UBeeseize TBC001

UBeeseize 12-inch Ring Light with 62-inch Tripod Stand and Magnetic Phone Holder Instruction Manual

Model: TBC001

1. PRODUCT COMPONENTS

The UBeeseize 12-inch Ring Light package includes the following items:

- 12-inch Pink Ring Light
- 62-inch Tripod Stand
- Magnetic Phone Holder
- Remote Control
- 2pcs Adhesive Metal Rings

MAGNETIC PHONE MOUNT

180 ° Degree Tilt

2. SETUP INSTRUCTIONS

2.1 Assembling the Tripod Stand

1. Unfold the tripod legs to create a stable base. The tripod features a durable aluminum alloy weighted base for enhanced stability.
2. Extend the telescopic pole to your desired height. The 62-inch tripod is fully adjustable, allowing for tabletop or full standing use. Secure each section using the locking mechanisms.

3. Attach the ring light to the international standard 1/4-inch interface on the tripod head. Ensure it is securely fastened.

Image: Illustration of the tripod stand being extended and secured, highlighting its stable design.

2.2 Attaching the Magnetic Phone Holder

1. The magnetic phone holder facilitates easy installation and removal. Secure the phone holder to the center of the ring light.
2. If your phone is an iPhone 15/14/13/12 series or uses a MagSafe case, it will directly attach magnetically.
3. For iPhone 11 and earlier series, and all Android phones, use one of the provided adhesive metal rings. Attach the metal ring to the back of your phone or phone case to enable magnetic attachment to the holder.

3. OPERATING INSTRUCTIONS

3.1 Powering On and Adjusting Light Settings

1. Connect the USB cable to a power source (e.g., USB wall adapter, power bank, computer USB port).
2. Use the touch-sensitive controls located on the ring light to power on/off, adjust brightness, and change

color temperature.

3. The ring light offers 5 levels of color temperature and 10 levels of brightness adjustment. Tap the appropriate buttons to cycle through settings and find your preferred light.

Image: Close-up of the touch-control panel on the ring light, showing power, brightness, and color temperature adjustment buttons.

3.2 Using the Remote Control

1. The included remote control connects via Bluetooth 4.0. Pair it with your smartphone through your phone's Bluetooth settings.
2. Once paired, the remote allows for hands-free photo and video capture.

3.3 Adjusting Phone Orientation

The magnetic phone holder allows for seamless switching between horizontal and vertical modes. Simply rotate your phone on the magnetic mount to change orientation.

4. MAINTENANCE

- Keep the ring light and tripod clean by wiping them with a soft, dry cloth.
- Avoid using abrasive cleaners or solvents that could damage the finish or electronic components.
- Store the device in a cool, dry place when not in use to prolong its lifespan.

5. TROUBLESHOOTING

- **Light not turning on:** Ensure the USB cable is securely connected to both the ring light and a functional power source.
- **Phone not attaching magnetically:** Verify that your phone or case has MagSafe compatibility or that an adhesive metal ring is properly applied.
- **Remote control not pairing:** Check your phone's Bluetooth settings to ensure the remote is discoverable and paired. Refer to your phone's manual for specific Bluetooth pairing instructions.
- **Tripod instability:** Ensure all locking mechanisms on the tripod legs and telescopic pole are fully tightened. The aluminum alloy base is designed for stability, but proper setup is crucial.

6. SPECIFICATIONS

Feature	Specification
Product Dimensions	10"L x 12"W x 74"H
Item Weight	2.99 pounds
Item Model Number	TBC001
Batteries	1 Lithium Metal battery required (included)
Battery Life	3 years
Connectivity Technology	Bluetooth
Hardware Interface	Bluetooth 4.0
