appropriately near your mouth for optimal sound pickup. Ensure the microphone is not muted in your system settings or any communication software you are using.

RGB Lighting:

The RGB lighting on the earcups and headband will illuminate automatically when the headset is connected via USB. The lighting effects are pre-programmed and provide an aesthetic enhancement to your gaming setup.

MAINTENANCE

Proper maintenance ensures the longevity and performance of your headset.

- **Cleaning:** Use a soft, dry cloth to wipe down the earcups and headband. For stubborn dirt, a slightly damp cloth with mild soap can be used, but ensure no liquid enters the internal components. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, store the headset in a clean, dry place away from direct sunlight and extreme temperatures. Avoid tangling the cable.
- **Cable Care:** Do not pull on the cable to disconnect the headset. Always grasp the plug. Avoid sharp bends or kinks in the cable, as this can damage internal wires.
- **Earcup Pads:** If the earcup pads become worn, check with the manufacturer for replacement options.

TROUBLESHOOTING

If you encounter issues with your MARVO HG8959 headset, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
No sound from headset	Headset not properly connected. Incorrect audio output device selected. Volume too low or muted. Damaged cable.	Ensure USB cable is fully inserted. Check your device's sound settings and select "MARVO HG8959" as the default output. Increase volume using inline control and system settings. Check for mute. Inspect cable for damage. If damaged, contact support.
Microphone not working	Microphone muted. Incorrect input device selected. Microphone boom not positioned correctly.	Check if the microphone is muted in system settings or communication software. In your device's sound settings, select "MARVO HG8959 Microphone" as the default input. Adjust the microphone boom closer to your mouth.
RGB lighting not working	Headset not powered via USB. Software conflict (rare).	Ensure the USB cable is properly connected and receiving power. Try connecting to a different USB port. Restart your computer/device.

If the problem persists after trying these solutions, please contact MARVO customer support for further assistance.
