

GYI O205P

GYI O205P High Back Executive Office Chair User Manual

Model: O205P | Brand: GYI

1. INTRODUCTION

Welcome to the user manual for your new GYI O205P High Back Executive Office Chair. This chair is designed to provide superior comfort and support for prolonged periods of sitting, making it ideal for office or home use. Its robust construction and ergonomic features ensure a healthy and productive environment.

- **High Back Executive Design:** Features a generously padded seat and a high backrest for comprehensive spinal support and comfort.
- **Rubber Wheels:** Equipped with dual rubber casters for smooth, quiet, and effortless movement across various floor types without scratching.
- **Heavy-Duty Construction:** Built with a robust metal base, capable of supporting individuals up to 400 lbs (recommended range 250-300 lbs).
- **Ergonomic Support:** Designed with an S-shaped backrest and thick lumbar padding to promote proper posture and reduce discomfort.
- **360-Degree Swivel:** Allows for full rotational movement, enhancing flexibility and ease of access to your workspace.
- **Flip-Up Armrests:** Versatile armrests that can be flipped up to allow the chair to be pushed closer to the desk or for easier entry/exit.
- **Thickened Cushion:** A 6.3-inch thick cushion combined with spring pockets provides superior comfort and durability.
- **Rocking Function:** Adjustable rocking mechanism allowing recline between 90 and 120 degrees, with a locking feature for fixed positions.

2. SAFETY GUIDELINES

Please read and adhere to these safety guidelines to ensure safe operation and longevity of your chair.

- **Weight Limit:** The chair is designed to support up to 400 lbs. However, for optimal performance and longevity, a recommended user weight range of 250-300 lbs is advised. Do not exceed the maximum weight capacity.
- **Adjustable Features:** Always adjust the chair slowly and carefully. Be mindful of your surroundings and avoid sudden movements when using the height adjustment or rocking function to prevent injury.
- **Assembly:** Ensure all components are correctly assembled and all fasteners are securely tightened before using the chair. Periodically check and re-tighten fasteners.
- **Surface Use:** The rubber wheels are suitable for various surfaces including hard floors, carpet, marble, and tile. Ensure the floor is clear of obstructions that could impede wheel movement.
- **Children and Pets:** Keep children and pets away from the chair during assembly and adjustment to prevent accidents.

3. ASSEMBLY INSTRUCTIONS

Follow these step-by-step instructions to assemble your GYI O205P Executive Office Chair. It is recommended to assemble the chair on a soft, clean surface to prevent damage.

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all components listed in your product's parts list are present and undamaged.
2. **Attach Casters to Base:** Insert the five dual rubber casters firmly into the holes at the end of the chair's metal base. Push until they click into place.
3. **Install Gas Lift:** Place the gas lift cylinder into the center hole of the assembled chair base.
4. **Attach Mechanism to Seat:** Secure the seat mechanism to the underside of the seat cushion using the provided screws. Ensure the front of the mechanism aligns with the front of the seat.
5. **Connect Seat to Gas Lift:** Carefully place the assembled seat onto the gas lift cylinder, ensuring it is centered and stable.
6. **Attach Armrests:** Secure the armrests to both the seat and the backrest using the designated screws. Ensure they are tightened evenly.
7. **Attach Backrest to Seat:** Connect the backrest to the seat assembly, aligning the pre-drilled holes and securing with screws.
8. **Final Check:** Once assembly is complete, double-check all screws and connections to ensure they are tight and secure before using the chair.

4. OPERATING INSTRUCTIONS

Familiarize yourself with the adjustable features of your GYI O205P Executive Office Chair to customize your seating experience.

4.1. Height Adjustment

To adjust the seat height, locate the lever on the right side beneath the seat. While seated, pull the lever up to raise the chair. To lower the chair, pull the lever up while applying your weight to the seat. Release the lever at the desired height to lock it in place.

4.2. Rocking Function and Tilt Lock

The chair features a rocking function that allows the backrest to recline between 90 and 120 degrees. To activate the rocking function, pull the lever on the left side (or the same lever as height adjustment, if combined) outwards. To lock the chair in an upright position, push the lever inwards. The tension of the rocking can often be adjusted by a knob located under the seat.

4.3. Armrest Adjustment

The armrests are designed to flip up, providing flexibility for various desk heights and allowing the chair to be pushed further under the desk when not in use. Simply lift the armrests upwards to engage the flip-up mechanism.

5. MAINTENANCE AND CARE

Regular maintenance will help preserve the appearance and functionality of your GYI O205P Executive Office Chair.

- **Cleaning:** For routine cleaning, wipe the chair's surface with a soft, damp cloth. For more stubborn marks, use a mild soap solution, then wipe dry immediately with a clean cloth. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the material.
- **Casters:** Periodically inspect the caster wheels for any accumulated hair, dust, or debris that may impede smooth movement. Clean the wheels as necessary to ensure optimal mobility.
- **Fasteners:** Over time, screws and bolts may loosen. Every few months, check all fasteners and re-tighten them to maintain the chair's stability and safety.
- **Environmental Factors:** Avoid prolonged exposure to direct sunlight, as this can cause the material to fade or crack. Keep the chair away from excessive heat sources or extreme cold.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your GYI O205P Executive Office Chair and provides potential solutions.

Problem	Possible Cause	Solution
Chair does not stay at desired height.	Gas lift cylinder is faulty or loose connection.	Ensure the gas lift is properly seated in the base and seat mechanism. If the issue persists, the gas lift may need replacement. Contact customer support for assistance.
Chair makes noise when moving or adjusting.	Loose fasteners or friction between components.	Check and tighten all screws and bolts, especially those connecting the backrest, armrests, and seat mechanism. A small amount of silicone lubricant can be applied to moving parts if necessary.
Casters do not roll smoothly.	Debris caught in casters or damaged casters.	Turn the chair over and remove any hair, lint, or debris from the caster wheels. If a caster is damaged, it may need to be replaced.
Chair feels wobbly or unstable.	Loose connections or uneven assembly.	Re-check all assembly points and ensure all screws are tightened securely. Make sure the chair is placed on a flat, even surface.
