1. INTRODUCTION

The VGR 001 Professional Hair Clippers are designed for precise and efficient hair cutting, suitable for both personal and professional use. This cordless barber clipper features high-density carbon steel blades, a powerful motor with adjustable speeds, and an intuitive LED display. This manual provides detailed instructions for the safe and effective operation, maintenance, and care of your VGR 001 Hair Clippers.

2. SAFETY INFORMATION

Please read all safety instructions carefully before using the appliance to prevent injury and damage. Keep this manual for future reference.

- For safe use, keep the appliance away from eyes and face during operation.
- Do not ingest or inhale small parts. Ensure all components are securely attached before use.
- Clean the device properly following manufacturer instructions after each use to maintain hygiene and performance.
- This appliance is not recommended for use by children without direct adult supervision.
- Do not immerse the clipper in water or use it in wet environments.
- Use only the provided charging cable and adapter.

- Do not disassemble or attempt to repair the clipper yourself. Contact customer support for assistance.

3. PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- 1 x VGR 001 Hair Clipper
- 10 x Limiting Combs (1.5mm, 3mm, 4.5mm, 6mm, 9mm, 12mm, 15mm, 18mm, 21mm, 24mm)
- 1 x Blade Oil
- 1 x Charging Base
- 1 x Cleaning Brush
- 1 x Charging Cable (USB Type-C)
- 1 x US Standard Charging Head (Adapter)
- 1 x User Manual

4. PRODUCT OVERVIEW AND FEATURES

4.1 Professional Blades and Taper Lever

The VGR 001 features high-density carbon steel blades with dual-layer overlap technology for sharp, clean cuts. The 5-position adjustable taper lever allows for trimming lengths from 1 mm to 27 mm when used with the included guide combs.

LED LIGHTING OPERATION

ON : Click on the front light button and come with a beeping sound.

OFF : Click again and come with a beeping sound

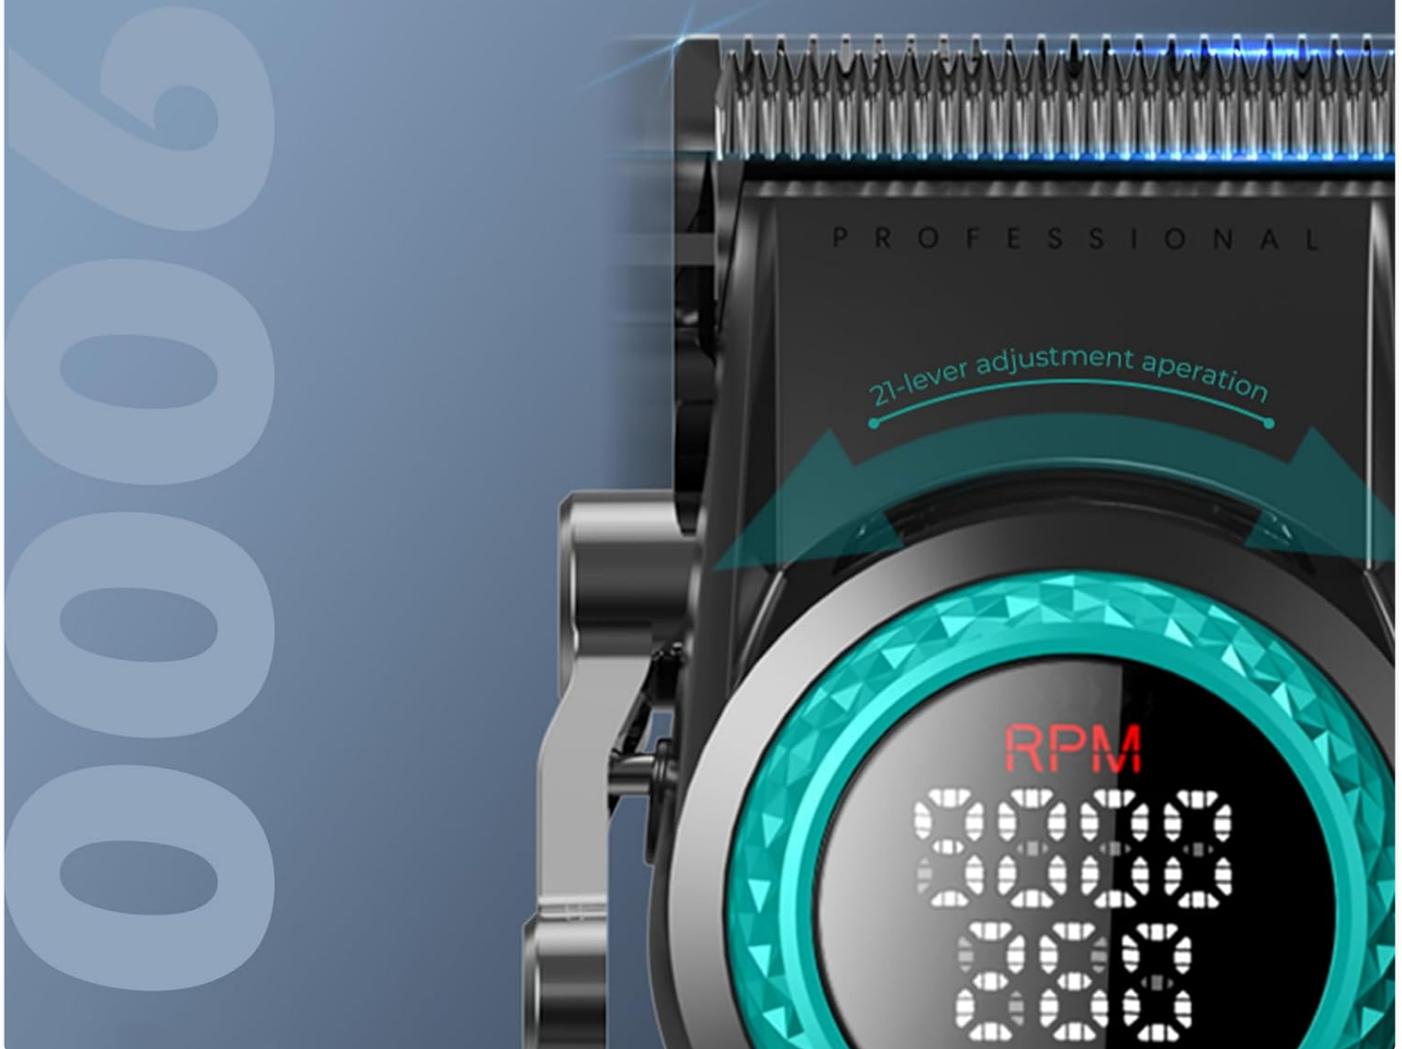

Figure 4.2: Taper Lever Adjustment.

4.2 High-Performance Quiet Motor

Equipped with a powerful motor, the VGR 001 operates at speeds ranging from 7,000 RPM to 9,000 RPM. The center knob allows for 21 speed adjustments in 100 RPM increments, ensuring minimal noise during operation. Smart Clip technology automatically adjusts motor speed based on blade resistance for a smooth trim.

Figure 4.3: Infinitely Variable Speed Adjustment.

4.3 Large LED Display and Front Light

The intelligent digital display shows the current speed (RPM) and remaining operating time (minutes), allowing you to monitor battery life and plan recharges. A dedicated front lighting button illuminates the area directly above the blade for precise haircutting, even in low-light conditions.

4.4 Large Capacity Battery

The clipper is powered by a 4600mAh rechargeable lithium-ion battery, offering safe and durable performance. A full charge takes approximately 3 hours and provides over 260 minutes of continuous operation. The advanced lever lock function ensures 5 stable horizontal locking adjustments for consistent use.

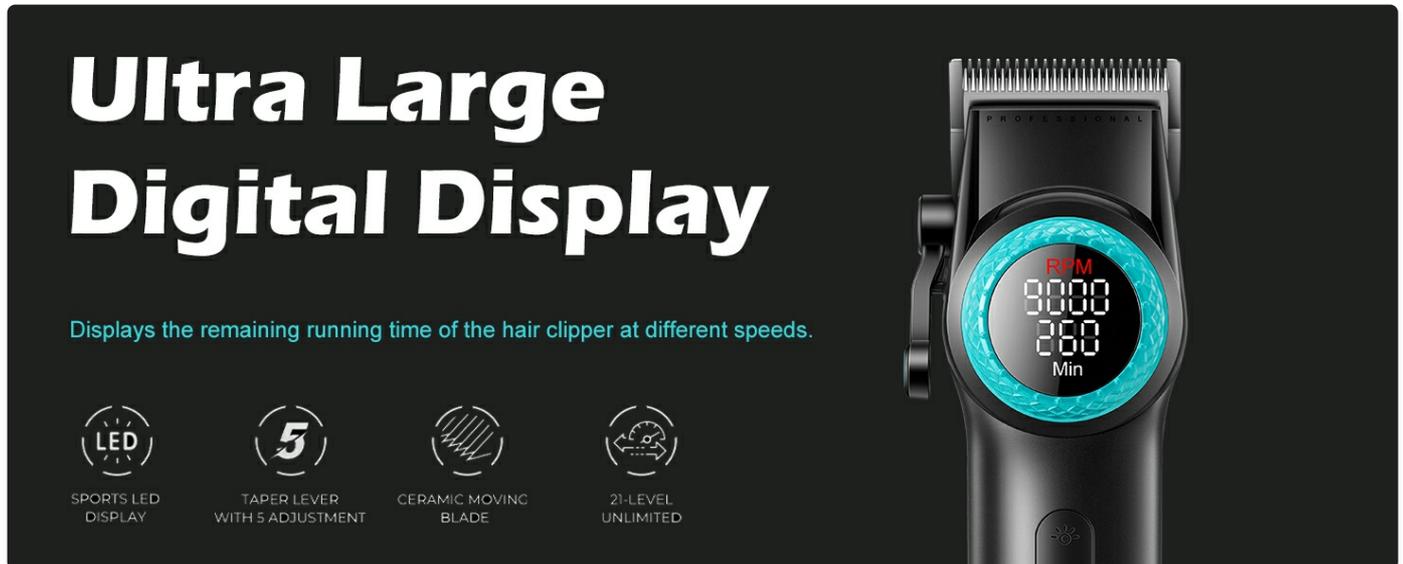

Figure 4.6: Battery Specifications.

5. SETUP

5.1 Initial Charging

Before first use, fully charge the hair clipper. Connect the charging cable to the clipper's Type-C port or place it on the charging base, then plug the adapter into a power outlet. The LED display will indicate charging status. A full charge takes approximately 3 hours using the provided fast charge plug. Using other compatible chargers (5V=1A) may take up to 6 hours.

5.2 Attaching Guide Combs

Select the desired limiting comb based on the hair length you wish to achieve. Align the comb with the clipper blade and push it firmly until it clicks into place. Ensure it is securely attached before operation.

Figure 5.2: Guide Combs and Taper Lever.

6. OPERATING INSTRUCTIONS

6.1 Power On/Off

To turn the clipper ON, press the ON/OFF button located on the front of the device. The LED display will light up. To turn it OFF, press the ON/OFF button again.

6.2 Adjusting Speed (RPM)

Rotate the center knob to adjust the motor speed. You can select from 21 speed settings, ranging from 7,000 RPM to 9,000 RPM, in 100 RPM increments. The current RPM will be displayed on the LED screen.

6.3 Using the Taper Lever

The taper lever on the side of the clipper allows for fine-tuning of cutting lengths without changing guide combs. Adjust the lever to one of the 5 stable horizontal locking positions to achieve desired blending and fading effects.

6.4 Activating the Front Light

Press the dedicated front lighting button, located below the ON/OFF button, to activate the light directly above the blade. This feature is useful for detailed work or in dimly lit environments.

6.5 Hair Cutting Techniques

For best results, ensure hair is clean and dry. Start with a longer guide comb and gradually reduce the length as needed. Move the clipper against the direction of hair growth for an even cut. Use smooth, overlapping strokes.

7. MAINTENANCE

7.1 Cleaning the Blades

After each use, turn off the clipper and remove any attached guide comb. Use the provided cleaning brush to remove loose hairs from the blades and the clipper body. For a more thorough cleaning, you may carefully detach the blade assembly (refer to specific instructions if available in the full manual) and brush away debris.

7.2 Oiling the Blades

To maintain optimal cutting performance and blade longevity, apply a few drops of the included blade oil to the teeth of the blades after every few uses or as needed. Turn the clipper on for a few seconds to allow the oil to distribute evenly. Wipe off any excess oil.

7.3 Storage

Store the clipper in a dry, cool place, away from direct sunlight and moisture. Keep it out of reach of children.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Clipper does not turn on.	Battery is depleted.	Charge the clipper fully.
Clipper pulls hair or cuts poorly.	Blades are dull or dirty; insufficient oil.	Clean and oil the blades. If problem persists, blades may need replacement.
Clipper makes unusual noise.	Blades are not properly aligned or need oiling.	Ensure blades are clean and oiled. If noise continues, contact customer support.
LED display is not working.	Device malfunction.	Ensure the clipper is charged and powered on. If still not working, contact customer support.
